**Full Color | Paper Back | 1/e, 2022 | 284 Pages | 8.5" x 11"**

**9789390595648 | Rs. 3995 | Discount Cat: D**

### ABOUT THE BOOK

The IADVL Atlas of Dermoscopy has been framed to encompass all the entities in the field of dermoscopy. It includes all the topics which are relevant in the Indian scenario, to the academicians, practicing dermatologists as well as the dermatology residents. The high-quality dermoscopy images from the Indian skin will be of utmost help to the readers in understanding the dermoscopic patterns and structures. All the patterns of dermoscopy are labeled with accurate markings for the benefit of readers. Relevance is given to the histopathological correlation of dermoscopic findings, wherever necessary.

### KEY FEATURES

- High-quality dermoscopic and clinical images.
- Differences in dermoscopic features in skin of color from fair skin types.
- Accurate markings of all dermoscopic features.
- Relevant dermoscopy and histopathology correlation.
- Coverage of almost all common dermatological conditions including hair and hair disorders.

### READERSHIP

- Academicians, practicing dermatologists as well as dermatology residents
