ABOUT THE BOOK

Indian Nursing Council (INC) has revised the syllabus for the BSc Nursing degree program. This book has been written to fulfil the requirements as per the new revised competency-based curriculum of BSc Nursing. All competencies of applied biochemistry are presented in a simple, systematically covering enough to meet the requirements as per the new curriculum of BSc Nursing.

KEY FEATURES

- The entire text has been divided into eight chapters that cover the entire new revised competency-based curriculum of BSc Nursing biochemistry syllabus recommended by INC.
- Each chapter starts with learning outcomes.
- Self-assessment questions have been included at the end of the chapters, containing, long answer questions (LAQs), short answer questions (SAQs), very short answer questions (VSAQs), and multiple-choice questions (MCQs).
- Clear line diagrams, point wise presentation and lucid details for understanding and quick revision.
- Tables and flowcharts will help in quick grasp of the text.
- The contents of the book are designed to assist the students to acquire knowledge of the normal biochemical composition and functioning of human body, its alterations in disease conditions and to apply this knowledge in the practice of nursing.
