### ABOUT THE BOOK

Every attempt has been made to present information in a simplified text augmented with the use of colored images and illustrations, tables, text boxes, and flowcharts. There was a tremendous increase in the understanding of molecular pathology and same is highlighted in all the relevant chapters.

### KEY FEATURES

- Provides basic as well as advanced concepts of diseases required to be known by postgraduate students.
- Provides knowledge of general pathology in a simple, lucid, easily understandable, and reproducible format.
- The book is divided into three sections namely Basics of Pathology (Chapters 1 to 5), General Pathology (Chapters 6 to 14), and Immunopathology (Chapters 15 to 17).
- Rapid review of book is assisted by providing key points in bold words.
- Provided with usual questions asked in the theory examination in general pathology of both MD and DNB.
- Text enhanced by illustrations, flowcharts, tables, gross photographs, photomicrographs, clinical photographs, and radiographs.
