ABOUT THE BOOK

The third edition of A Comprehensive Textbook of Applied Nutrition and Dietetics has a flavor of its own, both in scope and content distinctly different from the existing textbooks in the market. The major thrust has been to make the book more student-friendly catering to the revised recommendations of Indian Nursing Council for undergraduate teaching in Nutrition. All chapters of this edition are self-contained and serves a dual teaching function to highlight the basic concepts and to relate them to nutritional problems.

KEY FEATURES

- This book will be helpful to diploma, graduate and postgraduate students.
- Based on revised INC BSc Nursing syllabus, 2021.
- Content is presented with clarity and full of explanation for each topic.
- Food value and daily requirements tables are also updated.
