Contents

Vol. 1

Section 1: Head and Neck

1. Clinical Anatomy of the Mouth **3**
B Cristina Verea Linares, Johno Breeze, Sat Parmar

1.1 Introduction *3*
1.2 Boundaries *4*
1.3 Teeth *5*
1.4 Major Salivary Glands *6*
1.5 Minor Salivary Glands *6*
1.6 Tongue *6*
1.7 Muscles of Mastication *7*
1.8 Palate *7*
1.9 Palatine Tonsils *8*

2. Clinical Anatomy of the Pharynx and Esophagus **10**
Joanna Matthan, Vinidh Paleri

2.1 Pharynx *10*
2.2 Esophagus *17*

3. Clinical Anatomy of the Neck **22**
Patrick J Bradley

3.1 Introduction *22*
3.2 What One Needs to Know about the Cervical Lymphatic System? *22*
3.3 Examination of the Neck *25*
3.4 Clinical Landmarks *27*
3.5 Major Muscles of the Neck *28*
3.6 Surgical Triangles of the Neck *29*
3.7 Important Surgical Neck Structures *31*

4. Clinical and Surgical Anatomy of the Major Salivary Glands **36**
Patrick J Bradley

4.1 Introduction *36*
4.2 Surgical Anatomy of the Parotid Gland *37*
4.3 Surgical Anatomy of the Facial Nerve *38*
4.4 Surgical Approaches to the Facial Nerve *39*
4.5 Parapharyngeal Space (PPS) *41*
4.6 Accessory Parotid Tissue *42*
4.7 Surgical Management of Parotid Tumors *43*
4.8 Surgical Anatomy of the Submandibular Gland *46*
4.9 Follow-up after Complicated Surgery *48*

5. A Mucosal Lesion in the Oral Cavity **51**
K David Hay, Randall P Morton

5.1 Introduction *51*
5.2 Ulceration Caused by Trauma *53*

5.3 Recurrent Aphthous Ulceration *54*
5.4 Oral Ulceration Associated with Infection *54*
5.5 Oral Ulceration Associated with Skin Diseases *57*
5.6 Oral Ulceration Associated with Gastrointestinal Disease *64*
5.7 Oral Ulceration Associated with Neoplastic Disease *64*
5.8 Oral Ulceration Associated with Drugs and Bioactive Agents *67*
5.9 Oral Ulceration Associated with Systemic Disease *67*
5.10 Oral Ulceration Associated with Irradiation *67*
5.11 Rarities *67*

6. Suspicious Ulcer or Mass in the Oral Cavity **71**
Johno Breeze, Paragh Vig, Sat Parmar
6.1 Principles *71*
6.2 Presentation *71*
6.3 Epidemiology/Etiology *72*
6.4 Field Change *73*
6.5 Clinical Assessment of the Mouth *73*
6.6 Investigations 74
6.7 Differential Diagnosis *74*
6.8 Treatment Principles of SCC *76*
6.9 Surgery for SCC *77*
6.10 Radiotherapy for SCC *78*
6.11 Chemotherapy for SCC *78*
6.12 Biological Agents for SCC *78*
6.13 Malignancies Arising within the Bones of the Facial Skeleton *79*

7. Swelling or Cyst of the Jaw (Maxilla/Mandible) **80**
B Cristina Verea Linares, Johno Breeze, Sat Parmar
7.1 Presentation *80*
7.2 Radicular Cysts *82*
7.3 Residual Cysts *82*
7.4 Dentigerous Cysts *82*
7.5 Odontogenic Keratocyst *83*
7.6 Ameloblastoma *84*
7.7 Calcifying Odontogenic Tumor *84*
7.8 Solitary Bone Cyst *84*
7.9 Aneurysmal Bone Cyst *85*
7.10 Adenomatoid Odontogenic Tumor *85*

8. Submucosal Cyst or Mass in the Oral Cavity **86**
Johno Breeze, Paragh Vig, Sat Parmar
8.1 Presentation *86*
8.2 Clinical Assessment *86*
8.3 Investigations *86*
8.4 Differential Diagnosis *87*
8.5 Dental Abscess *87*
8.6 Salivary Gland Stones *89*
8.7 Salivary Gland Swellings *90*
8.8 Odontogenic Cysts and Tumors *90*
8.9 Bony Torus *90*

9. Taste Disorder **92**
Carl Philpott
9.1 Introduction *92*
9.2 Epidemiology and Etiology *92*
9.3 Pathophysiology of Taste Disorders *93*
9.4 Assessment of the Patient with Taste Disorders *93*
9.5 Differential Diagnosis *97*
9.6 Burning Mouth Syndrome *99*
9.7 Management *99*

10. Dry Mouth **103**
Patrick J Bradley, K David Hay, Randall P Morton
10.1 Symptoms/Complaints *103*
10.2 Introduction *104*
10.3 Physiology *104*
10.4 Causes *105*
10.5 Complications of Hyposalivation *106*
10.6 Diagnosis *108*
10.7 Treatment *109*
10.8 Xerostomia/Hyposalivation and the Elderly *110*
10.9 Sjögren's Syndrome *110*
10.10 Footnote: Dental Hygiene *113*

11. The Adolescent Presenting with a Nasopharyngeal Mass: [A Teenager +/- Early Adult Presenting with Nasal Obstruction +/- Recurrent Epistaxis] **115**
Patrick J Bradley, Alok Thakar
11.1 Introduction *115*
11.2 Differential Diagnosis *116*
11.3 Investigation *116*
11.4 Juvenile Nasopharyngeal Angiofibroma (JNA) *116*
11.5 Extranasopharyngeal Angiofibromas (ENAS) *118*
11.6 Nasopharyngeal Cysts *118*
11.7 Antrochoanal Polyps (ACPs) *119*
11.8 Vascular Tumors *120*
11.9 Wegener Granulomatosis *120*
11.10 Malignant Sinonasal and Nasopharyngeal Tumors *120*

12. Cyst in the Neck **123**
Patrick J Bradley
12.1 Introduction *123*
12.2 Symptoms *125*
12.3 Investigation *126*

13. Recurrent/Persistent Diffuse Parotid Swelling **136**
Patrick J Bradley, Randall P Morton
13.1 Introduction *136*
13.2 Symptoms *136*
13.3 Specific Diseases *137*

14. Mass in the Parotid Gland **148**
Patrick J Bradley
14.1 Introduction *149*
14.2 Symptoms *149*

14.3 Evaluation and Physical Examination *150*
14.4 Investigations *153*
14.5 Imaging *154*
14.6 Parotid Mass in Adults *155*
14.7 Parotid Mass in Children *163*

15. Recurrent Painful Submandibular Gland Swelling **167**
Patrick J Bradley, Randall P Morton
15.1 Physiology *167*
15.2 Presenting Symptoms *168*
15.3 Examination *169*
15.4 Investigations *169*
15.5 Submandibular Noncalculus Obstructive Sialadenitis *169*
15.6 Submandibular Sialolithiasis *170*
15.7 Submandibular Non-Obstructive Sialadenitis *172*
15.8 Submandibular Gland Excision *174*

16. Persistent/Progressive Submandibular Mass **175**
Patrick J Bradley
16.1 Symptom Presentation *175*
16.2 Differential Diagnosis *175*
16.3 Investigation *176*
16.4 Cystic Lesions *176*
16.5 Sialadenitis *177*
16.6 Autoimmune Sialadenitis *177*
16.7 Vascular Malformations *178*
16.8 Benign Neoplastic Lesions *179*
16.9 Salivary Gland Neoplasms *179*

17. Enlarged Cervical Lymph Nodes **183**
Patrick J Bradley
17.1 Introduction *183*
17.2 Symptoms *184*
17.3 Presentation and Diagnosis *184*
17.4 Classification of Cervical Nodal Groupings *184*
17.5 Pediatric Cervical Lymphadenopathy *187*
17.6 Adult Cervical Lymphadenopathy *190*
17.7 Classification of Malignant Cervical Nodal Disease *193*
17.8 Patient with the “Clinically Unknown Primary” *195*
17.9 Treatment of Metastatic Cervical Nodal Disease *195*
17.10 Causes of Supraclavicular Adenopathy *196*

18. Recurrent or Persistent Sore or Irritable Throat **201**
Randall P Morton
18.1 Introduction *201*
18.2 Recurrent Acute Sore Throat *202*
18.3 Chronic Irritable/Sore Throat *202*
18.4 Examination *203*
18.5 Investigations *204*
18.6 Treatment *204*

19. Difficulty in Swallowing **205**
Umesh Ullal, Vinidh Paleri
19.1 Introduction *205*
19.2 General Demographics *205*
19.3 Anatomy and Physiology of Swallowing *206*
19.4 Evaluation of Dysphagia *207*
19.5 Swallowing Therapy *212*
19.6 Dietetic Management *213*

20. The Toxic Patient with Sore Throat and/or Painful Neck **214**
Patrick J Bradley
20.1 Introduction *214*
20.2 Symptoms *215*
20.3 Presentation *215*
20.4 Diagnosis *215*
20.5 Anatomy *217*
20.6 Medical Management *218*
20.7 Surgical Therapy *219*
20.8 Complications *219*
20.9 Infections of Individual Deep Neck Spaces *220*

21. Thyroid Mass **224**
Nick Roland, Shaun Jackson
21.1 Introduction *224*
21.2 Anatomy *225*
21.3 Clinical Assessment *225*
21.4 Investigations *226*
21.5 Classification *227*
21.6 Thyroid Surgery *230*
21.7 Management of Thyroid Cancer *231*
21.8 Post-Treatment Follow-Up and Aftercare *232*

22. Cranial Nerve Lesion **233**
R Theo Gregor
22.1 Introduction *233*
22.2 Cranial Nerve I: Olfactory Nerve *233*
22.3 Cranial Nerve II: Optic Nerve *234*
22.4 Cranial Nerves III, IV, and VI: Oculomotor, Trochlear, and Abducens *234*
22.5 Cranial Nerve V: Trigeminal *235*
22.6 Cranial Nerve VII *236*
22.7 Cranial Nerves IX and X: "The Wandering Nerve"—The Glossopharyngeal and Vagus Link *237*
22.8 Cranial Nerve XI: Spinal Accessory Nerve *239*
22.9 Cranial Nerve XII: Hypoglossal Nerve *239*
22.10 Phrenic Nerve—Considerations *240*
22.11 Sympathetic Trunk: Horner's Syndrome *240*

23. Trismus (Difficulty in Opening Mouth) **241**
Zahoor Ahmad, Randall P Morton
23.1 Definition *241*
23.2 Pathophysiology: Normal Mouth Opening *241*

23.3 Mechanism of Classical Trismus *242*
23.4 Types of Trismus *242*
23.5 Etiology: Causes of Trismus *242*
23.6 Children with Trismus *243*
23.7 Young and Adult Patients *243*
23.8 Elderly Patients *243*
23.9 All Patients *243*
23.10 Treatment of Trismus *244*

24. Facial Pain and Headache **247**
Jim Bartley
24.1 Introduction *247*
24.2 History Taking *248*
24.3 Pain Pathophysiology *251*
24.4 Migraine *251*
24.5 Tension Headache *252*
24.6 Medication Overuse Headache *252*
24.7 Sinusitis *252*
24.8 Contact Points and Nasal Obstruction *253*
24.9 Temporomandibular Joint Disorders *253*
24.10 Tooth Pain *254*
24.11 Examination *254*
24.12 Investigations *255*

25. Probable Skin Cancer (Head and Neck) **258**
Nick Roland, Aamir Memon
25.1 Introduction *259*
25.2 Nonmelanoma Skin Cancer *259*
25.3 Basal Cell Carcinoma *260*
25.4 Squamous Cell Carcinoma of the Skin *260*
25.5 Keratoacanthoma *261*
25.6 Merkel Call Carcinoma *261*
25.7 Melanoma *261*
25.8 Clinical History *262*
25.9 Clinical Examination *263*
25.10 Investigations *264*
25.11 Staging Systems *264*
25.12 Treatment Options *264*
25.13 Follow-Up *266*

26. Facial Trauma **268**
David G Stoddard, Grant S Hamilton
26.1 Introduction *268*
26.2 Epidemiology, Classification, and Presentation *268*
26.3 Specific Structures *278*

27. Penetrating Neck Trauma **283**
Burgess CA, OT Dale, Almeyda R, Corbridge RJ
27.1 Introduction *284*

28. Hyperparathyroidism **297**
Yasmin Abbas, M Shahed Quraishi
28.1 Definition *297*
28.2 Pathophysiology *298*

28.3 Management of Algorithm *298*
28.4 Management Options *303*

29. Frey's Syndrome **307**
Patrick J Bradley, Randall P Morton
29.1 Introduction *307*
29.2 Etiology and Incidence *308*
29.3 Pathophysiology *308*
29.4 Investigation *309*
29.5 Prevention ("Prevention is Better than Cure") *311*
29.6 Treatment of Established Frey's Syndrome *311*

30. First Bite Syndrome **315**
Patrick J Bradley
30.1 Symptoms *315*
30.2 Pathophysiology *315*
30.3 Etiology *316*
30.4 Incidence *316*
30.5 Investigation *316*
30.6 Treatment *316*

31. Halitosis **319**
Seoungyeun Han, Salil B Nair
31.1 Etiology *319*
31.2 Symptoms *319*
31.3 Consultation *319*
31.4 Main Causes *320*
31.5 Treatment *323*

Section 2: Laryngology

32. Anatomy of the Larynx and Tracheobronchial Tree **327**
Kim Ah-See
32.1 Overview *327*
32.2 Structure *328*
32.3 Cartilages *328*
32.4 Membranes and Ligaments *330*
32.5 Muscles *330*
32.6 Nerve Supply *330*
32.7 Blood Supply *331*
32.8 Mucous Membrane *331*
32.9 Lymphatics *332*
32.10 Microstructure of the Vocal Fold *332*
32.11 Clinical Aspects of Laryngeal Anatomy *332*
32.12 Overview *333*
32.13 Structure *333*
32. 14 Cartilages *333*
32.15 Membranes and Muscles *333*
32.16 Nerve Supply *334*
32.17 Blood Supply *334*
32.18 Lymphatics *334*

33. Physiology of the Larynx **335**
Kim Ah-See
33.1 Introduction *335*
33.2 Airway Protection *335*
33.3 Respiration *336*
33.4 Voice Production *337*
33.5 Olfaction *337*
33.6 Pubertal Changes (Pubophonia) *338*
33.7 Aging Voice (Presbyphonia) *338*

34. Assessment of the Difficult Airway **339**
Neil O'Donnell, Kenneth MacKenzie
34.1 Introduction *339*
34.2 Otolaryngology—Head and Neck Surgery Perspective *340*
34.3 Examination *340*
34.4 Investigation *341*
34.5 Airway Access for the Otolaryngologist *341*
34.6 Anesthesia Perspective *342*
34.7 Post-assessment Key Considerations *343*
34.8 Future *345*

35. Objective Evaluation of the Voice **346**
Paul Carding
35.1 Introduction *346*
35.2 Simple Aerodynamic Measures *347*
35.3 Complex Aerodynamic Assessment Measures *347*

36. Pain in the Larynx (No Swelling) **349**
Kim Ah-See
36.1 Overview *349*
36.2 History *349*
36.3 Examination *350*
36.4 Investigations *351*
36.5 Management *351*

37. Stridor and Airway Obstruction **353**
Kenneth MacKenzie
37.1 Introduction and Definitions *353*
37.2 Differential Diagnosis *354*
37.3 Acute Stridor *354*
37.4 Chronic Onset Stridor *355*

38. Laryngeal Trauma—Blunt Injury **358**
Omar Hilmi
38.1 Presenting Symptoms *358*
38.2 Priority Management *359*
38.3 Investigations *359*
38.4 Immediate Management *359*
38.5 Surgical Management *361*
38.6 Complications of Laryngeal Trauma *361*

39. Unremitting Rough or Husky Voice **363**
Kenneth MacKenzie
39.1 Presenting Symptom *363*
39.2 Differential Diagnoses/Clinical Features *364*

39.3 Clinical Characteristics *364*
39.4 Investigation *369*
39.5 Treatment *369*
39.6 Results of Treatment *371*

40. Weak, Breathy Voice **372**
Stuart Robertson
40.1 Presenting Symptom *372*
40.2 Clinical Assessment *372*
40.3 Differential Diagnosis *373*
40.4 Clinical Characteristics *373*
40.5 Management *375*

41. The Professional Voice—Assessment and Care **377**
Michael S Benninger
41.1 Introduction *378*
41.2 Laryngeal Anatomy and Physiology in Relationship to the Singer *378*
41.3 Laryngeal Evolutionary Changes *380*
41.4 Evaluation of the Singing Voice *381*
41.5 Medical and Surgical Disorders in the Singer *383*
41.6 Surgery in a Singer *384*
41.7 Office-Based Procedures *385*
41.8 Communicating with the Performer as a Patient *386*

42. Chronic Cough **388**
Jacqui Allen
42.1 Introduction and Definitions *388*
42.2 Allergy *393*
42.3 Investigations *393*
42.4 Treatment *394*

43. LP Reflux **398**
Jacqui Allen
43.1 Introduction *398*
43.2 Differential Diagnosis *399*
43.3 Investigation *404*
43.4 Treatment *405*

44. Hemoptysis **410**
Stuart Robertson
44.1 Presenting Symptom *410*

45. Request for Gender Voice Change **414**
Bren Dorman
45.1 Introduction: Principles of Care *414*
45.2 Relevant Basic Voice Physiology for Gender and Pitch *415*
45.3 Effect of Age *415*
45.4 Effect of Medication and Hormones *415*
45.5 Voice Assessment: Videostroboscopy, Voice Analysis *415*
45.6 Surgical Options *416*

46. Voice Rehabilitation after Laryngectomy **419**
Catherine Dunnet
46.1 Introduction *419*
46.2 Preoperative Assessment and Case History *419*

46.3 Primary Surgical Voice Restoration *420*
46.4 Secondary Surgical Voice Restoration *420*
46.5 Voice Prostheses *421*
46.6 In-Dwelling versus Ex-Dwelling Prostheses *421*
46.7 Sizing, Fitting, and General Management *422*
46.8 Management of Leakage *424*
46.9 Management of Patients Who are Unable to Achieve Voice Following SVR *424*
46.10 Permanent Removal of the Voice Prosthesis *425*
46.11 Prostheses Comparison *425*
46.12 Esophageal Voice *425*
46.13 Patients Unable to Achieve Voice *425*
46.14 Electrolarynx *426*
46.15 Heat-Moisture Exchange Systems *426*
46.16 Hands-Free Systems *427*

47. The Troublesome Tracheostomy **428**
Omar Hilmi
47.1 Introduction *428*
47.2 Early Problems: Tube Displacement/Placement *431*
47.3 Long-term Tracheostomy Problems *433*

48. Intermittent or Recurrent Hoarseness **436**
Randall P Morton, Kenneth MacKenzie
48.1 Introduction *436*
48.2 Etiology *436*
48.3 Examination *437*
48.4 Management *438*

49. Impacted Foreign Body in Airway **439**
Nikola Lilic, Randall P Morton
49.1 Introduction *439*
49.2 Points to Note on Soft Tissue X-ray of the Neck *441*
49.3 Examination Technique *441*
49.4 Complications *446*

50. Aspiration **448**
David E Vokes, Esther Ong, Jeanette Gillibrand
50.1 Definition *448*
50.2 Pathophysiology *449*

Index 459

Contents

Vol. 2

Section 1: Rhinology

1. Clinical Anatomy of the Nose and Sinuses **3**
Ilia Ianovski, Laura Harrison, Anshul Sama, Salil B Nair, Zahoor Ahmad

1.1 Overview *3*
1.2 Development *4*
1.3 Histology of the Nasal Cavity and Sinuses *4*
1.4 Anatomy *5*
1.5 Radiologic Anatomy of the Sinuses *8*
1.6 Imaging *14*

2. Acute General Nasal Symptoms **15**
Ravinder Natt, Claire Hopkins

Diagnostic Summary of Symptoms *15*
Acute Nasal Discharge *15*
2.1 Nasal Foreign Body *15*
2.2 Odontogenic *17*
2.3 Acute Rhinosinusitis *17*
2.4 CSF Rhinorrhea *20*
2.5 Rhinitis *21*
2.6 Adenoiditis *22*
2.7 Septal Abscess *23*
2.8 Facial Cellulitis *24*
2.9 Allergic Reaction *24*

3. Nasal Congestion and Nasal Obstruction **26**
Nikhil J Bhatt, Taher Valika, Salil B Nair, Zahoor Ahmad

3.1 Introduction *26*
3.2 Allergic Rhinitis *27*
3.3 Nonallergic Rhinitis *28*
3.4 Adenoid Hypertrophy (*See* Pediatric Chapters on Nasal Obstruction and Snoring) *30*
3.5 Unilateral Choanal Atresia *30*
3.6 Nasal Septal Deviation *31*
3.7 Nasal Valve Collapse *32*
3.8 Nasal Polyps *32*
3.9 Foreign Body *34*
3.10 Acute Rhinosinusitis *35*
3.11 Common Cold *36*
3.12 Nasal Masses *36*
3.13 This is How We Do It (Nick Bhat (USA) Approach) *37*

4. Nasal Discharge **40**
Laura Harrison, Anshul Sama, Salil B Nair
4.1 Definition of Rhinorrhea *40*
4.2 Clear Rhinorrhea *41*
4.3 Mucopurulent Rhinorrhea *43*
4.4 Bloody Rhinorrhea *46*

5. Postnasal Drip **50**
Raewyn G Campbell, Richard G Douglas
5.1 Introduction *50*
5.2 Diagnosis *52*
5.3 Clinical Features *52*
5.4 Investigations *52*
5.5 Diagnostic Summary *52*
5.6 Rhinologic *53*
5.7 Chronic Rhinosinusitis *53*
5.8 Allergic Rhinitis *55*
5.9 Vasomotor Rhinitis *56*
5.10 Irritants/Toxins/Occupational Rhinitis *57*
5.11 Anatomical Abnormalities *57*
5.12 Other *58*
5.13 Reflux-Related *58*

6. Facial Pain **70**
Chin Chean Yong, Tim J Woolford
6.1 Introduction *70*
6.2 History *70*
6.3 Clinical Examination *73*
6.4 Specific Conditions Causing Facial Pain *73*
6.5 Midfacial Segment Pain (Tension-Type Facial Pain) *75*
6.6 Atypical Facial Pain *76*
6.7 Pain Due to Malignancy *76*

7. Sneezing **77**
Neeraj Sethi, Victoria Ward
7.1 Rhinitis *77*
7.2 Photic Sneeze Reflex *80*
7.3 Neurogenic Sneezing *81*
7.4 Psychogenic Sneezing *81*
7.5 Snatiation Reflex *81*
7.6 Sexual Ideation/Orgasm *82*

8. Disorders of Smell **83**
Emma McNeill, Sean Carrie
8.1 Introduction *83*
8.2 Definition of Olfaction *83*
8.3 Physiology of Olfaction *83*
8.4 Clinical Evaluation of the Patient with Dysosmia *84*
8.5 Causes of Olfactory Loss *87*
8.6 Management of Olfactory Disorders *89*
8.7 Quality-of-Life Issues *89*

9. Bleeding Nose (Epistaxis) **91**
Claudio Callejas, Salil B Nair
9.1 Introduction *91*
9.2 Epidemiology and Classification *91*
9.3 Vascular Anatomy *92*
9.4 History Taking and Examination *93*
9.5 Stopping the Bleeding *93*
9.6 Causes and Associated Conditions Assessment *94*

10. Sleep-Disordered Breathing **103**
Simon Carney, Stuart MacKay
10.1 Pediatric Snoring and Sleep-Disordered Breathing *103*
10.2 Adult Sleep-Disordered Breathing *104*
10.3 Tips and Pearls *107*

11. Functional and Aesthetic Analysis of the Nose **109**
Pietro Palma, Iman Khodaei, Irina Vasilenko
11.1 Nose—A Complex Organ *109*
11.2 Five Building Blocks of Preoperative Workup *109*
11.3 Technical Challenge *117*

12. Trauma to Nose **122**
Stephen Lo
12.1 Nasal Anatomy *122*
12.2 Applied Anatomy *123*
12.3 Epidemiology *125*
12.4 Pathophysiology of Nasal Trauma *125*
12.5 Symptoms *126*
12.6 Clinical Features *126*
12.7 Investigations *127*
12.8 Treatment *127*
12.9 How I Do It? *128*

13. Crooked Nose **130**
Hemal Raja, Julian M Rowe-Jones
13.1 Introduction *130*
13.2 History *131*
13.3 Physical Examination and Analysis *131*
13.4 Preoperative Planning *131*
13.5 Septum *132*
13.6 Nasal Tip *132*
13.7 Contraindications *133*
13.8 Surgical Techniques *133*
13.9 Postoperative Management *137*
13.10 Complications *137*

14. Saddle Nose **138**
Amit D Bhrany, Craig S Murakami
14.1 Introduction *138*
14.2 Etiology and Preoperative Evaluation *138*
14.3 Classification and Treatment *139*

15. The Patient Wanting to Alter Asian Nose **144**
Ian Loh, Jung Dong Hak
15.1 Introduction *144*
15.2 Anatomy *144*
15.3 Principles in Asian Rhinoplasty *146*
15.4 Specific Surgical Techniques *147*

16. Prominent Nose **151**
Pietro Palma, Iman Khodaei, Irina Vasilenko
16.1 Introduction *151*
16.2 Definition and Clinical Presentations *151*
16.3 Clinical Assessment *152*
16.4 Facial Photography *153*
16.5 Surgical Planning *154*
16.6 Surgical Solutions *154*

17. Nasal Valve Collapse **163**
W Heppt, T Hildebrandt, Julia Vent
17.1 Introduction *163*
17.2 Physiology *164*
17.3 Etiology *164*
17.4 Diagnosis *165*
17.5 Treatment *165*

18. Septoplasty **183**
Robert Almeyda, Humera Babar Craig, Huib van Waegeningh, Hade Vuyk
18.1 Introduction *183*
18.2 Etiology and Prevalence of Septal Deviation *183*
18.3 Indications *183*
18.4 Diagnostic Assessment *184*
18.5 Surgical Anatomy *184*
18.6 Surgical Technique *185*
18.7 Complications *189*
18.8 Results *189*

19. Septal Perforation **191**
Ullas Raghavan
19.1 Anatomy of Nasal Septum *191*
19.2 Etiology *192*
19.3 Symptoms of Nasal Septal Perforation *192*
19.4 Investigations *193*
19.5 Treatment *193*

Section 2: Facial Plastics

20. Analysis of Aging Face **207**
KV Vishwas, Ullas Raghavan
20.1 Introduction *207*
20.2 Age-Related Changes in Facial Structures *208*

20.3 Consultation *209*
20.4 Facial Asymmetry *209*
20.5 Clinical Examination *210*

21. Facial Aging and Role of Botulinum Toxin in Aging Face **214**
Frederick Wong, Gordon Soo
21.1 Introduction *214*
21.2 Initial Assessment of Patients *215*
21.3 Clinical Examination—Look for Signs of Aging *215*
21.4 Patient Counselling—Choose Your Weapons Wisely and Correctly *215*
21.5 Botulinum Toxin *216*
21.6 Fillers Injection *220*

22. Lasers and IPL in Facial Plastics **227**
PP Cheang, A D'Souza
22.1 Introduction *227*
22.2 Essential Concepts *227*
22.3 Region: Face *230*
22.4 Presentation: Rhytids *231*
22.5 Presentation: Vascular Lesions *233*
22.6 Presentation: Unwanted Facial Hair *235*
22.7 Presentation: Facial Dyschromia *237*
22.8 Presentation: Hypertrophic Scars *237*
22.9 Future Trends *238*

23. Brow Ptosis and Its Management **240**
Sandeep Uppal
23.1 Introduction *240*
23.2 Surgical Anatomy of the Forehead, Brow, and Eye *241*
23.3 Brow Aesthetics *245*
23.4 Age-Related Changes in Brow's Shape and Position *245*
23.5 Management *249*
23.6 Postoperative Care *257*
23.7 Complications *257*

24. Mid-Face Lift **259**
Sandeep Uppal, Nadia Ashraf, Ullas Raghavan
24.1 Introduction *259*
24.2 Surgical Anatomy *260*
24.3 Preoperative Assessment *266*
24.4 Midfacial Rejuvenation *267*
24.5 Surgical Techniques for Facelift *270*
24.6 Nonsurgical Techniques for Facelift *274*
24.7 Complications *275*

25. Aesthetic Surgery of the Neck and Submental Region **278**
Jamil Asaria, Ashlin J Alexander
25.1 Introduction *278*
25.2 Relationship between Neck Configuration and Aesthetics *278*
25.3 Anatomy and Classification *279*
25.4 Patient Evaluation *280*

25.5 Augmentation of the Mentum *281*
25.6 Submental Liposuction *282*
25.7 Submental Platysmaplasty *283*

26. Correction of Lids (Blepharoplasty) **285**
Don Julian De Silva, Brett Kotlus
26.1 Introduction *285*
26.2 Eyelid Anatomy *286*
26.3 Indications for Blepharoplasty *288*
26.4 Features in Clinical History *289*
26.5 Typical Findings in Examination *291*
26.6 Investigations *291*
26.7 Preferred Treatment *292*
26.8 Complications of Treatment *296*

27. Drooping Eyelids (Ptosis) **298**
Don Julian De Silva, Robert Schwarcz
27.1 Presentation: Ptosis *298*
27.2 Anatomy—Key Points *298*
27.3 Ptosis Causes *301*
27.4 Diagnostic Summary *301*
27.5 Involutional Ptosis *302*
27.6 Third Cranial Nerve Palsy *303*
27.7 Sympathetic Nerve Palsy (Horner's Syndrome) *304*
27.8 Myasthenia Gravis and Ptosis *305*
27.9 Mechanical Ptosis *305*
27.10 Congenital Ptosis *305*
27.11 Myogenic Ptosis *306*

28. Correction of Ears (Otoplasty) **307**
M Kicken, N van Heerbeek, Koen JAO Ingels
28.1 Introduction *307*
28.2 Anatomy *307*
28.3 Measurements and Diagnosis *308*
28.4 Prevention *309*
28.5 Treatment *309*
28.6 Complications *311*

29. Correction of Small Ears (Microtia) **314**
Yogesh Bajaj, Rishi Talwar
29.1 Introduction *314*
29.2 Embryology of External Ear *314*
29.3 Epidemiology and Etiology *315*
29.4 Normal Pinna *315*
29.5 Types of Microtia *315*
29.6 Classification of Microtia *316*
29.7 Classification of External Auditory Canal Atresia *316*
29.8 Assessment of the Patient *316*
29.9 Treatment Options *317*

30. Facial Weakness **321**
Jennifer Kim
30.1 Introduction *321*
30.2 Epidemiology and Classification of Facial Paralysis *322*
30.3 Anatomy and Pathophysiology of Facial Nerve Paralysis *324*
30.4 Assessment of the Facial Paralysis Patient *325*
30.5 Electrodiagnostic Studies *326*
30.6 Management *327*
30.7 Surgical Reanimation Procedures *329*

31. Pigmented and Nonpigmented Lesions of the Face **335**
M Veenstra, GAM Krekels
31.1 Basal Cell Carcinoma *335*
31.2 Squamous Cell Carcinoma *338*
31.3 Intermezzo AK and Bowen's Disease *340*
31.4 Melanoma Skin Cancer *344*

32. Mohs' Micrographic Surgery **351**
M Veenstra, GAM Krekels
32.1 Introduction *351*
32.2 Mohs' Surgery versus Conventional Excision *351*

33. Local Flaps for Facial Reconstruction **355**
Sarah J Novis, Shan R Baker
33.1 Principles of Flap Design *355*
33.2 Defect Analysis *356*
33.3 Types of Local Flaps *357*

34. Correction of Facial Scars **366**
Michael G Brandt, Corey C Moore
34.1 Introduction *366*
34.2 Skin Anatomy—Key Points (Bichakjian and Johnson, 2007) *366*
34.3 Normal Wound-Healing Pathophysiology *367*
34.4 Evidence-Based Techniques to Improve Scar Outcomes *367*
34.5 Unsatisfactory and Pathologic Scarring *368*

35. Frontal Sinus Fracture **374**
Mahdi Shkoukani
35.1 Epidemiology and Pathogenesis *374*
35.2 Clinical Features *375*
35.3 Investigations *375*
35.4 Preferred Treatment *376*
35.5 Complications of Disease *380*
35.6 Complications of Treatment *381*

36. Midface and NOE Fractures **383**
Mahdi Shkoukani, Sandeep Uppal, Lucio Pereira
36.1 Clinical Features *383*
36.2 Investigations *384*

36.3 Classification of Midface Fractures *384*
36.4 Preferred Treatment *387*
36.5 Treatment Outcome(S) *393*
Appendix 36.1: Facial Trauma Analysis *396*

37. Orbital Floor Fracture **400**
Yip Chee Chew
37.1 Introduction *400*
37.2 Epidemiology of Orbital Floor Fractures *400*
37.3 Anatomy of the Orbital Floor *401*
37.4 Pathophysiology of Orbital Floor Fractures *401*
37.5 Assessment of Patient with Orbital Floor Fracture *401*
37.6 Investigations *402*
37.7 Treatment *403*
37.8 Postoperative Care *404*
37.9 Postoperative Complications *404*

38. Mandible Fracture **406**
Lai Juen Bin
38.1 Etiology *406*
38.2 Anatomy of the Mandible and Its Related Structures *406*
38.3 Classification of Mandibular Fractures *408*
38.4 Signs and Symptoms of Mandibular Fractures *409*
38.5 Radiographic Investigations for Mandibular Fractures *409*
38.6 Treatment Principles *410*
38.7 Biomechanics of the Mandible *410*
38.8 Treatment Options for Mandibular Fractures *412*
38.9 Soft Tissue Approaches to Mandibular Fractures *413*
38.10 Condylar Fractures *413*
38.11 Complications *414*

39. Cleft Lip and Palate **415**
Mahdi Shkoukani
39.1 Epidemiology and Pathogenesis *415*
39.2 Clinical Features *418*
39.3 Typical Findings on Examination *418*
39.4 Preferred Treatment *418*
39.5 Complications *422*

40. Craniosynostosis **424**
Mahdi Shkoukani
40.1 Epidemiology and Pathogenesis *424*
40.2 Clinical Features *426*
40.3 Preferred Treatment *427*
40.4 Postoperative Care *428*
40.5 Complications of Treatment *429*

Index 431

Contents

Vol. 3

Section 1: Otology

1. Surgical Anatomy of the Ear **3**
M Giles

1.1 Introduction *3*
1.2 External Ear *3*
1.3 Middle Ear *6*
1.4 Eustachian Tube *10*
1.5 Mastoid Air Cell System *12*
1.6 Facial Nerve *13*
1.7 Internal Acoustic Meatus and Cerebellopontine Angle *15*
1.8 Movie Legends *17*

2. Surgical Physiology of the Ear **18**
M Giles

Physiology of the Auditory System *18*

2.1 Introduction *18*
2.2 Definition *19*
2.3 External Ear, Middle Ear, and Cochlea *19*
2.4 Retrocochlear Auditory Pathway *26*

Physiology of the Vestibular System *26*

2.5 Introduction *26*
2.6 Vestibular Apparatus *27*
2.7 Vestibular Hair Cells and Neurons *31*
2.8 Vestibular Nerve *31*
2.9 Central Connections of the Vestibular Nerve *31*
2.10 Gaze Stabilization *31*
2.11 Vestibular-ocular Reflex *33*
2.12 Vestibular Evoked Myogenic Potentials *35*
2.13 Pathophysiology of a Unilateral Vestibular Lesion *35*
2.14 Clinical Considerations *35*
2.15 Endolymphatic Duct and Endolymphatic Sac *36*
2.16 Movie Legends *37*

3. Examination of a Patient with Hearing Loss **38**
R Garland

3.1 Definitions *38*
3.2 Introduction *38*
3.3 History and Examination *38*
3.4 Examination *39*
3.5 Audiology *41*
3.6 Further Assessment *41*

4. Audiological Testing **42**
Michael Saunders
4.1 Introduction *42*
4.2 Pure-Tone Audiometry *42*
4.3 Speech Audiometry *51*
4.4 Tympanometry *53*
4.5 Acoustic Reflex Threshold Testing *54*
4.6 Acoustic Reflex Decay Testing *57*
4.7 Otoacoustic Emissions *57*
4.8 Auditory Brainstem Response Testing *59*

5. The Examination of a Patient with Dizziness/Balance Problems **62**
AR Currie
5.1 Definitions *62*
5.2 Introduction *62*
5.3 Recommended Clinical Tests *63*
5.4 Recommended Test Sequence-Vestibular Function *63*
5.5 Assessment of Balance Function *67*
5.6 Movie Legends *67*

6. Vestibular Testing of the Patient with Dizziness/Balance Problems **68**
David D Pothier, Carolyn Falls
6.1 Introduction *68*
6.2 The ENG/VNG Test Battery *69*
6.3 Vestibular-Evoked Myogenic Potential Testing *75*
6.4 Technical Considerations *77*
6.5 Using cVEMP and oVEMP for Differential Diagnosis *77*
6.6 Electrocochleography *78*
6.7 Rotational Chair Testing *80*
6.8 Head Impulse Testing *81*
6.9 Posturography *83*

7. Imaging of the Temporal Bone and Lateral Skull Base in Otology/Neurotology **85**
John Rutka
7.1 Introduction *85*
7.2 Role of Imaging *86*
7.3 Other Imaging Techniques *91*

8. Introduction to Hearing Loss **94**
PJ Dawes, M Giles
8.1 Introduction *94*
8.2 Definitions and Clinical Categories of Hearing Loss *95*
8.3 Epidemiology of Adult Onset Hearing Loss *96*

9. Sudden/Fluctuating Hearing Loss **99**
Sheikh Abdul Ahad
9.1 Introduction *99*
9.2 Definitions *100*
9.3 Sudden Conductive Hearing Loss *100*

9.4 Sudden Sensorineural Hearing Loss *100*
9.5 Fluctuating Hearing Loss *104*
9.6 Ménière's Disease *104*
9.7 Autoimmune Ear Disease *105*
9.8 Syphilitic Sensorineural Hearing Loss *106*
9.9 Sarcoidosis *106*
9.10 Enlarged Vestibular Aqueduct *106*

10. Bilateral Hearing Loss **108**
M Giles
10.1 Introduction *108*
10.2 Definitions *109*
10.3 Epidemiology *109*
10.4 Pathology *110*
10.5 Etiology *110*
10.6 Pathogenesis *110*
10.7 Assessment *111*
10.8 Audiometry *112*
10.9 Investigations *112*
10.10 Management *113*

11. Unilateral or Asymmetrical Hearing Loss **116**
R Garland
11.1 Definitions *116*
11.2 Introduction *116*
11.3 Etiology *116*
11.4 Assessment *116*
11.5 Management *118*
11.6 Rehabilitation *120*

12. Rehabilitation of the Adult Patient with Hearing Loss **122**
C Selvaratnam
12.1 Introduction *122*
12.2 What is Aural Rehabilitation? *122*
12.3 Why Act? *123*
12.4 Categorization of Hearing Loss *123*
12.5 Factors that Affect Disability *124*
12.6 Identification of Needs *125*
12.7 Hearing Aids *125*
12.8 Cochlear Implants *131*
12.9 Assistive Devices *134*
12.10 Counseling of Hearing Loss *136*
12.11 Auditory Training *138*

13. Surgical Management of the Patient with Hearing Loss **140**
M Giles
13.1 Definitions *140*
13.2 Introduction *140*
13.3 What is the Cause of the Conductive Hearing Loss? *141*

13.4 Is this Patient Suitable for Surgery? *143*
13.5 What Types of Surgery are Available for this Patient? *145*
13.6 Special Considerations *146*

14. Tinnitus **153**
M Giles
14.1 Introduction *153*
14.2 Epidemiology and Classification of Tinnitus *153*
14.3 Pathophysiology of Subjective Tinnitus *155*
14.4 Assessment of the Patient with Tinnitus *156*
14.5 Audiometry *156*
14.6 Further Management *156*

15. Aural Fullness **162**
M Giles
15.1 Introduction *162*
15.2 Etiology: Diseases that May Present with Aural Fullness *162*
15.3 History, Examination, and Investigation *163*
15.4 Specific Management of Common Causes of Aural Fullness *164*
15.5 Movie Legend *165*

16. Painful and Abnormal Ear **166**
PJ Dawes
16.1 Introduction *166*
16.2 Painful and Abnormal Pinna *166*
16.3 Painful Ear with Abnormal Ear Canal or TM *171*
16.4 Painful Ear with Discharge *172*
16.5 Painful Ear with Cranial Nerves Affected *174*

17. Discharging Ear **177**
PJ Dawes
17.1 Introduction *177*
17.2 External Auditory Meatus/Pinna *178*
17.3 Middle Ear *179*

18. Unexplained Ear Pain **190**
Eric P Wilkinson
18.1 Introduction *190*
18.2 History *190*
18.3 Specific Symptoms *190*
18.4 Physical Examination *192*
18.5 Audiology *193*
18.6 Other Investigations *193*
18.7 Differential Diagnoses *194*
18.8 Management of Specific Causes of Otalgia *195*

19. Complications of Ear Disease **196**
Jayesh Doshi, PJ Dawes
19.1 Introduction *196*
19.2 Epidemiology and Pathogenesis *196*

19.3 Extracranial Complications *197*
19.4 Intracranial Complications *199*
19.5 Clinical Assessment *200*
19.6 Investigations *200*
19.7 Treatment *201*
19.8 Otitic Hydrocephalus *202*
19.9 Cerebrospinal Fluid Leak *203*

20. Dizziness or Balance Disturbance **204**
Michelle Wong
20.1 Definitions *204*
20.2 Diagnostic Approach *204*
20.3 Introduction *204*
20.4 History *205*
20.5 Presentation Pattern *205*
20.6 Associated Symptoms *205*
20.7 Balance Testing *206*
20.8 Audiometry *206*
20.9 Specific Diagnoses *207*
20.10 Vestibular Rehabilitation *212*

21. Facial Palsy **213**
D Flint
21.1 Introduction *213*
21.2 Etiology *213*
21.3 Pathology *214*
21.4 Sequelae *214*
21.5 Clinical Assessment of the Patient with Facial Palsy *214*
21.6 Investigations *215*
21.7 Eye Care *216*
21.8 Management of Specific Presentations *216*

22. Trauma to the Ear **221**
Sheikh Abdul Ahad
22.1 Introduction *221*
22.2 Pinna (Auricle) *221*
22.3 External Ear *222*
22.4 Trauma to the Middle Ear and Temporal Bone *224*

Section 2: Pediatrics

23. Nasal Obstruction **231**
Alan TL Cheng
23.1 Introduction *231*
23.2 Pediatric versus Adult *232*
23.3 Determining Nasal Airflow *233*
23.4 Symptoms of Nasal Disease *234*

23.5 Signs of Nasal Disease *237*
23.6 Examination Techniques *237*
23.7 Classification of Nasal Obstruction *238*
23.8 Investigative Techniques *239*
23.9 Specific Pediatric Conditions *240*
23.10 Surgical Options *247*

24. Nasal Discharge **249**
Mohamad Bitar, Alan TL Cheng
24.1 Introduction *249*
24.2 Definition *250*
24.3 Incidence and Types of RS *250*
24.4 Pediatric Anatomy *250*
24.5 Acute Rhinosinusitis *251*
24.6 Chronic Rhinosinusitis *255*

25. Epistaxis **262**
Paul Bumbak
25.1 Introduction *262*
25.2 Anatomy *262*
25.3 Pathophysiology *263*
25.4 Assessment of a Child with Epistaxis *264*
25.5 Surgery for Pediatric Epistaxis *265*

26. Hearing Loss **266**
Melisha Sirisena, Amy McKibbin, Katie O'Brien
26.1 Introduction *266*
26.2 Universal Newborn Hearing Screening *267*
26.3 Symptoms of Hearing Loss in Children *267*
26.4 Audiological Tests for Infants and Children *267*
26.5 Referring Children for Audiological Assessment *268*
26.6 Diagnosis: Types of Hearing Loss *268*
26.7 Less Common Types of Hearing Loss *268*
26.8 Understanding the Degree of Hearing Loss in Children *271*
26.9 What if Hearing is Normal? *272*
26.10 When Should Hearing Aids Be Fitted in Infants and Children? *272*
26.11 Hearing Aids in the Management of Hearing Loss in Children *273*
26.12 When Hearing Aids are not Enough: Implantable Hearing Devices *276*

27. Snoring Child with Possible Sleep Apnea **282**
Paul Walker
27.1 Introduction *282*
27.2 Apnea while Asleep *283*
27.3 Is Snoring Serious? *283*
27.4 Noisy Breathing? *283*
27.5 Large Adenoids and Tonsils *284*
27.6 Clinical Assessment of the Snoring Child *284*
27.7 Other Symptoms *285*
27.8 Physical Signs *285*

27.9 Vocal Resonance *287*
27.10 Submucous Cleft Palate *287*
27.11 The Significance of SDB in a Child *288*
27.12 Further Investigations *289*
27.13 Techniques of Operative Intervention *291*
27.14 Tertiary Referral and Postoperative Management *291*
27.15 Postoperative Follow-up and Failure to Cure OSA *291*

28. Drooling in Children **294**
Darin Bilish, Alan TL Cheng

28.1 Introduction *294*
28.2 Symptomatic Burden of Drooling *295*
28.3 Saliva Function and Production *295*
28.4 Etiology of Drooling *295*
28.5 Pathophysiology of Drooling *297*
28.6 Approach to the Drooling Child *297*
28.7 Miscellaneous Techniques *302*
28.8 Key Points *302*

29. Hoarse Voice **303**
Alessandro de Alarcón, Françoise Jean-Louis, Angela Black, Aliza P Cohen, Khanh Tran

29.1 Introduction *303*
29.2 Anatomical Considerations *303*
29.3 History and Risk Factors *304*
29.4 Diagnostic Evaluation *306*
29.5 Common Non-Neoplastic Pediatric Voice Disorders *306*
29.6 Laryngeal Tumors *311*

30. Progressive Hoarseness and Persistent Stridor **315**
Françoise Jean-Louis

30.1 Introduction *315*
30.2 Epidemiology *315*
30.3 Pathophysiology *316*
30.4 Presentation *317*
30.5 Investigations *317*
30.6 Management *318*
30.7 Prognosis *323*

31. The Child Who Chokes or Aspirates **324**
Michael J Rutter, Ravindhra G Elluru, Catherine K Hart, Christina J Yang, Aliza P Cohen, Alexander J Osborne, Michel Nassar, Charles M Myer IV, Alan TL Cheng

31.1 Introduction *324*

Apparent Life-Threatening Event *325*
31.2 Key Points *325*
31.3 History *326*
31.4 Examination *326*
31.5 Etiological Factors *326*
31.6 Investigations *327*
31.7 Management *327*

Laryngospasm in Children *327*
31.8 Key Points *327*
31.9 Anatomy *327*
31.10 Pathophysiology *328*
31.11 Mechanism of Laryngospasm *328*
31.12 Management *329*
31.13 Prevention *329*

Pediatric Airway Foreign Bodies *329*
31.14 Key Points *330*
31.15 Clinical Presentation *330*
31.16 Physical Findings *330*
31.17 Diagnostic Workup *330*
31.18 Management Overview *331*
31.19 Operative Management *332*
31.20 Essential Equipment *332*
31.21 Complications *333*

Posterior Laryngeal Cleft *334*
31.22 Embryology *334*
31.23 Classification *334*
31.24 Clinical Presentation *334*
31.25 Diagnosis *335*
31.26 Management *335*
31.27 Outcomes *335*

Pediatric Tracheostomy *337*
31.28 Anatomy *337*
31.29 Indications *337*
31.30 Contraindications *338*
31.31 Surgical Procedure *338*
31.32 Complications *339*

32. Awake Child with Stridor and Labored Breathing **340**
Karthik Balakrishnan, Michael J Rutter, J Paul Willging, Kashif Mazhar, Catherine K Hart, Christina J Yang, Aliza P Cohen, Matthew J Provenzano, Douglas R Sidell, J Drew Prosser, Charles M Myer IV, Alan TL Cheng
32.1 Introduction *340*

Evaluation of the Pediatric Airway *341*
32.2 Diagnostic Tests *343*
32.3 Operative Evaluation of the Airway *343*

Pediatric Airway Infections *344*
32.4 Microbiology *344*
32.5 Systemic Signs and Symptoms *345*
32.6 Laryngeal Infections *345*
32.7 Tracheal Infections *348*

Laryngomalacia *350*
32.8 Key Points *350*
32.9 Clinical Presentation *350*

32.10 Evaluation *351*
32.11 Medical Management *352*
32.12 Surgical Management *352*
32.13 Complications *352*

Laryngeal Webs and Cysts *353*
32.14 Anatomy and General Concepts *353*
32.15 Clinical Signs and Symptoms *353*
32.16 Initial Management *354*
32.17 Laryngeal Webs *354*
32.18 Laryngeal Cysts *355*

Subglottic Stenosis *358*
32.19 Anatomy *358*
32.20 Congenital SGS *358*
32.21 Acquired SGS *359*

Tracheal Stenosis *360*
32.22 Anatomy *360*
32.23 Congenital Tracheal Stenosis *360*
32.24 Acquired Tracheal Stenosis *361*

Tracheomalacia and Vascular Compression *363*
32.25 Tracheomalacia *363*
32.26 Vascular Compression *366*

Bilateral Vocal Cord Palsy *367*
32.27 Anatomy *367*
32.28 Etiology *367*
32.29 Investigations *368*
32.30 Natural Course and Outcomes *368*

33. Tongue Tie **370**
Maria Agustina Sevilla Garcia, Pasan Waidyasekara, Zahoor Ahmad
33.1 Definition *370*
33.2 Types *370*
33.3 Epidemiology *371*
33.4 Etiology *371*
33.5 Historical Background *372*
33.6 Clinical Assessment *373*
33.7 Management *374*
33.8 Future Directions *376*
33.9 Information for Patients *376*

34. Otitis Media with Effusion **378**
Edward Smith
34.1 Introduction *379*
34.2 Epidemiology *379*
34.3 Pathophysiology *379*
34.4 Assessment *379*
34.5 Treatment *384*
34.6 Water Precautions *387*

35. Acute Mastoiditis **390**
Tawakir Kamani, Matija Daniel
35.1 Introduction *390*
35.2 Clinical Embryology and Anatomy of the Temporal Bone *390*
35.3 Epidemiology of Mastoiditis *392*
35.4 Pathophysiology *393*
35.5 Complications *394*
35.6 Investigations *395*
35.7 Management *396*

36. Neck Lump(s) **398**
Megan Hobson, Tawakir Kamani, Matija Daniel, Alan TL Cheng
36.1 Introduction *398*
36.2 Clinical Evaluation *398*
36.3 Investigations *399*
36.4 Midline Masses *400*
36.5 Thyroid Nodules and Thyroid Cancer *404*
36.6 Lateral Masses *405*
36.7 Vascular Anomalies *412*
36.8 Lymphatic Malformations *416*
36.9 Rhabdomyosarcoma *417*
36.10 Neurofibroma *418*
36.11 Lemierre's Syndrome *419*
36.12 Congenital Muscular Torticollis *419*
36.13 Salivary Gland Lesions *419*
36.14 Ranula *420*
36.15 Non-Hodgkin's Lymphoma *421*
36.16 Hodgkin's Lymphoma *421*
36.17 Nasopharyngeal Carcinoma *421*
36.18 Neuroblastoma *421*
