Contents

1. Peripheral Venous Access **1**

• Indications *1* • Precautions *2* • Technique *4*
• Complications *7*

2. Peripherally Inserted Central Catheters **9**

• Indications for PICC Insertion *9* • Principle of PICC Insertion *10* • PICC Removal *15*
• PICC Complications *15*

3. Umbilical Artery and Venous Catheterization **18**

• Umbilical Arterial Access *18*
• Umbilical Venous Catheterization *24*

4. Peripheral Artery Cannulation **26**

• Indications *26* • Contraindications *26*
• Equipment *26* • Precautions *27*
• Commonly used Peripheral Arteries *28*
• Technique *29* • Complications *31*

5. Exchange Transfusion **32**

• Indications *32* • Contraindications *33*
• Equipment *33* • Choice of Blood Product *33*
• Choice of Blood Group *34* • Volume of Donor Blood Required *34* • Preparation of Infant *35*
• Prepare Blood *36* • Pre-exchange Diagnostic Studies *36* • Technique of Exchange Transfusion *37*
• Postexchange Care *42* • Precautions *42*
• Complications *43*

6. Vascular Access: Intraosseous Route **44**

• Indications *44* • Contraindications *44*
• Materials *45* • Precautions *45* • Procedure *46*
• Complications, Prevention, and Management *49*

7. Endotracheal Intubation **50**
- Purpose *50* • Indications *50*
- Equipment *50* • Procedure *51*

8. Surfactant Therapy **55**
- Prophylactic Surfactant Administration *55*
- Early Rescue Treatment *58*
- INSURE (Intubate-Surfactant-Extubate to NCPAP) *59*

9. Chest Tube Insertion **62**
- Indications *62* • Procedure *62* • Complications *64*

10. Abdominal Paracentesis **66**
- Indications *66* • Analgesia *66* • Precautions *66*
- Procedures *67* • Complications *67*

11. Bladder Tap **68**
- Indications *68* • Contraindications *68*
- Complications *68* • Procedure *70*

12. Intramuscular Injections in Neonates **71**
- Equipment Required *71* • Needle Length *72*
- Procedure *72* • Practice Points *74*

13. Sucrose Analgesia for Neonatal Procedure **76**
- Indication *77* • Contraindications *78*

14. Lumbar Puncture in Neonate **79**
- Preparation for Lumbar Puncture *80* • Anatomical Landmarks *80* • Positioning of Infant for Lumbar Puncture *81* • Procedure for Lumbar Puncture *82*
- Procedure Failure *83*

15. Head Box Oxygen for Neonate **85**
- Equipment Required to Set-up a Head Box *86*
- Procedure for Setting up a Head Box *87*
- Complications *88*

16. Neonatal Intensive Care Unit Levels/ Neonatal Transfer **89**
• Level I Care *89* • Level II Care *90* • Level III Care *91*

17. Blood Pressure Measurement in Neonates **92**
• Noninvasive BP Measuring *93* • Indwelling Arterial Lines *93* • 'Normal' Neonatal Blood Pressure Values *95* • Blood Pressure Ranges in Neonates *96*
• Normal Neonatal Blood Pressure Values *97*

18. Newborn Screening **99**
• Principles of Newborn Screening *100*
• Sample Collection *100*

19. Hearing Assessment in Neonates **104**

20. Development Care for Neonate **108**
• Goals of Developmental Care *108*
• Definition of Commonly used Terms *109*
• Implementation of Developmental Care *111*
• Nursery Practices *113*

21. Use of Nasal CPAP for Respiratory Distress Syndrome **117**

22. Retinopathy of Prematurity Screening **122**

23. Extracorporeal Membrane Oxygenation in Neonatology **126**
• Indications *126* • Preparation *127* • Technique *129*
• Complications *133* • Complications in Patients *134*
• Morbidity *136*

24. Peritoneal Dialysis **138**
• Indications *138* • Contraindications *138*
• Equipment for Setting up the PD *139*
• Procedure *139* • Complications *139*

25. Subclavian Venous Cannulation **141**

- Indications *141* • Equipment *141*
- Preparation *142* • Ultrasound Guidance *143*
- Procedure *144* • Contraindications *146*
- Complications *146*
