9789390595396 | Price: Rs. 795 | Discount Cat: C

ABOUT THE BOOK

This edition explains basic concepts of General Pathology with few more illustrations. Another interesting feature is that every chapter covers a list of essay type questions, short answer questions and multiple choice questions. This will make the reading more interesting and paves a way for self-directed learning which may be profound help while preparing for the examination. A lot of changes have been made in the text on Genetics incorporating various advances in the field of genetics.

KEY FEATURES

- Presents a simplified and concise textbook of Pathology and Genetics for Nurses.
- Used many illustrations and tables for easy understanding.
- Covers the topics of general and systemic pathology. The Unit 4 on Clinical Pathology will be of great use particular in bed side management.
- Learning objectives are clearly mentioned in the start of every chapter and the salient points are summarized in Points to Ponder.
- Also includes evaluation questions in the form of essay type questions, short answer questions and multiple-choice questions which will be of great use to the students preparing for the summative examinations.
