KEY FEATURES

- In the book, several clinical cases have been discussed highlighting issues pertaining to arriving at the correct diagnosis and avoiding pitfalls.
- A separate section had been devoted discussing diagnostic challenges faced by neurologists in critical care units with the help of 15 authentic cases by critical care neurologists from the University of Texas Southwestern Medical Center, USA.
- Many chapters have been followed by Editorial notes and Appendices on some key issues relating to diagnostic pathways, again at times with the help of illustrative case studies.
- First one of its kind to be published from India.
- Access to videos has been given with the book.
