Contents

VOLUME 1: INFERTILITY

SECTION 1: ANATOMY AND PHYSIOLOGY

1. Anatomy of the Reproductive System 3
Sonal Agarwal, Mir Jaffar
Female Reproductive System *3*; Male Reproductive System *8*

2. Regulation and Physiology of Menstrual Cycle 16
Arveen Vohra
Reproductive Neuroendocrinology *16*; Hormones in Female Reproduction *18*; Multiple Choice Questions with Answers *38*

3. Oogenesis and Folliculogenesis 42
Suvarna Rathor Zirpe
Formation of Female Gonads *42*; Stages of Oogenesis *42*; Stages of Folliculogenesis *43*; Prevention of Premature Luteinization *49*; Two-cell, Two-gonadotropin Theory *49*; Clinical Implications *50*

4. Spermatogenesis 53
Manishi Mittal
Gonadogenesis *53*; The Seminiferous Tubules *53*; Spermatogenesis *54*

5. Fertilization and Embryogenesis 66
Divya Sardana
Egg Transport *66*; Sperm Transport *66*; Viability of Gametes *66*; Capacitation *67*; Process of Fertilization *67*; Embryogenesis *68*; Genome Activation *69*; Blastocyst Formation *69*; Clinical Application in Assisted Reproductive Technology *70*

6. Implantation 73
Nisha Singh, Divyashree PS
Preimplantation Embryo Development and Genomic Activation *73*; Hatching of Blastocyst *74*; Embryo-endometrial Interaction During Implantation *76*; Embryo–Maternal Cross-dialogue *86*; Immune Acceptance of Pregnancy *87*; Mechanisms at the Trophoblast to Escape Immune Attack *90*

7. Embryo-Endometrial Crosstalk and Endometrial Receptivity 97
Nalini Mahajan, Anshu Dhar
Implantation *97*; Factors Affecting Implantation *101*

SECTION 2: REPRODUCTIVE ENDOCRINOLOGY

8. Synthesis and Metabolism of Steroid Hormones 107
R Suchindra
Steroid Hormone Synthesis *107*; Steroids and Pathophysiology *111*

9. Puberty and Aberrations 115
Pratibha Saran Malik
Hypothalamic–Pituitary–Gonadal Axis *115*; Menstrual Cycle: A Recap of Events *116*; Onset of Puberty: Neuroendocrine Control *117*; Genetic Factors Controlling Pubertal Onset *117*; Nutritional Factors Determining Onset of Puberty *118*; Stages of Pubertal Development *118*; Normal Variants of Puberty *120*; Disorders of Puberty *120*; Growth Problems in Normal Adolescents *126*

10. Amenorrhea 130
Abha Majumdar, Neeti Tiwari
Physiology of Menstruation *130*; Classification of Amenorrhea (According to the Etiology List of Conditions) *130*; Evaluation of Amenorrhea *131*; History and Examination *131*; Investigations for Primary and Secondary Amenorrhea *133*; Evaluation of Specific Conditions in Amenorrhea *134*; Management of Amenorrhea *135*; Management of End-organ Disorders *136*; Management of Polycystic Ovarian Syndrome with Amenorrhea *137*; Management of Gonadal Agenesis and Dysgenesis *137*; Management of Premature Ovarian Failure *138*; Management of Hypogonadotropic Hypogonadism *138*

11. Endocrine Disorders Affecting Reproduction 140
Chaitra Narayan Nayak
Hypothalamus–Pituitary Unit *140*; Epidemiology *141*; Other Disorders of Pituitary *142*; Thyroid and Reproduction *143*; Thyroid and Subfertility *145*; Thyroid and Pregnancy *146*; Adrenal Disorders *146* Endocrine-disrupting Compounds *148*

12. Hirsutism 149
Anjali Sharma
Normal Development and Regulation of Growth *149*; Diagnosis of Hirsutism *150*; Etiology of Hirsutism *150*; Investigations and Management *152*; Treatment and Management *152*; Follow-up *154*

13. Luteal Phase Defect 156
Deepti Sharma
Definition *156*; Incidence and Prevalence *156*; Physiology of Luteal Phase *156*; Pathophysiology of Luteal Phase Defect in Natural Cycles *158*; Pathophysiology of Luteal Phase Defect in Controlled Ovarian Stimulation Cycles *158*; Diagnosis of Luteal Phase Defect *159*; Color Doppler in Luteal Phase Defect *160*; Treatment of Luteal Phase Defect *160*; In Natural Cycles *162*; In Intrauterine Insemination Cycles *162*; In Controlled Ovarian Stimulation Cycles *162*; In Frozen Embryo Transfer Cycles and Donor–Recipient Cycles *162*

14. Anovulation 167
Ashwini Sidhmalswamy G
Classification *167*; Etiopathogenesis *167*; Diagnosis *169*; Treatment *170*

15. Declining Fertility 176
Mahesh Koregol, Soumya Mahesh Koregol, Navya N
Total Fertility Rate Trends *176*; The Indian Scenario *176*; Major Causes of Fertility Decline: Short Term and Long Term *176*; Education—"The Most Effective Contraception" *176*; Working Women and the Myth of "Having it All" *177*; Economy—"Money Makes Many Things"—Does it Hold True for Having Children *177*; Changing Relationship Dynamics—it is Simply Complicated *177*; Is Assisted Reproductive Technology Genetically Affecting Human Fecundity? Lessons from the Cattle Industry *177*; Decline in Male Fertility *178*; Role of Fertility Specialists: Increase Awareness and Optimize Natural Fertility *178*

SECTION 3: COMBINED TOPICS

16. Evaluation of Infertility 183
Dipti Das, Kamini A Rao
Diagnosis of Infertility (Male) *183*; Hormonal Evaluation *188*; Extended Semen Analysis *189*; Recommendations *191*; Diagnosis of Infertility (Female) *191*

17. Immunology and Infertility 201
Tity Chacko, Anupama Patil
Immune System *201*; Exploring Treatment Options for Tackling Fetal Rejection *201*; Harms and Benefits of Immunotherapy *203*

18. Cytogenetics and Subfertility 206
CV Kannaki Uthraraj, KS Mangayarkarasi
Role of Genetics in Infertility *206*; Basics of Cytogenetics *206*; Specific Indications for Cytogenetic Studies in a Subfertile Couple *210*; Numerical Abnormalities/Aneuploidies *211*; Structural Anomalies of Chromosomes *216*

19. Obesity and Infertility 221
Nupur Garg
Obesity and Impaired Reproductive Potential *221*; Fertility Risks in Obesity *221*; Diagnosis and Classification of Obesity *222*; Concept of Normal-weight Obesity *223*; Pathophysiology of Obesity *223*; Role of Gut Microbiome in Origin of Obesity *223*; Endocrine Function of Adipose Tissue—the Role of Adipokines *224*; Obesity and Polycystic Ovary Syndrome *226*; Obesity and Assisted Conception *226*; Response to Gonadotropin Stimulation and Cycle Cancellation *227*; Obesity and Male Infertility *228*; Role of Pre- and Probiotics *231*; Matching Weight-loss Medication to a Patient's Profile *231*; Bariatric Surgery *232*; Obesity and Ethical Dilemmas *233*; Transgenerational Effects *233*; Nutrigenomics *233*

20. Unexplained Infertility 239
Abha Bhat
Incidence *239*; Causes *239*; Unexplained Male Infertility *239*; Female Infertility *241*; Investigations of the Male Partner *243*; Investigations of the Female Partner *243*; Management *245*

21. Fertility Preservation 250
Sonia Malik, Aneesha Grover
Indications of Fertility Preservation *250*; Fertility preservation in Women *250*; Fertility Preservation in Males *251*; Model of Care for Patients Seeking Fertility Preservation *254*; Criteria for Selection of Patients Who can be Offered Fertility Preservation *254*; Interventions for Fertility Preservation *254*; Emerging Technologies *258*; Posthumous Reproduction *261*; Recommendations for Fertility Preservation *264*

22. Counseling in Infertility 270
Prathap Tharyan, Sudeepa Chaparala
Infertility is a Global Problem *270*; Infertility, and its Treatment, is Associated with Considerable Distress *270*; Counseling in Infertility and Assisted Reproductive Technology *271*; Negative Counseling *276*

23. Assisted Reproductive Technology in Patients with Chronic Medical Disorders 278
Anuradha Kumari, Devi R
Preconception Counseling *278*; Assisted Reproduction in Patients at Risk of Thrombosis *278*; Autoimmunity and In Vitro Fertilization *281*; Systemic Lupus Erythematosus *281*; Antiphospholipid Antibody Syndrome *281*; Treatment Strategies to Preserve Fertility *282*; Impact of Assisted Reproduction Technique on Systemic Lupus Erythematosus and Antiphospholipid Syndrome *283*; Effect of Systemic Lupus Erythematosus and Antiphospholipid Syndrome on Pregnancy *283*; Preconception Counseling *283*; Management During In Vitro Fertilization *283*; Fertility and Assisted Reproductive Technology in Women with Chronic Kidney Disease and Renal Transplant Recipients *284*; Factors Affecting Fertility in Women with Chronic Kidney Disease *284*; Management of Infertility in Women with Chronic Kidney Disease *286*; IVF Management *286*; Maternal and Fetal Risks in Pregnancy *287*; Inflammatory Bowel Disease and Assisted Reproductive Technologies *287*; Background *287*; Impact of Inflammatory Bowel Disease on Fertility *287*; Effect of IBD on ART and Pregnancy *287*; Impact of Pregnancy on Inflammatory Bowel Disease *288*; Management During In Vitro Fertilization *288*; ART in Patient with Epilepsy *289*; Pathophysiology of Reproductive and Endocrine Dysfunction in Epilepsy *289*; Effect of Hormones on Epilepsy *289*; Effect of Epilepsy and Antiepileptic Drugs on In Vitro Fertilization *289*; Impact of Epilepsy and Antiepileptic Drugs on Pregnancy *289*; Preconception Counseling *290*; Management During Assisted Reproductive Technology *291*; Management in Early Pregnancy *291*; ART in Women with Hypertension *291*; Impact of Hypertension on In Vitro Fertilization Outcomes *291*; Impact of In Vitro Fertilization on Hypertension *291*; Pre IVF and Preconception Workup and Advice *292*; Antihypertensive Medications *292*; In Vitro Fertilization Management *292*; ART in Women with Diabetes Mellitus *293*; Diabetes and Fertility *293*; Impact of Diabetes on Assisted Reproductive Technology Outcomes *293*; Effect of IVF and Pregnancy on Diabetes *295*; Preconception Care and In Vitro Fertilization Management *295*

SECTION 4: MALE INFERTILITY

24. Etiopathogenesis of Male Infertility 305
Haritha Mannem, Sathya Balasubramanyam
Pretesticular Causes *306*; Testicular Causes *307*; Genetic Causes *308*; Inflammation *314*; Infections—Effect on the Male Reproductive Tract *314*; Reactive Oxygen Species *315*; Effects of Coronavirus Disease 2019 on Male Fertility *315*; Factors that Help in Prognosticating Male Infertility *316*

25. Clinical and Endocrinological Evaluation of Infertile Male 322
Radha Pandiyan, S Sowbarnika, D Ramesh Raja, N Pandiyan
Aim of Evaluation of the Infertile Male *322*; Principles of Management of the Male Partner *323*; Part I: Clinical Evaluation of Infertile Male *323*; Part II: Clinical Evaluation of Infertile Male *325*; Investigations for Male Infertility *326*; Genetics in Male Infertility *329*

26. Sexual Dysfunction in Male Infertility 332
Vasan SS, Fahim L Rajwate
Biological Basis of Male Sexual Response *332*; Nonconsummation of Marriage *333*; Ejaculatory Disturbances *334*; Vibratory Stimulation *337*; Erectile Dysfunction Introduction *339*; Key Recommendations *345*

27. Ultrasound in Male Infertility 350
Kuldeep Jain, Bharti Jain, Maansi Jain
Etiological Distribution *350*; Indications of Scrotal Ultrasound *350*; Clinical Applications *352*; Epididymal Diameters *354*; Scrotal Ultrasound in Varicocele *354*; Indications of Transrectal Ultrasound *355*

28. Medical Management of Male Infertility 359
Sonal Agarwal, Vinay Kumar
Medical Therapy *359* ; Specific Therapy *359*; Nonspecific Treatment (Empirical Therapy) *368*; Effect on Male Infertility in COVID-19 Era *369*

29. Azoospermia: Evaluation and Management 374
Ameya Rangnath Sangle, Tarun Dilip Javali
Terminology *374*; Definition *374*; Classification of Azoospermia *374*; Clinical Classification of Azoospermia *374*; Evaluation of a Male Patient with Azoospermia *374*; Etiology of Azoospermia *376*

30. Varicocele and Infertility 385
Ameya Rangnath Sangle, Varun Huilgol, Tarun Dilip Javali
Etiology of Varicocele *385*; Pathogenesis *385*; Oxidative Stress *386*; Impairment of Spermatogenesis by Scrotal Hyperthermia *386*; Deoxyribonucleic Acid Damage and Apoptosis *386*; Clinical Grading *387*; Management *387*

31. Spinal Cord Injuries and Male Infertility 392
Yalavarthi Pavan Ganesh, Tarun Dilip Javali, Mahendra V Javali
Spinal Cord Injury *392*; Male Infertility Due to Spinal Cord Injuries *394*; Management of Couples with SCI-related Male Factor Infertility *400*

32. Algorithms for Genetic Evaluation of Infertile Males 406
Stacy Colaco, Deepak Modi
Practical Approach for Genetic Testing for Infertile Males and its Applications in Clinical Practice *406*; Multiple Morphological Abnormalities of the Sperm Flagella *409*

SECTION 5: FEMALE FACTOR INFERTILITY

33. Uterine Factors in Infertility 413
Mala Arora, Mahesh Koregol, Soumya Mahesh Koregol, Navya N
Congenital Uterine Anomalies *413*; Myomas *420*; Adenomyosis *426*; Endometrial Factors *429*; Asherman's Syndrome *432*; Genitourinary Tuberculosis *432*

34. Tubal Factors in Infertility 438
Pratap Kumar, Aswathy Kumaran
Causes for Tubal Subfertility *438*; Evaluation for the Tubal Factor Infertility—Guidelines and Recommendations *439*; Ultrasound Evaluation of Fallopian Tubes *440*; Tubal Assessment Tests *440*; Management of Tubal Infertility *443*; Management of Tubal Ectopic Pregnancy *447*

35. Infections and Infertility 450
Chandrika Kulkarni
Chlamydia *450*; Gonorrhea *451*; Nongonococcal–Nonchlamydial Infections *452*; Sexually Transmitted Viral Infections *456*

36. Tuberculosis and Infertility 463
JB Sharma, Sona Dharmendra, Gowri Rapaka
History *463*; Microbiology of Mycobacterium Tuberculosis *463*; Epidemiology of Female Genital Tuberculosis *463*; Pathogenesis *464*; Pathogenesis of Infertility in Genital Tuberculosis *465*; Diagnosis *466*; Investigations *466*; Treatment *468*; Drug Treatment of Drug Sensitive FGTB *469*; In Vitro Fertilization and Embryo Transfer in FGTB *469*; New Tuberculosis Research *470*

37. Sonoendocrinology and Cycle Monitoring-Assisted Reproduction Technology 474
Sonal Panchal, Chaitanya Nagori
Imaging Modalities for Assessment of Reproductive System *474*; Preovulatory Period *479*; Estrogen Affects Endometrium *480*; Secretory Phase Assessment *483*; Correlation of Progesterone to Ultrasound Findings *484*

38. Transvaginal Ultrasound and Doppler in Infertility 487
Sonal Panchal, Chaitanya Nagori
Diagnosis of Abnormalities Causing Subfertility *487*; Cycle Assessment *507*

39. Polycystic Ovary Syndrome 518
Gotte Jhansi, Vyshnavi A Rao
Diagnosis—Evolution of the Diagnostic Criteria *518*; Prevalence *519*; Polycystic Ovary Syndrome—Phenotypes *519*; At the Peripheral Compartment (Skin and Adipose Tissue) *525*; Clinical Presentation *530*; Evaluation *532*; Management *535*; Summary of Evaluation and Management of PCOS *545*; Adjuvants to Improve Metabolic and Reproductive Function *546*; Polycystic Ovary Syndrome in Adolescents *548*; Polycystic Ovary Syndrome and Pregnancy *550*; Polycystic Ovary Syndrome and Menopause *551*

40. Assessment of Ovarian Reserve 559
Padma Rekha Jirge
Ovarian Reserve Tests *559*; Biological Age *559*; Basal Serum Follicle-stimulating Hormone *560*; Serum Estradiol *560*; Serum Inhibin B *560*; Serum Anti-Müllerian Hormone *560*; Dynamic Tests *561*; Antral Follicle Count *561*; Ovarian Volume *561*; Ovarian Doppler Assessment *561*; Ovarian Biopsy *561*; Discussion *561*

41. Endometriosis 565
Nandita Palshetkar, Rohan Palshetkar, Erika Patel
Pathogenesis of Endometriosis *565*; Pathogenesis of Endometriosis Causing Infertility *565*; Clinical Features *567*; Diagnosis of Endometriosis *567*; Staging *568*; Management Options *568*; Treatment of Endometriosis Associated Infertility *572*; Ovarian Endometrioma *574*; Adolescent Endometriosis *575*; Endometriosis and Cancer *576*

42. Endoscopy in Infertility 580
Nutan Jain, Tania G Singh, Vandana Jain, Shayari Jain
Equipment *580*; Laparoscopic Surgery on Uterus Myomectomy *580*; Laparoscopic Tubal Surgery *584*; Endometriosis *591*; Laparoscopic Ovarian Drilling *592*; Laparoscopy Complications *593*; Hysteroscopy *594*; Hysteroscopic Myomectomy *594*; Hysteroscopic Tubal Cannulation for Proximal Tubal Block *597*; Hysteroscopy for Metroplasty *599*; Intrauterine Adhesions (Asherman's Syndrome) *601*; Hysteroscopy for Retained Fetal Bones *602*

43. Reconstructive Surgeries Enhancing Fertility 605
Yehia Shawki, Osama Shawki, Amr Wahba, Zakiya Ahmed
Reconstruction of Distorted Pelvic Anatomy *605*; Endometriosis and Infertility *607*; Reconstruction of Blocked Fallopian Tubes *607*; Reconstruction of Distorted Uterine Cavity *609*; Uterine Septum *609*; Intrauterine Adhesions *611*; Submucous Myomas *612*; Endometrial Polyps *612*; Multiple Choice Questions *613*

SECTION 6: INTRAUTERINE INSEMINATION

44. Intrauterine Insemination 619
Natchandra Chimote, Bindu Chimote
Indications for IUI Treatment *619*; Contraindications *619*; IUI in a Historical Perspective *620*; Prognostic Factors Influencing IUI Success *634*; Efficacy and Safety of Intrauterine Insemination and Assisted Reproductive Technology in Populations Serodiscordant for Human Immunodeficiency Virus *635*; Future Developments *636*

45. Optimizing Success in Intrauterine Insemination 643
Kamini A Rao, Jampana Pallavi
Patient Selection and Workup *643*; Indications of Intrauterine Insemination *644*; Patient Preparation *644*; Monitoring of Intrauterine Insemination *645*; Time and Number of Intrauterine Insemination *645*; Site of Insemination *645*; Semen *645*; Abstinence Duration *645*; Semen Parameters *646*; DNA Fragmentation Index *646*; Paternal Age *646*; Collection to Intrauterine Insemination Time Interval *646*; Semen Preparation Technique *646*; Technique of Intrauterine Insemination *647*; European Society of Human Reproduction and Embryology Capri Workshop 2009 *648*

SECTION 7: OVARIAN STIMULATION

46. Drugs for Ovarian Stimulation 653
Duru Shah, Sabahat Rasool
Oral Ovulogens *653*

47. Ovulation Induction and Ovarian Stimulation Protocols 664
Rutvij Dalal, Sonal Agarwal
Ovulation Induction and Superovulation *664*; Category of Patients Benefiting from Ovulation Induction *664*; Physiology of Ovulation *665*; Management Options for Ovulation Induction *666*; Stimulation Protocols in ART *673*; Individualizing Approach Toward Patient for COS *673*; Individualization of Gonadotropin Preparation and Dosage *675*; Different Protocols for Stimulation *676*; Gonadotropin-releasing Hormone Agonist *676*; Protocols for Agonist *677*; Gonadotropin-releasing Hormone Antagonists *679*; Protocol for Antagonist Protocol *679*; GnRH Agonist Versus Antagonist *680*; Trigger *680*; Natural Cycle In Vitro Fertilization *681*; Modified Natural Cycle In Vitro Fertilization *681*; Mild In Vitro Fertilization *681*; Kato Protocol *682*; Controlled Ovarian Stimulation with Letrozole Supplementation (Cost-less Protocol) *682*; Shanghai Protocol *683*; Duplex Protocol *683*; Ultralong Protocol for Endometriosis (ESHRE 2013 Guidelines) *683*; Studies Done in COVID-19 Era *685*

48. Role of Adjuvants in Ovarian Stimulation 690
Mirudhubashini Govindarajan, Ramya Jayaram
Adjuvants for Ovarian Stimulation in Poor Responders *690*; Adjuvants for Hyper-responders *693*; Adjuvants to Oral Ovulogens *693*

49. Gonadotropin-releasing Hormone Analogs 696
Mamta Dighe
Endogenous Gonadotropin-releasing Hormone *696*; Gonadotropin-releasing Hormone Agonists *696*; Gonadotropin-releasing Hormone Antagonists *697*; Clinical Uses of Gonadotropin-releasing Hormone Analogs *698*

50. Monitoring of Ovarian Stimulation 704
Snehal Dhobale Kohale
Need for Monitoring *704*; Methods of Monitoring *704*; Stages of Monitoring *704*; Choosing Methods of Monitoring *705*; Abnormal Responses in Ovarian Stimulation *713*; Hormonal Monitoring of Ovarian Stimulation *714*

51. Ovulation Trigger 721
Vyshnavi A Rao, K Aruna Saradha
Ovulation Trigger *722*; Luteal Coasting *727*; Freezing of Embryos *727*; Predictors of Success after Gonadotropin-releasing Hormone Agonist Trigger *728*; Ovarian Hyperstimulation Syndrome in Gonadotropin-releasing Hormone Agonist Trigger *728*; Ovulatory Trigger in Breast Cancer Patients *730*

52. Individualized Controlled Ovarian Stimulation 733
Richa Sharma, Anindita Thakker
Basics *733*; Prognostic Factors for Ovarian Response and Protocol Recommended *734*; Role of Luteinizing Hormone and Receptor Polymorphism *734*; Role of AMH, AFC, and Other Biomarkers in Individualized COS *736*; Individualized Controlled Ovarian Stimulation and Different Stimulation Protocols *736*; Low Prognosis Groups—POSEIDON (Patient-oriented Strategy Encompassing Individualized Oocyte Number) Classification *738*; Role of Luteinizing Hormone *739*; Individualization for Time Constraint *739*; Individualization for Necessity of Low Estrogen *739*

53. In Vitro Fertilization Lite 742
Adrija Kumar Datta, Stuart Campbell, Geeta Nargund, Anuradha Kumari
What is "In Vitro Fertilization Lite"? *742*; Evolution of Ovarian Stimulation—Resurgence of Natural or Mild IVF *742*; Why Adopt a Milder Approach? *743*; When do We Consider Using a Mild Ovarian Stimulation Protocol? *745*; What are the Limiting Factors in MS-IVF? *745*; Future Prospects *746*

54. Role of Luteinizing Hormone in Ovarian Stimulation 750
Nivedita Shetty, Shraddha Pol
Physiology of the Role of LH in Folliculogenesis *750*

55. Anesthesia in Assisted Reproductive Techniques 757
Dorothy Dessa, Ravi Kumar IR
Anesthetic Considerations *757*; Ideal Features of the Anesthetic Technique for the Procedure of In Vitro Fertilization *757*; General Considerations *757*; Anesthesia Techniques—Options Available to the Anesthetist *758*; Conscious Sedation *758*; Anesthesia in Embryo Transfer *759*; Anesthesia for Surgical Sperm Retrieval *759*; Analgesia for Hysterosalpingography *760*; General Anesthesia *760*; Regional Anesthesia *760*; Key Drugs, Dosage and Side Effect *761*

56. Oocyte Retrieval 765
Sankalp Singh, Nivedita Ananth, Swati Singh, Mohammed Ashraf C
History *765*; Vaginal Preparation Before Oocyte Retrieval *765*; Role of Prophylactic Antibiotics *766*; Anesthesia and Oocyte Retrieval *766*; Instruments for Oocyte Retrieval *766*; Aspiration Setup *767*; Troubleshooting in Oocyte Retrieval *769*; Role of Follicular Flushing *770*; Oocyte Retrieval in Difficult Cases *770*; Complications of Oocyte Retrieval *771*

57. Embryo Transfer 774
Arya Rajendran, Akanksha Gautam Allahbadia, Swati Gautam Allahbadia, Gautam Allahbadia
Definition of Embryo Transfer *774*; Types of Embryo Transfer *774*; How to Plan a Good Embryo Transfer? *775*; Factors Affecting Success of Embryo Transfer *775*; Embryo Transfer Catheters *778*; Popular Commercially Available Embryo Transfer Catheters *779*; Recent Advances *786*

58. Troubleshooting in Assisted Reproductive Technology 792
Harpreet Kaur, Mir Jaffar
Clinical Parameters *792*; Laboratory Parameters *794*; Strategies to Minimize Infection *795*; Troubleshooting a Cryopreservation System *796*; Troubleshooting Intracytoplasmic Sperm Injection Procedure *796*

59. Luteal Phase Support 799
Sonal Agarwal, Neha Tyagi, Kamini A Rao
Physiology *799*; Luteal Phase Defect *800*; Luteal Phase Support in ART: Why is it Needed? *800*; Luteal Phase Support *800*

SECTION 8: DILEMMA IN ART

60. Poor Responders 809
Madhuri Milind Patil
Prediction of Poor Responders *810*; Management of Poor Responders *812*; Change in Protocol *815*; Assisted Reproductive Technology Treatment Outcome According to POSEIDON Classification *820*; Newer Treatment Modalities *820*; Outcome after Assisted Reproductive Technology in Poor Responders *820*

61. Recurrent Implantation Failure 829
Divyashree PS
Definition of Recurrent Implantation Failure *829*; Incidence *829*; Implantation *830*; Assumed Etiologies for Recurrent Implantation Failure *830*; Investigations *833*; Management *838*

62. Empty Follicle Syndrome 855
Ayesha Gupta, Kamini A Rao
Definition *855*; Incidence *855*; Classification of Empty Follicle Syndrome *855*; Etiopathophysiology *856*; Risk Factors for Empty Follicle Syndrome *857*; Diagnosis and Prevention *858*; Management of EFS in the Current Cycle *858*; Management of Subsequent Cycles after Empty Follicle Syndrome *859*; Prognosis *859*

63. Role of Aneuploidy Screening in Preimplantation Embryos 861
Jwal Banker, Manish Banker, Parul Arora
Origin of Aneuploidy *861*; Proposed Indications for PGT-A *861*; Counseling *862*; Techniques and Limitations *862*; Different Methods for Chromosomal Analysis *863*; Results of Aneuploidy Screening in Various Patient Groups *867*; Concerns with Preimplantation Genetic Testing *869*; Preimplantation Genetic Testing as Universal Screening *869*; Legal Aspects and Regulations with Preimplantation Genetic Testing *871*

64. Preimplantation Genetic Testing of Embryos..... 876
Rohit Gutgutia, Santosh Kumar Jena
Preimplantation Genetic Testing for Aneuploidy *876*; Pre-preimplantation Genetic Testing for Aneuploidy Workup and Counseling *876*; In Vitro Fertilization Cycle *877*; Embryo Biopsy and Tubing *877*; Genetic Analysis *877*; Comparative Genomic Hybridization *877*; Array Comparative Genomic Hybridization *878*; Single Nucleotide Polymorphism Microarrays *878*; Next-generation Sequencing *878*; Interpretation of Result *878*; Mosaic Embryos *878*; Management of Mosaic Embryos *878*; Segmental Aneuploidy *878*; Limitations of Preimplantation Genetic Testing for Aneuploidy Testing *879*; Adverse Effects of Biopsy *879*; Difficult Situations in Preimplantation Genetic Testing *879*; Preimplantation Genetic Testing for Monogenic Disorders or Single Gene Disorders *879*; Indication of Preimplantation Genetic Testing for Monogenic Disorders or Single Gene Disorders *879*; Pre-preimplantation Genetic Testing Work-up *879*; Genetic Analysis in Case of Preimplantation Genetic Testing for Monogenic Disorders or Single Gene Disorders *880*; Preimplantation Genetic Testing for Structural Chromosomal Rearrangements *880*; Human Leukocyte Antigen Typing *880*; Mitochondrial DNA Quantification in Preimplantation Genetic Testing *880*; Noninvasive Preimplantation Genetic Testing *880*; Basis of Noninvasive Preimplantation Genetic Testing *880*; Limitation of Noninvasive Preimplantation Genetic Testing *881*; Current Status of Noninvasive Preimplantation Genetic Testing *881*; Future Perspective *881*

65. Epigenetics and Assisted Reproductive Technology 883
Mandeep Kaur, Ajitabh Shukla
Epigenetics *883*; Genomic Imprinting *884*; Human Phenotypes Associated with Imprinted Genes *884*; Epigenetics in Fetal Origin of Adult Disease *884*; When did the Concern Start? *885*; What is the Most Crucial Period for Imprinting? *885*; Potential Risks in Assisted Reproductive Technology *885*; Specific Imprinting Disorders *886*; Global Imprinting Disorders *887*; What is the Evidence of Association? *887*; Prevention *887*; Imprinting and Assisted Reproductive Technology: Future Considerations *887*; Other Epigenetic Issues *888*

SECTION 9: COMPLICATIONS IN ART

66. Ovarian Hyperstimulation Syndrome..... 893
Surbhi Gupta, Divyashree PS
Classification *893*; Etiology and Pathophysiology *893*; Risk Factors for Ovarian Hyperstimulation Syndrome *898*; Clinical Features *898*; Prevention *899*; Experimental Methods *904*; Management *904*

67. Ectopic Pregnancy 913
Rishma Dhillon Pai, Hrishikesh Pai, Nidhi Shah Gandhi, Navina Singh
Definition *913*; Heterotopic Pregnancy *913*; History of Ectopic Pregnancy *913*; Incidence *913*; Common Sites for Ectopic Pregnancy *913*; Risk Factors *913*; Clinical Features *914*; Diagnosis *914*; Tubal Pregnancy *916*; Nontubal Ectopic Pregnancy *917*; Cesarean Scar Pregnancy *917*; Interstitial Pregnancy *917*; Cornual Pregnancy *917*; Ovarian Pregnancy *918*; Abdominal Pregnancy *918*; Heterotopic Pregnancy *918*; Laparoscopy *919*; Primordial and Primary Prevention of Ectopic Pregnancy During In Vitro Fertilization *919*; Management of Tubal Pregnancy *920*; Management of Nontubal Ectopic Pregnancy *923*; Post-treatment *924*; Long-term Fertility Prospects Following an Ectopic Pregnancy (Royal College of Obstetricians and Gynaecologists, 2016) *924*; Counseling and Psychological Support *924*

68. Multiple-order Births 926
Veronica Irene Yuel
Incidence *926*; Etiology *926*; Pathophysiology *927*; Pathogenesis *928*; Clinical Features *928*; Diagnosis *930*; Complications *931*; Treatment *931*

SECTION 10: THIRD PARTY REPRODUCTION

69. Oocyte and Sperm Donation 937
Jaideep Malhotra, Ashwini Mohandas, Narendra Malhotra, Neharika Malhotra
Oocyte Donation *938*; Legalities Pertaining Oocyte Donation as per Assisted Reproductive Technology (Regulation) Act, 2021 *939*; Important Points Regarding Oocyte Donation in the ART Act *940*; Evaluation *941*; Counseling *942*; Sex-selective Assisted Reproductive Technology Practice *943*; Stimulation Protocols in Oocyte Donor In Vitro Fertilization Cycle *943*; Endometrial Preparation of Recipient *943*; Factors Predicting Success of a Donor Program *944*; Reproductive and Obstetric Outcomes *945*; Oocyte Banking *946*; Oocyte Sharing *947*; Oocyte Donor Programs for Stem Cell Research *947*; Remuneration *947*; Disclosure and Counseling *948*; Ethical Concerns Regarding Oocyte Donation *948*; Offenses and their Implications *948*; Sperm Donation *949*; Three-parent Assisted Reproductive Technology *950*

70. Surrogacy in Assisted Reproductive Technology 954
Nayana H Patel, Yuvraj D Jadeja, Harsha K Bhadarka, Niket H Patel, Molina N Patel, Harmi Thakkar
What is Surrogacy? *954*; History *954*; Types of Surrogacy *954*; Who Needs Surrogacy? the Indications *954*; Steps Involved in the Surrogacy Process *955*; Risks Associated with Surrogacy *958*; Various Aspects and Concerns Involved in Surrogacy *958*; Surrogacy Legislation: The International Scenario *958*; Surrogacy in India and Guidelines for Surrogacy *959*

71. Assisted Reproductive Technology Guidelines 962
(Brig.) RK Sharma
ART Clinic and Bank: Minimal Physical Requirements *963*; ART: Clinics and Banks Classifications as per the Assisted Reproductive Technology (Regulation) Bill, 2021 *964*; ART Team: Essential Qualifications as per the Assisted Reproductive Technology (Regulation) Bill, 2021 *964*; Artificial Insemination with Donor Semen *965*; Oocyte Donation or Embryo Donation *966*; Key Highlights of the Assisted Reproductive Technology (Regulation) Bill, 2021 *966*; Other Duties of Assisted Reproductive Technology Clinic *967*; Need for Assisted Reproductive Technology (Regulation) Bill, 2021 *967*; Concern for Assisted Reproductive Technology (Regulation) Bill, 2021 *967*; Evolution in Surrogacy Law—Legal Insights *968*; Types of Surrogacy *968*; Eligibility Criteria for Couples Intending Surrogacy *969*; Eligibility Criteria for a Surrogate Mother *969*; Abortion During Surrogate Pregnancy *969*; Offenses and Penalties Related to Surrogacy in India *969*; Circumstances for Opting Surrogacy *969*; Analysis of Key Points of Surrogacy (Regulation) Rules, 2022 *969*; Infertility—a Taboo *970*; Assisted Reproductive Technology Bank *971*

72. Adoption 973
Himanshu Singhal, Anubhuti Patel
Definition *973*; Types of Adoption *974*; Rules and Regulations of Adoption in India *975*; Pediatrician's Role *977*; Postadoption Family Concerns *977*

73. LGBTQ and Fertility 980
Utpala Sen, Gautam Khastgir
Transgender People *981*; Lesbians *982*; Gay Couples *982*; Scenario in India *983*; Support Groups *983*

74. Transgender Population and Fertility 986
HK Nagaraj, Arjun N
Gender Affirmation Surgery *986*; Complications of Gender Affirmation Surgery *989*; Fertility Preservation *991*

SECTION 11: OUTCOME FOLLOWING ASSISTED REPRODUCTIVE TECHNIQUE

75. Maternal and Fetal Outcomes Following Assisted Reproductive Technique 995
Navya V, Amit J Upadhyay, Kamini A Rao
Possible Causes of Adverse Outcomes at Various Levels *995*; Adverse Obstetric and Perinatal Outcome in Couples with Delay in Time to Pregnancy but without any Treatment *995*; Multiple Pregnancy and Adverse Obstetrical and Perinatal Outcomes *996*; Preterm Delivery *996*; Low Birth Weight *997*; Perinatal Mortality *997*; Other Obstetrical Outcomes *997*; Congenital Anomalies *998*; Chromosomal Disorders *998*; Imprinting Disorders *998*; Preimplantation Genetic Screening *998*; Blastocyst Culture *998*; Fresh Versus Frozen *999*;

Vitrification Versus Slow Freezing *999*; Assisted Hatching *999*; In Vitro Maturation *999*; Long-term Consequences in Assisted Reproductive Technique Born Children *999*; Other Maternal Factors Which Influence the Outcome *999*; Intracytoplasmic Sperm Injection with Ejaculated Versus Nonejaculated Sperm *1000*

76. Early Pregnancy Scan 1004
Srividhya GK
Normal Sonoembryology *1004*; First-trimester Ultrasound: Normal Landmarks *1005*; Multiple Pregnancy *1010*; First-trimester Complications *1011*; Ectopic Pregnancy *1013*; Heterotopic Pregnancy *1015*; Molar Pregnancy *1015*; Risk Factors for Early Pregnancy Failure *1015*

77. Recurrent Pregnancy Loss: From Diagnostic Dilemmas to Clinical Decisions 1019
Smitha AP, Sushma Baxi, Sushma Madhuprakash
Defining Pregnancy Loss and Recurrent Pregnancy Loss *1019*; Tip of the Iceberg *1019*; Immunological Milieu in Recurrent Pregnancy Loss *1020*; Natural Killer Cells: Friend or Foe? *1020*; Plasticity of Regulatory T and T Helper 17 Cells *1021*; Interventions in Recurrent Pregnancy Loss *1022*; Tumor Necrosis Factor-alpha Antagonists *1023*; Recent Advances *1024*; Strong Practice Recommendations in Recurrent Pregnancy Loss *1024*

SECTION 12: RECENT ADVANCES

78. Bioengineered Human Endometrium In Vitro 1027
Satish Patki, Ujjwala Patki, Shweta Patki
Indications of the Culture of Endometrium *1027*; Contraindications *1028*; Three-dimensional Culture System *1028*; Complications *1030*; Study of Window of Implantation on Bioengineered Endometrium *1030*; Limitations of the Present Study and Future Research *1031*

79. Recent Trends in Assisted Reproductive Technique 1033
Arya Rajendran, Baiju Pookilath
Assisted Reproductive Technique During COVID-19 Pandemic *1033*; Assisted Reproductive Technique and COVID-19 Vaccination *1035*; Newer Diagnostic Modalities in Assisted Reproductive Technique *1035*; Recent Trends in Medical Management in Assisted Reproductive Technique *1038*; Newer Trends in Controlled Ovarian Stimulation *1047*; Advances in Embryology Laboratory Techniques *1048*

80. Uterine Transplantation: Research, Techniques, and Results 1055
Mats Brännström, Jana EJ Pittman
Animal Research in Uterus Transplantation *1055*; Surgical Techniques in Human Uterus Transplantation *1057*; Results of the only Completed Human Uterus Transplantation Trial *1059*; Results of Uncompleted Studies and Single Cases of Uterus Transplantation *1060*; Live Births after Uterus Transplantation *1062*

81. Ovarian Transplant 1065
Pravin Mhatre, Jyoti Mhatre
History of Ovarian Transplant *1065*; Animal Experiments *1067*; Human Experiments *1068*; Indications for Ovarian Transplant *1068*; Problems Associated with Ovarian Transplant *1068*; Ovarian Vasculature *1069*; Site of Ovarian Transplantation *1069*; The Solutions *1071*; Journey to the First Transplant *1073*; Government Permission *1073*

82. Novel Ways of Creating Vagina 1075
Pravin Mhatre, Jyoti Mhatre
Development of Müllerian Duct *1075*; Clinical Presentation *1075*; Use of Peritoneum in Neovaginal Lining *1076*; Procedure *1076*; Research Hypothesis *1078*; Immunohistochemistry *1081*; Role of Stemness Markers and Translational Genes in Creating Neovagina *1089*

83. Genitoplasty 1093
Prashant Puranik
Embryonal Basis *1093*; Etiology of Vaginal Agenesis and Clinical Presentation *1093*; Differential Diagnosis *1094*; Diagnostic Methods *1095*; Psychological Aspects of Müllerian Aplasia *1096*; Management *1096*; Nonsurgical Creation of a Neovagina *1097*; Surgical Creation of a Neovagina *1097*; Functional Outcomes *1102*; Management of Infertility *1103*; Future Scope *1103*

84. Endometrial Rejuvenation 1106
Satish Patki, Shweta Patki, Surhud S Patki, Aditi M Kunte
Role of Endometrium in the Process of Implantation *1106*; Causes and Pathophysiology of Thin Endometrium *1107*; Principles of Endometrial Rejuvenation *1107*; Methods of Endometrial Rejuvenation *1107*

85. Ovarian Rejuvenation 1116
Manjunath C Swamy
What are Stem Cells? *1116*; Classification *1116*; Stem Cells "Niche" *1118*; Stem Cell-based Therapy for Female Infertility *1118*; Stem Cell Therapy for Endometrial Regeneration *1120*; Derivatives of Stem Cells: Explored for Regenerating Endometrium *1121*; In Vitro Activation of Ovary *1122*

SECTION 13: MISCELLANEOUS

86. Batch In Vitro Fertilization 1127
Sandhya Krishnan
Different Settings where Batch In Vitro Fertilization is Done *1127*; Preparation for a Batch In Vitro Fertilization *1128*; Preparation for a Batch In Vitro Fertilization: Laboratory Aspects *1132*

87. Frozen Embryo Transfer 1135
Hrishikesh Pai, Nandita Palshetkar, Rishma Dhillon Pai, Kinjal Shah, Rohan Palshetkar, Arnav Pai
Indications for a Frozen Embryo Transfer *1136*; Different Methods for Endometrial Preparation for Frozen Embryo Transfer *1136*; Ideal Duration of Progesterone Supplementation Before Embryo Transfer *1138*; To Briefly Understand the Technique of Cryopreservation *1139*; Fresh versus Frozen Embryo Transfer *1141*

88. Evidence-based Practice in Reproductive Medicine 1145
Parimala Chinta, Mohan S Kamath, Korula George
Controversial Areas in Practice *1145*

89. Ethical, Legal, and Social Issues of Modern Assisted Reproductive Technology Practice 1154
Petra De Sutter, Pankaj Talwar
Assisted Reproductive Technology (Regulation) Rules, 2022 *1154*; Surrogacy (Regulation) Rules, 2022 *1157*; Timeline of Assisted Reproductive Technology and Surrogacy Rules (2021–2022) *1157*; Ethical, Legal, and Social Issues *1159*

90. Quality Management in Assisted Reproductive Techniques Laboratory 1161
Surbhi Gupta, Divyashree PS
References for Quality Guidelines *1161*; Models for Quality Management *1162*; Components of Quality Control Program *1162*; Emergency Plan in In Vitro Fertilization Laboratory *1175*; Checklist in In Vitro Fertilization Laboratory *1177*; Benefits and Drawbacks of Quality Management System *1177*

91. Auditing of Clinical Outcomes 1180
Arati R Rao
Benefits of Audit *1180*; The Audit Cycle *1181*; Sections to be Audited *1181*; Setting Standards *1181*; Selecting Topics for Audit *1182*; In Vitro Fertilization Program Performance Indicators *1182*; Setting Objectives *1183*; Data Collection *1183*; Data Analysis *1183*; Writing an Audit Report *1183*; Recommendations for Change *1184*; Scope of the Audit *1184*; Audit Report *1184*

92. Periconceptional Challenges and Modifiable Risk Factors: Evidence to Practice 1185
Revathi S Rajan
Background *1185*; Oxidative Stress *1185*; Immune Regulation in Pregnancy *1185*; Micronutrients and Metabolic Factors *1188*; Post-IVF Pregnancies: Surveillance Patterns and Rationale *1189*; Role of Art/Third-party Reproduction and Preimplantation Genetic Testing for Aneuploidy in Cases with Recurrent Pregnancy Loss *1191*

93. Emergencies in Infertility 1193
Arunima Halder
Ovarian Hyperstimulation Syndrome *1193*; Adnexal Torsion *1196*; Emergencies During Oocyte Retrieval *1200*; Emergency after Embryo Transfer *1201*

94. Fetal Reduction 1207
Revathi S Rajan
Background *1207*; Medicolegal Issues and Psychological Impact *1207*; Procedure *1208*; Methods *1208*; Prerequisites *1208*; Technique *1209*; Other Methods *1209*; Failed Reduction *1210*; Selective Reduction *1210*; Studies on Fetal Reduction *1210*

95. COVID-19 and Pregnancy 1212
Varsha Patil, Chandana C
Etiology *1212*; Pathophysiology *1212*; Coronavirus Disease 2019 and Pregnancy *1212*; Clinical Presentation of Coronavirus Disease in Pregnancy *1213*; Effects of Coronavirus Disease on Pregnancy *1213*; Symptoms and Classification of Severity of Coronavirus Disease 2019 *1213*; Preventive Measures to be Taken by Pregnant Women to Avoid Coronavirus Disease 2019 *1213*; Indications for Coronavirus Disease 2019 Testing During Pregnancy *1213*; Computed Tomography Scan Findings of Coronavirus Disease 2019 *1214*; Antenatal Care *1214*; Triaging *1215*; Management of Mild or Asymptomatic Coronavirus Disease 2019 Infection During Pregnancy *1216*; Indications for Inpatient Management *1216*; Treatment of Moderate to Severe Coronavirus Disease 2019 Infection in Pregnancy *1216*; Management of Critically Ill and Severe Hypoxic Coronavirus Disease 2019 Pregnant Patients *1217*; Management of Coronavirus Disease 2019 Pregnant Women in Labor *1217*; Postnatal Care of Coronavirus Disease 2019 Patient *1217*; Use of Personal Protection Equipment in the Management of Suspected/Confirmed Patient of Coronavirus 19 Disease *1219*; How to use Personal Protective Equipment *1219*; Coronavirus Disease 2019 Vaccination in Pregnant Women and Lactating Women *1219*

96. Essentials of Statistics: A Clinician's Perspective 1221
Gautham T Pranesh
Data and its Types *1221*; Summarizing Data *1222*; Normal Distribution and its Properties *1222*; Statistical Tests and Their Application *1223*; Study Designs and Statistical Measures *1224*; Other Applications of Statistics in a Clinical Setting *1228*

VOLUME 2: LABORATORY ASPECTS OF IVF AND ANDROLOGY

SECTION 14: ANDROLOGY

97. Semen Analysis in 21st Century Medicine: A Paradigm Shift 1235
Fahim L Rajwate, Ashish S Reddy, Vasan SS
Semen Analysis *1235*; The American Urological Association Best Practice Policy and the American Society for Reproductive Medicine Practice Committee Report *1236*; The Probabilistic Nature of Human Fertility *1236*; Morphology of Spermatozoa *1237*

98. Sperm Function Tests 1242
Anupama Deenadayal Mettler, Roopini Sathiasai Kumar
Fructose Estimation *1242*; Indices for Abnormal Morphology Calculation *1243*; Tests for Reactive Oxygen Species *1243*; Leukocyte Detection Test *1244*; Sperm Vitality Tests *1244*; Sperm–Mucus Interaction Tests *1245*; Mitochondrial Activity Index Test *1246*; Test for Capacitation *1246*; Tests for Acrosome Reaction *1247*; Hyaluronan Binding Assay *1247*; Competitive Binding Assay *1248*; Sperm Penetration Assay *1248*; Nuclear Chromatin Decondensation Test *1248*; Sperm DNA Fragmentation Index *1248*; Biochemical Assay *1248*; Sperm Selection Using Artificial Intelligence *1250*

99. Selection of Sperm 1253
Muthukumar K
Sperm Selection for Intrauterine Insemination *1253*; Sperm Selection for Intracytoplasmic Sperm Injection *1254*

100. Sperm Chromatin Assessment 1261
Priya Kannan
Clinical Significance *1261*; Causes of Sperm DNA Damage *1262*; Assays for Detection of Sperm DNA Integrity *1262*; Drawback of Sperm DNA Testing *1264*; Clinical Guideline for Use of Sperm DNA Fragmentation *1264*

101. Advanced Sperm Preparation Techniques in Assisted Reproductive Technology 1267
Natchandra Chimote, Bindu Chimote
Simple Wash Method *1268*; Migration-Based Techniques *1268*; Tips to Maximize the Sperm Yield *1271*; Magnetic-Activated Cell Sorting *1272*; Glass Wool Filtration *1273*; Glass Beads *1274*; Sephadex Columns *1274*; Transmembrane Migration *1274*; Reduction of Semen Viscosity *1274*; When to Use a Particular Sperm Preparation Technique *1275*; Limitations of Conventional Sperm Preparation Techniques *1275*; Advanced Strategies of Sperm Selection *1276*; Zeta Potential *1278*; Molecular Binding *1278*; Hyaluronic Acid Binding *1280*; PICSI Dish *1280*; Hyaluronan-containing Medium *1280*; Microfluidic Isolation of Motile Spermatozoa *1281*; Sperm Selection Based on Guidance Mechanisms *1283*; Future Development of Sperm Preparation Techniques *1284*

102. Semen Banking 1291
Guruprasad Kalthur, Sandhya Kumari, Satish Kumar Adiga
History of Semen Banking *1291*; Protocols *1291*; Future Direction *1295*

SECTION 15: EMBRYOLOGY

103. History of In Vitro Fertilization 1299
Neelima Gupta
History of In Vitro Fertilization *1300*; Latest Developments in In Vitro Fertilization Technologies after 2009 *1312*; The Future *1313*

104. In Vitro Fertilization and Embryo Transfer 1319
Alex C Varghese, Shrey Balani, Kannamannadiar Jayaprakasan
Importance of Total Quality *1319*; In Vitro Fertilization Laboratory and Culture Systems *1319*; Oocyte Abnormalities and Pregnancy Outcomes *1322*; Effect of Ovarian Stimulation on Oocyte Quality *1323*; Individualized or Patient-Tailored Stimulation Strategies *1323*; Oocyte Retrieval *1325*; In Vitro Fertilization versus Intracytoplasmic Sperm Injection Insemination *1326*; Freeze All Strategy *1328*; Embryo Transfer *1328*; Training in OPU and ET by Simulators *1329*; Artificial Intelligence and Automation *1330*

105. Intracytoplasmic Sperm Injection 1334
Alex C Varghese, Kenichiro Hiraoka
Indications for Intracytoplasmic Sperm Injection *1334*; Indications for Intracytoplasmic Sperm Injection with Surgically Retrieved Spermatozoa *1335*; Location of Intracytoplasmic Sperm Injection Setup *1335*; Intracytoplasmic Sperm Injection *1335*; Conventional Insemination Versus Intracytoplasmic Sperm Injection *1343*; Automation of Intracytoplasmic Sperm Injection *1344*

106. Analysis of Fertilization 1351
Shailaja Gada Saxena, Ritu Gada, Dhiraj Gada
Morphological Evaluation of Gametes And Embryos *1351*; Time-Lapse Imaging *1354*; Metabolomics *1355*; Preimplantation Genetic Diagnosis/Screening *1355*

107. Morphological Assessment of Oocyte and Embryo 1358
Vijay Mangoli, Ranjana Mangoli
Oocyte *1358*; Zygote *1363*; Early Cleavage *1364*; Cleavage Stage Embryos *1364*; Morphological Assessment Using Morphokinetics *1367*

108. Blastocyst Culture and Transfer 1370
Rajvi H Mehta, Mohammed Ashraf C, Mir Jaffar
Why Culture Embryos to the Blastocyst Stage In Vitro? *1370*; Morphological Evaluation of Blastocysts *1371*; Morphology of Poor-Quality Blastocysts *1372*; Evaluation of Zygotes and Embryos and Their Potential to Develop Into Blastocysts *1373*; Factors Influencing Blastocyst Development *1374*; Hatching Phenomenon in a Blastocyst *1374*; Cryopreservation of Blastocysts *1374*; Advantages and Applications of Blastocyst Culture *1375*; Limitations of Blastocyst Transfer *1375*

109. Cryopreservation of Oocytes 1380
Goral Gandhi
Indications for Oocyte Freezing *1380*; Hurdles Associated with Oocyte Cryopreservation *1380*; Factors Affecting Oocyte Survival *1381*; Vitrification *1381*; Dynamics of Meiotic Spindles of Frozen-Thawed Oocytes *1383*;

Time Schedule for Vitrification of Oocytes and Fertilization *1383*; Safety of Vitrification *1383*; Our Results with Oocyte Vitrification *1384*; Our Experience with Oocyte Vitrification *1384*; Immature Oocytes *1384*; Poor Morphology Oocytes *1385*

110. Embryo Cryopreservation 1387
Nitin Laxmikant Lad, Mir Jaffar
Cryoprotective Agents *1387*; Freezing or Slow Freezing *1389*; Vitrification *1389*; "Freeze-All" Strategy *1391*; Safety of Reproductive Cryopreservation *1391*

111. Viral Contamination Risk to Gametes and Embryos in Cryostorage during COVID-19 1393
Prathima Tholeti, Satish Kumar Adiga
SARS-CoV-2 and its Impact on Reproductive Cells *1393*; Fertility Preservation *1394*; Cross-contamination of Viruses in Liquid Nitrogen Cryotanks *1394*; Risk Mitigation Strategies and Safety During Cryostorage *1395*; Cryosystems and Carrier Devices *1395*; Liquid Nitrogen Sterilization *1395*; Washing Procedures to Eliminate Pathogens *1395*; Safety issues *1396*

SECTION 16: ADVANCES IN ASSISTED REPRODUCTIVE TECHNOLOGIES

112. Assisted Hatching in Assisted Reproductive Technology 1401
Gaurav Majumdar
Causes for Impaired Hatching *1401*; Assisted Hatching: Plausible Mechanisms *1401*; Pitfalls of Assisted Hatching *1404*; Patient Selection for Assisted Hatching *1405*; Medical Management *1405*

113. Preimplantation Genetic Screening and Diagnosis: Laboratory Aspects 1407
Krishna Chaitanya M, Durga G Rao, Sushma Baxi, Abhishek Shah
Terminology *1407*; Setting up a State of Assisted Reproductive Technology Laboratory And an Efficient Program for Preimplantation Genetic Screening/Preimplantation Genetic Diagnosis *1408*; Patient Management *1408*; History, Counseling, Consenting, and Documentation *1409*; In Vitro Fertilization Stimulation Protocols *1409*; Choice of Assisted Reproductive Technology for Preimplantation Genetic Screening/Preimplantation Genetic Diagnosis *1409*; Ideal Stage for Embryo Biopsy *1409*; Polar Body Biopsy *1409*; Cleavage Stage Biopsy—Blastomere Biopsy *1410*; Protocol for Embryo Biopsy and Tubing *1410*; Protocol—Blastomere Biopsy *1410*; Advantages of Cleavage Stage Biopsy *1411*; Limitations of Cleavage Stage Biopsy *1411*; Morula Stage Biopsy *1411*; Blastocyst Stage Biopsy *1411*; Protocol For Trophectoderm Biopsy *1411*; Tubing Protocol: Array and Single-Gene Disorders (Blastomere or Trophectoderm) *1412*; Advantages of Trophectoderm Biopsy *1413*; Limitations of Trophectoderm Biopsy *1413*; Noninvasive Methods for Embryo Biopsy *1413*; Cryopreservation of Embryos *1414*; Ideal Platform for Genetic Screening *1414*; Fluorescence In Situ Hybridization *1414*; Errors with Preimplantation Genetic Screening Techniques *1415*; Embryo Transfer *1416*; Follow-up of Pregnancies *1416*; Quality Control and Quality Assurance: Outcome Measures *1416*; Effectiveness and Efficacy of Preimplantation Genetic Screening in the Field of Assisted Reproductive Technology *1417*

114. In Vitro Maturation of Oocytes: A Practical Approach 1420
Varsha Samson Roy
Oocyte Maturation In Vivo *1420*; Advantages and Indications for In Vitro Maturation *1421*; Clinical Aspects of In Vitro Maturation *1421*; In Vitro Maturation Aspiration *1422*; Oocyte Identification *1423*; In Vitro Maturation Culture *1423*; Assessment of Oocyte Maturity *1424*; Fertilization of In Vitro Maturation Oocytes *1424*; Embryo Development *1424*; Protein Synthesis *1424*; Pregnancy Rates with In Vitro Maturation *1425*; Safety of In Vitro Maturation *1425*

115. Ovarian Tissue Cryopreservation and its Eventual Transplantation: Is it Proficient Fertility Preservation Program? 1429
Pankaj Talwar, Pooja Awasthi

116. Polarization Microscopy and its Clinical Applications 1432
Taswin Kaur, Mir Jaffar
Principle *1432*; Device *1433*; Functions of Polarizing Microscope *1434*; Application of Polarizing Microscope *1434*

117. OMICS in Assisted Reproductive Technology 1440
Syed Waseem Andrabi, Nivita Gugnani
Genomic Analysis *1441*; Transcriptomics *1442*; Proteomics *1443*; Metabolomics *1443*

118. Intracytoplasmic Morphologically Selected Sperm Injection, Physiological Intracytoplasmic Sperm Injection, and its Clinical Significance 1447
Mohammed Ashraf C
Intracytoplasmic Morphologically Selected Sperm Injection *1448*; Physiological Intracytoplasmic Sperm Injection *1452*; Physiological Intracytoplasmic Morphologically Selected Sperm Injection *1452*

119. Microfluidics in Assisted Reproductive Technology 1455
José María de los Santos, Thamara Viloria, Ana Cobo, Josep Lluís Romero, Marcos Meseguer
Manufacturing Microfluidic Devices *1456*; Sperm Isolation *1456*; Oocytes Denudation *1457*; In Vitro Fertilization *1457*; Embryo Culture *1459*; Integrated Platforms *1461*; Microfluidics for Automated Vitrification *1463*

120. Artificial Intelligence in Assisted Reproductive Technology 1466
Krishna Chaitanya M, Durga G Rao, Ruchi Narula, Selva Karthick M, Sherin Theresa Mathew
Artificial Intelligence Architecture and Tools Used in Assisted Reproductive Technology *1466*; Why do We Need a Machine Touch? *1467*; Recent Advances of Artificial Intelligence in In Vitro Fertilization and Assisted Reproductive Technology *1468*; Currently Available Tools and Applications *1474*; Lab on a Cloud *1475*; Possible Limitations *1475*; Future Aspects *1476*

SECTION 17: LABORATORY MANAGEMENT

121. Setting-up an ART Laboratory 1481
R Suchindra, Anuja Kamath
Layout of an Art Laboratory *1481*; Infrastructure for New Laboratory Set-Up *1482*

122. Quality Control in IVF Laboratory 1488
Sanjay Shukla
What is Quality? *1488*; Quality Management *1488*; Quality Control *1489*; Disaster Management *1491*

123. Embryo Culture Systems 1494
Goral Gandhi
Culture Media *1494*; Media Systems *1496*; Culture Conditions *1497*; Media Storage and Equilibration *1497*; Incubators *1497*; Air Purification Unit *1498*; Quality Control *1498*; Epigenetic Changes *1498*; Multiple Choice Questions *1499*

124. Micromanipulators 1502
Mir Jaffar, Syed Waseem Andrabi, Veena Gangaraju, Mohammed Ashraf C
Micromanipulator *1502*

125. Troubleshooting in the In Vitro Fertilization Laboratory: Challenging Case Scenarios 1510
Varsha Samson Roy, Sangita Sharma
Laboratory Quality Management Program *1510*; Equipment *1511*; Air Quality and Culture Conditions *1511*; Disposables and Media *1511*; Operator Skills *1511*; Procedural Aspects *1511*; Patient Factors *1512*; Clinical Aspects *1513*; Challenging Scenarios *1513*

126. Quality Management in Assisted Reproductive Technology Clinics 1522
Gautham T Pranesh
Principles of Quality Management *1522*; Developing a Quality Management System in Assisted Reproductive Technology Clinic *1522*; Maintaining Ongoing Compliance to a Quality Management System *1523*; Accreditation, Certification, and Licensing Requirements for Assisted Reproductive Technology Clinics *1524*; Key Elements of a Quality Management System *1524*; Guidelines for Good Practice in In Vitro Fertilization Laboratories *1525*

VOLUME 3: ATLAS OF HUMAN EMBRYOLOGY

127. Oocyte Cumulus Complex Evaluation 1533
Kamini A Rao, Divyashree PS
Mature Oocyte Corona Cumulus *1533*; Approximately Mature Oocyte Corona Cumulus *1534*; Immature Oocyte Corona Cumulus *1534*; Postmature Oocyte Corona Cumulus *1535*; Atretic Oocyte Corona Cumulus *1535*

128. Oocyte Nuclear Maturity Evaluation 1537
Divyashree PS, Kamini A Rao, Anu Kottur
Metaphase II *1538*; Metaphase I *1538*; Germinal Vesicle Oocyte (40×) *1539*; Germinal Vesicle Oocyte (20×) *1539*; Oocytes in Different Stages of Maturation (FIG. 4) *1540*

129. Oocyte Dysmorphisms 1541
Divyashree PS, Bezar Ghan VV, Kamini A Rao, Mohammed Ashraf C
Granular Cytoplasm *1541*; Vacuoles *1541*; Smooth Endoplasmic Reticulum Cluster *1545*; Refractile Bodies *1545*; Polar Body *1545*; Perivitelline Space *1545*; Zona Pellucida *1552*

130. The Sperm 1557
Anitha S Kumari K, Dileep Kumar R, Hemanth Kumar MA, Mohammed Ashraf C
Sperm Count and Motility *1557*; Sperm Morphology *1558*; Globozoospermia (Acrosomal Agenesis) *1559*; Sperm Vitality *1560*; Deoxyribonucleic Acid Fragmentation Index *1562*

131. Normal Embryo Development 1564
Bezar Ghan VV, Divyashree PS, Kamini A Rao
Pronuclear Stage *1565*; Syngamy *1565*; Two-cell Stage *1566*; Four-cell Stage *1566*; Eight-cell Stage *1567*; Compaction *1567*; Early Blastocysts *1568*; Expanded Blastocysts *1568*; Hatching Blastocysts *1569*; Hatched Blastocysts *1569*

132. Embryo Scoring 1570
Bezar Ghan VV, Divyashree PS, Anitha S Kumari K, Mohammed Ashraf C
Symmetrical Pronuclei *1570*; Nonsymmetrical Pronuclei *1572*; Abnormal Pronuclei *1573*; Two-Cell Grade 1 Embryos *1575*; Two-Cell Grade 2 Embryos *1576*; Four-Cell Grade 1 Embryos *1577*; Four-Cell Grade 2 Embryos *1578*; Four-Cell Grade 3 Embryos *1579*; Eight-Cell Grade 1 Embryos *1580*; Eight-Cell Grade 2 Embryos *1581*; Eight-Cell Grade 3 Embryos *1582*; Grade 1, Day 4 Embryos *1583*; Grade 2, Day 4 Embryos *1584*; Grade 3, Day 4 Embryos *1585*; Early Blastocyst *1586*; Blastocyst *1589*; Expanded Blastocyst *1590*; Hatching Blastocysts *1592*; Hatched Blastocysts *1593*; Morphology of Poor Quality Blastocysts *1594*; Trophoblast Vesicle *1594*; Necrotic Foci *1594*; Vacuoles *1595*; Cytoplasmic Strings *1596*

133. In Vitro Fertilization/Intracytoplasmic Sperm Injection 1597
Bezar Ghan VV, Divyashree PS
Oocyte Insemination in In Vitro Fertilization *1597*; Intracytoplasmic Sperm Injection *1597*

134. Advanced Techniques 1605
Anitha S Kumari K, Bezar Ghan VV, Divyashree PS, Dileep Kumar R, Anu Kottur, Kamini A Rao, Mohammed Ashraf C
Physiological Intracytoplasmic Sperm Injection *1605*; Physiological Intracytoplasmic Sperm Injection Dish *1606*; Intracytoplasmic Morphologically Selected Sperm Injection *1608*; Poloscopy *1610*; Principle of Poloscopy *1610*; Time-Lapse Imaging *1613*; 1 Pronuclei *1614*; 3 Pronucleus *1615*; Laser-Assisted Hatching *1618*; Magnetic-Activated Cell Sorting (MACS) of Human Spermatozoa *1621*

135. Cryopreservation 1623
Bezar Ghan VV, Anitha S Kumari K, Divyashree PS, Mohammed Ashraf C
Cryopreservation of Oocytes *1623*; Cryopreservation of Embryos *1630*; Blastocyst Cryopreservation *1637*; Blastocyst Warming *1640*

136. Assisted Reproductive Technology Laboratory Setting 1645
Divyashree PS, Hemanth Kumar MA, Dileep Kumar R, Mohammed Ashraf C
Essential Equipment of Assisted Reproductive Technology Laboratory *1645*; Laminar Flow Cabinets *1646*; Heating, Ventilating, and Air-Conditioning *1647*; Incubators *1648*; Microscopes *1649*; Essential Equipment for Clinical Procedures *1654*

137. Embryo Biopsy 1662
Mohammed Ashraf C, Anuja Kamath
Blastomere Biopsy *1662*; Trophectoderm Biopsy *1663*
