

NEW RELEASE

YEAR BOOK OF MEDICINE 2020

Author: Gurpreet S Wander

9789390020683 | Two color | 1/e,2021 | Softcover
6.75"x 9.5" | Pages: 382 | Rs. 1495

ABOUT THE BOOK

This is the third year in succession. Like "Year Books of Medicine, 2018 and 2019". Like the previous years, Yearbooks of Medicine, 2018 and 2019 it includes same 9 sections with an expert in the field as the editor. It includes variety of research articles, which cover the range of each section. It is collection of articles for postgraduates and practicing physicians to get an overview of the new developments in various subspecialties of medicine.

KEY FEATURES

- Each section has approx. 21 articles from high-impact factor journals and some important Indian journals.
- A title is given to each commentary, which gives the main message of the trial.
- The commentary discusses the article and relevant issues.
- Uniformity in the pattern of commentaries, simple expressive language, and associated clinical message are distinguished features of the book.
- A compilation of all the significant trials of 2019.
