Contents

1. Rubber Dam Isolation 1

Introduction 1; Goals of Isolation 1; Advantages 2; Disadvantages 2; Materials 3; Sizes 3; Thickness 3; Color 3; Uses 3; Holder 3; Retainer/Clamp 5; Punch 7; Retainer Forcep 7; Napkin 7; Lubricant 9; Sealants 9; Rubber Dam Template 10; Placement of Rubber Dam 10; Removal of Rubber Dam 11; Contraindications 11

2. Retention Form of Amalgam Preparation 12

Tooth Preparation 12; Stages and Steps for Tooth Preparation 12

3. Wedges 15

Purpose 15; Requirement 15; Parts of Wedges 15; Types 15; Sizes 16; Shapes 16; Function 16; Methods of Insertion 17

4. Gates Gliddens and Peeso Reamers 20

Sizes of Gates Glidden Drill 20; Sizes of Peeso Reamer 21; Parts 22; Usefulness in Preparing Root Canals 22; Straightening the Canal 23; Main Uses 25; Flexogates 25

5. Dental Caries Classifications 26

Based on Anatomic Site 26; Based on Severity 27; Based on Progress 27; Based on Chronology 28; Based on Direction of Spread 28

6. Differences Between the Inlay and Amalgam Restorations 29

7. Electric Pulp Testing 33

Principle 33; Electrolyte 33; Types of Pulp Testers 33; Site 33; Procedure 34; Precautions 35; Contraindications 36; Responses 36

8. Dental Adhesion 38

Adhesion 38; Adhesive Joint 38; Micromechanical Bonding 38; Bonding Systems 38; Adhesive Considerations for Direct Composite Restorations 39; Dental Adhesive Systems 40; Rationale of Adhesive Systems 43; Newer Adhesive Developments 45; Key Points to Ensure Effective Bonding with Total Etch System 46; Key Points to Ensure Effective Bonding with Self-etch System 47

9. Bleaching 48

Introduction 48; Classification of Bleaching Agents 48; Hydrogen Peroxide 49; Bleaching Techniques 51; Factors Affecting Bleaching 53; Disadvantages of Bleaching 54; Advantages of Bleaching 55

10. Endodontic Hand Instruments and Instrumentation 56

Classifications of Endodontic Instruments 56; Standardization 57; Materials Used for Manufacturing Instruments 59; Manufacturing of Endodontic Instruments 59; Features of Endodontic Instruments 60; Barbed Broach 61; Rasp 62; Reamers 62; Files 64; K-file 64; K-flex File (D-type File) 66; Flexo File 66; Flex-R File 66; H-file (Hedstrom File) 67; Uni File 69; S-file 69; Safety Hedstrom File 69

11. Hand Instruments in Conservative Dentistry and Some Considerations for Viva Voce 70

Basic Classification of Dental Instruments 70; Dental Instruments can be Grossly Divided into Following Two Categories 71; Instrument Nomenclature 72;

Instrument Formula 72; Exploring Instruments 72; Instruments for Tooth Structure Removal 74; Restorative Instruments 74; Hand Instruments 76; Considerations for Operative Dentistry and Endodontia Viva Voce 81; Clinical Classification of Traumatic Dental Injuries Including Codes of WHO International Classification 83

12. Gingiva in Health and Disease 88

13. Dentogingival Junction 95

Definition 95; Components 95; Development 95; Mechanism of Attachment of the Dentogingival Junction 96; Age and Inflammation Changes 97; Clinical Implication 97

14. Cementum In Disease 98

Structural Changes 98; Chemical Changes 99; Physical Changes 100

15. Tooth Mobility 101

Introduction 101; Types 101; Causes 102; Factors Affecting Tooth Mobility 102; Increased vs Increasing Mobility 103; Miller's Classification (1950) 104; Glickman's Classification (1972) 104; Lindhe's Classification 104; Stages of Tooth Mobility 104; Measurement of Tooth Mobility 104; Generalized Treatment of Mobility 106

16. Food Impaction 107

Definition 107; Types 107; Factors Affecting Food Impaction 107; Plunger Cusp 108; Classification of Factors Causing Food Impaction 108; Signs and Symptoms 111; Prevention and Treatment 111

17. Halitosis 114

Definition 114; Clinical Features 114; Primary Factors Affecting Halitosis 115; Microbiota in Halitosis 115; Mechanisms 115; Etiology 116; Diagnosis 119; Prevention 121; Management of Oral Malodor 121

18. Periodontal Probe 123

Definition 123; Design 123; Functions 123; Classification of Probes 124

19. Probing 129

Definition 129; Probing Technique 129; Interpretation 131; Limitations 132; Factors Affecting Probing 132; Probing at Various Times 132

20. Scalers and Curettes 134

Differences of Gracey Curette and Universal Curette 137; Comparison of Scalers 138; Areas of Instrumentation of Gracey Curettes 141

21. Gingival Curettage 143

Definition 143; Rationale 144; Indications 144; Contraindications 144; Limitations 144; Procedures 145; Other Techniques 145; Healing after Curettage 146

22. Infrabony Pocket 147

Signs 147; Symptoms 147; Classifications of Pockets 148; Classifications of Periodontal Pockets 148; Classifications of Infrabony Defects 148; Etiology of Infrabony Pocket and Infrabony Defect 151; Incidence 151; Diagnosis of Infrabony Defect 151; Treatment 152

23. Bone Replacement Grafts 157

Extra and Intraoral Donor Sites for Autogenous Bone Grafts 157; Osseous Coagulum 158; Bone Blend 158; Bone Swaging 158; Allogenic Bone Grafts 158; Alloplastic Materials 160; Xenografts 160

24. Hypersensitivity 162
Definition 162; Basic Concepts of Tooth Sensitivity 162; Pain Mediators 162; Neurophysiology 162; Other Theories of Dentin Hypersensitivity 163; Prevalence 163; Highest Incident Site 164; Pathophysiology 164; Causes 165; Clinical Implications 165; Diagnostic Methods 165; Conditions to Rule Out Hypersensitivity 166; Ways to Rule Out 166; Occurrence of Pain 166; People at Risk 166; Treatment Strategies 167; Management of Hypersensitivity 167

25. Definitions and Questionnaire for Periodontia Viva Voce 173
Gingiva 173; The Tooth-supporting Structure 178; Epidemiology of Periodontal Disease and Gingival Disease 180; Periodontal Microbiology 180; Dental Calculus 181; Role of Iatrogenic and Other Local Factors 181; Dental Occlusion 181; Influence of Systemic Diseases on Periodontium 184; Clinical Features of Gingivitis 184; Gingival Enlargement 185; Acute Gingival Infections 185; Desquamative Gingivitis and Oral Mucous Membrane Diseases 186; Periodontal Pocket 186; Bone Loss and Pattern of Bone Loss 187; Periodontal Response to External Forces 188; Prepubertal and Juvenile Periodontitis 188; Other 188; Rationale for Periodontal Treatment 189; Principle of Periodontal Instrumentation 189; Plaque Control 190; Questionnaire for Periodontia Viva Voce 191; Scaling and Root Planing 208; History 209; Few Points about Intraoral Examination 209

26. Ameloblastoma 226
Tumors 226; Odontogenic Tumors 226; Classification 226; Ameloblastoma 227; History 227; Definition 227; Etiology 227; Classification 228; Pathogenesis 228; Incidence 228; Age 228; Sex 229; Site 229; Size 229; Race 229; Preceding Factors 229; Onset 229; Clinical Features 229; Spread 230; Radiographic Features 230; Diagnostic Aids 231; Histological Features 231; Management 233; Specific Principles 233

27. Properties of X-rays 234
Radiation 234; X-radiation 234; Properties of X-rays 234

28. Considerations for Oral Medicine Viva Voce 238
Types of Geographic Tongue 245; Syndromes with Characteristic Features 256

29. Orbital Blow Out Fracture 265
Definition 265; Etiology 265; Types 265; Sites 265; Clinical Signs 267; Diagnosis 267; Management 268

30. Considerations for Oral Surgery Viva Voce 273
Leukoplakia (WHO—1975) 273; Oral Submucous Fibrosis (OSMF) 273; Sialosis 273; Sialadenitis and Sialodochitis 273; Sialadenosis 273; Xerostomia 273; Sialolithiasis 273; Sialectasis 273; Sialorrhea/Ptylism 273; Trigeminal Neuralgia 274; Pain 274; Local Anesthesia 274; Ludwig's Angina 274; Bell's Palsy 274; Osteomyelitis 274; Cyst 274; Marsupialization 274; Neuralgia 275; Tumors/Neoplasm 275; Some Considerations for Viva Voce 275; Some Commonly Used Compositions 278; Classifications 278; Tooth Impaction 284

31. Morphological Differences between Primary and Permanent Teeth 286

32. Definitions in Pedodontia 293
Pedodontics 293; Psychology 293; Child Psychology 293; Child Management 293; Emotion 293; Behavior 293; Fear 293; Anxiety 293; Phobia 294; Behavioral Science 294; Behavior Management 294; Behavior Shaping 294; Behavior

Modification 294; Nursing Caries 294; Rampant Caries 294; Plunger Cusp 294; Pit and Fissure Sealants 294; Indirect Pulp Capping 294; Direct Pulp Capping 295; Pulpotomy 295; Pulpectomy 295; Apexogenesis 295; Apexification 295; Preventive Orthodontics 295; Interceptive Orthodontics 295; Space Control 295; Space Maintenance 295; Space Maintainer 295; Habit 296; Thumb Sucking 296; Tongue Thrusting 296; Mouth Breathing 296; Bruxism 296; Self-injurious Habit 296; Handicapped Person 296; Mental Retardation 296; Cerebral Palsy 296
