

NEW RELEASE

The Short Textbook of Medical Laboratory for Technicians

Author: Satish Gupte

Single Color | Paper Back | 3/e, 2021 | 290 Pages | 5.5" x 8.5"

9789390595044 | Price- Rs. 495 | Discount Cat: B

ABOUT THE BOOK

The Short Textbook of Medical Laboratory for Technicians happens to tackle all specialties of clinical laboratory, such as microbiology, biochemistry, blood transfusion and pathology (cytology, histopathology, hematology). In this edition, techniques are discussed step by step, briefly in a very simple and understandable language on microbiology, hematology, immunology, cytology, mycology, parasitology, bacteriology and clinical aspects. New material, such as phase contrast microscope, dark field microscope, interference microscope, polarizing microscope, polarization microscope, electron microscope, PCR technique, gas chromatography, BACTEC, automation in clinical laboratory and clinical cytology is added.

KEY FEATURES

- Thoroughly revised and updated all sections.
- Presents and designed layout script in easy-to-understand format.
- Includes latest and routine techniques discussed in microbiology, pathology, biochemistry, blood transfusion, etc.
- Diagnosis and illustrations included for better understanding.
- Included advanced techniques, such as polymerase chain reaction, automated clinical biochemistry, cytology, etc.
- As visual volume is maintained compact and comprehensive.
