Single Color | Paper Back | 2/e, 2022 | 624 Pages | 8.5" x 11"

9789354654862 | Rs. 995 | Discount Cat: B

### ABOUT THE BOOK

This book is intended to help the students in framing and answering questions in orthopedics asked in theory examinations. The book is basically compiled on the theoretical questions asked in DNB examinations over past 10 years. This is also similar to pattern asked in the MS Orthopedic examination

### KEY FEATURES

- Detailed and complete answers to all theory questions asked in last 12 years of DNB theory paper. The answers are primarily based on title Essential Orthopedics: Principles and Practice, 2nd edition.
- The questions are arranged in 6 chapters based on broad divisions of orthopedic faculty in which the questions are organized in four different papers of theory examination. The questions have been then sorted and answers provided in a simple question-answer format.
- Figures and flowcharts are included for detailing anatomy and algorithms where asked or for better understanding approach to treatment.
- Questions asked in parts or repetitive questions asked in different manner/format also answered with intersection reference if required.
- Allows the readers and postgraduate students to understand question framing and method to answer in theory examination.
- Compiled answers give opportunity to postgraduate students better understand the concepts and details of orthopedic disorders, diagnosis, treatment and method to approach questions.

### READERSHIP

- Postgraduate and DNB Students
