ABOUT THE BOOK

The Synopsis of Forensic Medicine and Toxicology is a time-tested most authentic, classical and popular condensed synopsis of forensic medicine and toxicology for busy students. It has no parallel and still is in high demand by undergraduates, postgraduates, teachers, lawyers and researchers in Asian countries. This current 30th edition is fully colored and has been updated, revised and with numerous clinical photographs to make the subject easier.

KEY FEATURES

- This is condensed version of the treatise published under the title: "The Essentials of Forensic Medicine and Toxicology" thirty-fifth edition, 2022.
- It is a complete textbook, which provides a reasonable and up-to-date coverage of the subject.
- Thoroughly updated and revised as per the new competency-based curriculum implemented by the National Medical Commissions (NMC).
- It is designed to provide a brief and essentially practical guide to current teaching in Forensic Medicine with particular reference to India.
- Includes illustrations, tables and key points.
