Contents

A. Heart Functions in Health and Disease ***1***

Dyspnea **2;** Syncope **5;** Some Cardiac Clues from Physical Appearance **10;** Arterial Pulse **13;** Blood Pressure **16;** Jugular Venous Pulse **20;** Cardiac Impulse **25;** Heart Sounds **29;** Heart Murmurs **39;** Aortic Stenosis **46;** Aortic Regurgitation **47;** Tricuspid Regurgitation **48;** Heart Failure **49;** Clinical Approach to the Diagnosis of Heart Disease **50**

B. Hypertension ***54***

β-Blockers **88;** Calcium Channel Blockers **90;** Angiotensin-Converting Enzyme Inhibitors **92;** Essential Hypertension **96;** Hypertension and Diabetes **97;** Insulin Resistanace Hypertension **100;** Hypertension in the Old Age **101;** Systolic Hypertension **103;** Postural Hypotension **103;** Renal Hypertension **104;** Hypertensive Heart Failure **107;** Hypertension and Ischemic Heart Disease **108;** Hypertension and Dyslipidemia **109;** Hypertension and Peripheral Vascular Disease **109;** Hypertensive Crisis **109;** Hypertension in Children **114;** Surgical Management of Hypertension **116;** Refractory Hypertension **118**

C. Heart Failure ***121***

Digitalis **139;** Inotropic Drugs **143;** Diuretics **145;** Vasodilators **147;** Acute Left Ventricular Failure (Pulmonary Edema) **156;** Cardiogenic Shock **158;** Refractory Heart Failure **164**

D. Cardiac Arrhythmias ***170***

Rapid Phase of Depolarization Also Known as Phase 0 **172;** Sinus Arrhythmias **177;** Atrial Arrhythmias **179;** Atrial Premature Contractions (APCs) **179;** Paroxysmal Supraventricular Tachycardias (PSVT) **180;** Atrial Flutter and Fibrillation **183;** Atrial Fibrillation **184;** AV Junctional Rhythm Disturbances **204;** Nonparoxysmal Junctional Tachycardia **205;** Other Supraventricular Arrhythmias **205;** Ventricular Arrhythmias **208;** Premature Ventricular Contractions **208;** Ventricular Tachyarrhythmias **211;** Ventricular Tachycardia **212;** Ventricular Flutter and Fibrillation (VF) **215;** Some Other Arrhythmias **216;** Heart Blocks **224;** Clinical Approach to Bradyarrhythmias **232;** Clinical Approach to Cardiac Tachyarrhythmias **234**

E. Coronary Artery Disease/Ischemic Heart Disease ***246***

Angina **257;** Nitrates **274;** Aspirin **278;** Silent Myocardial Ischemia (SMI) **285;** Dyslipidemias and Coronary Artery Disease **286;** Cytoprotectives **301;** Free Radicals and Vascular Disease **302;** Prevention of Coronary Artery Disease among Indians **303;** Patient's Education **305**

F. Acute Myocardial Infarction ***307***

Complications of Myocardial Infarction **341;** Mobile Coronary Care Unit (MCCU) **359;** Domiciliary Management of Acute Myocardial Infarction by Family Physician **366**

G. Cardiac Arrest *367*

H. Rheumatic Fever/Rheumatic Heart Disease *374*

Chronic Rheumatic Heart Disease **384;** Rheumatic Prophylaxis **386**

I. Valvular Heart Disease *387*

Mitral Stenosis **387;** Mitral Regurgitation (MR) **396;** Mitral Valve Prolapse (MVP) **406;**
Aortic Stenosis **410;** Aortic Regurgitation **418;** Tricuspid Stenosis (TS) **425;** Tricuspid Regurgitation **428;**
Pulmonary Valve Disease **430;** Pulmonary Regurgitation **432;** Valvular Surgery **434;** Anticoagulation **437**

J. Infective Endocarditis *438*

Pyrexia of Unknown Origin (PUO) **443;** Surgical Management of Infective Endocarditis **446**

K. Cardiomyopathies and Myocarditis *448*

Myocarditis **457**

L. Congenital Heart Diseases *460*

Specific Cardiac Defects **467;** Malposition of Cardia **467;** Physical Examination **471;**
Endocardial Fibroelastosis **475;** Cor Triatriatum **476;** Atrial Septal Defect (ASD) **477;**
Single Atrium **481;** Ventricular Septal Defect (VSD) **481;** Single Ventricle **486;**
Patent Ductus Arteriosus (PDA) **486;** Tetralogy of Fallot **492;**
Complete Transposition of the Great Arteries **498;** Corrected Transposition of the Great Arteries **500;**
Transposition of Pulmonary Veins **501;** Double Outlet Right Ventricle **501;** Truncus Arteriosus **501;**
Ebstein's Anomaly **502;** Eisenmenger's Syndrome **503;** Marfan's Syndrome **505;**
Left-to-Right Shunts **506;** Congestive Cardiac Failure **506;** Cyanotic Heart Diseases **513;**
Individual Prevention and Preventive Program **522**

M. Pulmonary Hypertension and Pulmonary Embolism *524*

Pulmonary Embolism **528;** Pulmonary Embolectomy **531**

N. Pericardial Disease *532*

Cardiac Tamponade **535;** Chronic Constrictive Pericarditis **537**

O. Acquired Diseases of the Aorta and its Branches *540*

Aneurysms **540;** Dissection of the Aorta **542;** Arteriosclerotic Occlusive Disease **544;**
Nonspecific Aortitis **546;** Aortic Arch Variety (Takayasu's Disease) **547;**
Descending Thoracic and Abdominal Variety **547;** Giant-Cell Arteritis **549**

P. Roentgenology *551*

Q. Electrocardiography *568*

Basic Electrophysiology of the Heart **569;** Lead Systems **572;** Einthoven's Law **573;**
Unipolar Chest Leads or Precordial Leads **575;** Complexes, Intervals and Segments **578;** P Wave **580;**
Q Wave **582;** R Wave **583;** QRS Complex **583;** PR Interval **585;** ST Segment **585;** T Wave **588;**
QT Interval **590;** U Wave **591;** Recording of a Good ECG Tracing **591;** Voltage **593;** Rate **595;**
Axis **596;** Position of the Heart **600;** Rotation of the Heart **601;** ECG in Hypertrophies **601;**

Right Ventricular Hypertrophy (RVH) **605;** Bundle Branch Block **608**
Accelerated Conduction Around the AV Junction **621;** Rhythm **623;** ECG in Myocardial Infarction **639;**
ECG in Coronary Artery Disease/Ischemic Heart Disease **648;** Exercise Stress Testing **648;**
ECG in Childhood and Congenital Heart Disease **654;** ECG in Specific Congenital Cardiac Defects **656;**
ECG in Miscellaneous Conditions **662;** ECG in Electrolyte Imbalance **668;** Hypokalemia **669;**
Hypercalcemia **670;** Hypocalcemia **671;** Magnesium **671;** Digitalis **672;** Quinidine **673;**
Phenothiazine and Related Drugs **674;** Interpretation of the ECG **674;** ECG Report **676**

R. Echocardiography ***679***

Normal Echocardiogram **686;** Disorders of the Mitral Valve **688;** Mitral Stenosis (MS) **688;**
Mitral Regurgitation (MR) **690;** Mitral Valve Prolapse (MVP) **690;** Aortic Stenosis **691;**
Aortic Regurgitation (AR) **692;** Tricuspid Stenosis (TS) **693;** Tricuspid Regurgitation (TR) **693;**
Congenital Heart Disease **693;** Echocardiography in Left to Right Shunts **694;**
Atrial Septal Defect (ASD) **695;** Ventricular Septal Defect (VSD) **695;** Patent Ductus Arteriosus (PDA) **696;**
Total Anomalous Pulmonary Venous Connection **696;** Fetal Echocardiography **696;**
Ischemic Heart Disease **697;** Cardiomyopathies **702;** Restrictive Cardiomyopathy (RCM) **703;**
Pericardial Disease **704;** Cardiac Tamponade **705;** Constrictive Pericarditis **705;**
Cardiac Tumors and Thrombi Atrial Tumors **705;** Diseases of the Aorta **705;** Aortic Dissection **706**

S. Cardiac Catheterization and Coronary Angiography ***707***

Coronary Angiography **708**

T. Interventions in Cardiovascular Diseases ***710***

Interventions for Coronary Artery Disease **710;** Coronary Atherectomy **712;**
Aortic Balloon Valvuloplasty (ABV) **714;** Pulmonary Balloon Valvuloplasty (PBV) **714;**
Balloon Angioplasty of Pulmonary Artery Stenosis **715;** Balloon Angioplasty of Coarctation of Aorta **715**

U. Role of Surgery in Cardiology ***716***

Coronary Artery Bypass Surgery (CABG) **716;** Valvular Surgery **722;** Surgery for Cardiac Arrhythmias **723;**
Dynamic Cardiomyoplasty **723;** Cardiac Transplantation **724;** Cardiopulmonary Transplantation **724;**
Recommendations of Activities **727**

V. Pregnancy and Cardiovascular Disease ***728***

Recognition and Management of Cardiac Emergencies in Pregnancy **735;** Congestive Cardiac Failure **735;**
Acute Pulmonary Edema **736;** Arrhythmias **737;** Thromboembolism **737;** Infective Endocarditis **738;**
Sudden Death **738;** Aortic Dissection **739;** Coronary Artery Disease **739;**
The Hypertensive Disorders of Pregnancy **741**

W. Miscellaneous Subjects Related to Cardiology ***752***

Cardiovascular Manifestations of Systemic Diseases **752;** Diabetes and Heart **752;** Cor Pulmonale **755;**
Thiamine Deficiency (Beriberi) **756;** Obesity **756;** Thyroid Disease **756;** Hyperthyroidism **756;**
Hypothyroidism **757;** Magnesium and Coronary Artery Disease **757;**
Magnesium and Acute Myocardial Infarction (AMI) **758;** HIV/AIDS **758;** Primary Tumors of the Heart **759;**
Computer Imaging/Tomography **761;** Nuclear Cardiology **762;** Telemedicine **763;**
Science, Medicine and the Future **764;** Heart Diseases—What Ayurveda Says! **765;** 'Heart-to-Heart' **765**

Index *769*
