**9789389587302 | Rs. 3995 | Discount Cat: D**

### ABOUT THE BOOK

With both a stellar national and indeed international reputation, the Department of Endocrinology, Diabetes & Metabolism has put together a beautifully illustrated and highly instructive colour atlas, assisted by extensive collaboration with many other clinical departments. The illustrations remain outstanding, the text is clear and informative, and the success of the first edition implies that it has indeed been highly educative and useful.

### KEY FEATURES

- The Endocrine Emporium: Clinical Atlas in Endocrinology and Diabetes, Second Edition, is a comprehensive color atlas that covers every branch of "Endocrinology: Thyroid, Diabetes, Bone, Pituitary, Adrenal, and other Miscellaneous areas".
- This "Compendium" has problem-based clinical cases, which are serially interrogative and provide comprehensive diagnoses and therapeutic solutions with appropriate cross-references for further reading. Beyond the domain of clinical problems: The radiology, histopathology, and genetic profiles of patients are provided.
- The depth of information is of an encyclopedical quantum. Yet the simplicity may cater to endocrinologists, physicians, surgeons, general practitioners, and students alike!
- Further enticement is provided in the form of multiple-choice questions for every section, selected from the best of question banks to tease the mind and also to prepare for a career pathway involving objective evaluative processes.

### READERSHIP

- Endocrinologists, physicians, surgeons, general practitioners and students
