Contents

1. Normal Tympanic Membrane 1
2. External Auditory Canal 7
   - Wax 7
   - Otitis Externa 9
     - Allergic otitis externa 9
     - Fungal otitis externa/otomycosis 10
     - Furuncle/localized otitis externa 13
     - Herpes zoster oticus 13
     - Malignant otitis externa with acute otitis media 16
     - Diffuse otitis externa with adhesive otitis media 17
     - Otitis externa with perforation 17
     - Otitis externa with stenosis 18
   - Foreign Bodies 19
     - Eardrop cap 19
     - Pea-nut – before and after removal 20
     - Live insect 21
     - Metallic foreign body 22
     - Organic foreign body 23
     - Perforation with sand particle 24
     - Plastic tube – before and after removal 25
     - Pencil eraser 26
     - Tobacco 26
     - Miscellaneous foreign bodies 27
   - External Auditory Canal Polyp 33
   - Keratosis Obturans 34
   - External Auditory Canal after Keratosis Removal 35
3. Acute Otitis Media 37
     - Stage of congestion 37
     - Stage of pre suppuration 39
     - Stage of perforation 40
     - Stage of resolution 43
   - Acute Otitis Media with Otitis Externa 44
   - Acute Otitis Media Post Tympanoplasty 46
4. Safe Chronic Suppurative Otitis Media 48
   - Chronic Suppurative Otitis Media-active 48
   - Chronic Suppurative Otitis Media - Inactive 52
   - Chronic Suppurative Otitis Media - Post Treatment 54

5. Perforations 56
Anteroinferior Perforation 56
Anterosuperior Perforation 57
Posteroinferior Perforation 58
Posterosuperior Perforation 60
Medium Perforation 61
Large Central Perforation 62
Subtotal Perforation 64
Marginal Perforation 68
Total Perforation 69
Multiple Perforation 70
Central Perforation with Tympanosclerosis 71
Central Perforation with Otitis Externa 73
Perforation with Discharge 74
Pseudoperforation 75
6. Traumatic Perforations 76
7. Tympanosclerosis 84
Tympanosclerosis 84
Tympanoscleroris with Acute Otitis Media 89
8. Unsafe Chronic Suppurative Otitis Media 90
Anterior Cholesteatoma 90
Attic Cholesteatoma 91
Attic Polyp 93
Atticoantral Cholesteatoma 96
Cholesteatoma in Post Tympanoplasy 99
Cholesteatoma with Polyp 100
Early Attic Retraction without Cholesteatoma 101
Masked Cholesteatoma with Mastoiditis 102
Natural Modified Radical Mastoidectomy 103
Posterosuperior Cholesteatoma 104
Posterosuperior with Attic Cholesteatoma 107
Extensive Cholesteatoma 108
Safe Chronic Suppurative Otitis Media Turning Unsafe 110
Scutum Erosion 111
External Auditory Canal Cholesteatoma 112
Congenital Cholesteatoma 114
9. Otitis Media with Effusion 115
10. Ventilation Tube (Grommet) 118
11. Granular Myringitis 119
12. Hemotympanum 120

13. Pre and Post Operative Cases 122
Recurrent and Residual Perforations 138
Postoperative Follow-up at 2 Years 139
14. Tuberculous Otitis Media 143
15. Tympanic Membrane in Allergic Rhinitis 145
16. Adhesive Otitis Media 146
Grade 1 146
Grade 2 148
Grade 3 150
Grade 4 151
17. Barotraumatic Otitis Media 152
18. Tumors 153
Hemangioma 153
External Auditory Canal Osteoma 155
Papilloma 157
Squamous Cell Carcinoma 158
Glomus tumor 159
19. Exploration of the Middle Ear 160
