Contents

Section 1: Basics

1. **Vitreous and Vitreoretinal Interface** 3
   Cyrus Shroff, Daraius Shroff
   - *Development 3*
   - *Anatomy 4*
   - *Biochemistry 6*
   - *Posterior Vitreous Detachment 7*
   - *Vitreoschisis 7*
   - *Anomalous Posterior Vitreous Detachment 9*
   - *Complications from Changes in the Vitreous 9*
   - *Pharmacologic Vitreolysis 11*

2. **Role of OCT in Decision Making for Vitreoretinal Surgery** 13
   Jay Kumar Chhablani, Jae Suk Kim, Igor Kozak, Abhishek R Kothari
   - *Full Thickness Macular Holes 13*
   - *Myopic Macular Pathology 16*
   - *Lamellar Macular Hole 16*
   - *Epiretinal Membrane 17*
   - *Macular Pseudoholes 17*
   - *Vitreomacular Traction Syndrome 17*
   - *Tractional Retinal Detachment 18*
   - *Unexplained Visual Disturbances 18*

3. **Preoperative Considerations** 21
   Tandava Krishna, Jay Kumar Chhablani, Abhishek R Kothari
   - *Goal of Surgery and Role of Preoperative Workup 21*
   - *General Considerations 21*
   - *Safety First-systemic Evaluation of the Vitreoretinal Patient 21*
   - *Local Examination 22*
   - *Instructions to Patients and Ward Staff 24*
   - *Immediate Postoperative Management 24*

4. **Anesthesia for Vitreoretinal Surgery** 26
   Jaichandran V, Jagadeesh V, Chandra M Kumar
   - *Choice of Anesthetic Technique 26*
   - *Preoperative Assessment and Preparation 27*
   - *Orbital Regional Anesthesia 29*
   - *General Anesthesia 31*
   - *Postoperative Care 32*

5. **Vitreoretinal Surgical Suite** 34
   Rohit Patil, Abhishek R Kothari, Rashmin Gandhi
   - *Basic Design Considerations 34*
   - *Basic Operational Considerations 36*

6. **Tools of the Trade** 41
   Amit Gupta, Abhishek R Kothari
   - *Surgical Drapes 41*
   - *General Extraocular Instruments 42*
   - *Vitrectomy-related Instruments 43*

7. **Vitreoretinal Surgery Systems** 53
Steve Charles
- *History 53*
- *The Ocular Connection Machine and the Accurus Vitreoretinal Surgery System 53*
- *The Constellation Vision System 54*

8. **Understanding Fluidics and Machine Parameters—Optimizing Performance** 57
Manish Nagpal, Pravin Jain
- *History 57*
- *Fluid Dynamics of Vitrectomy 57*
- *Fragmentation 65*
- *Extrusion 66*
- *Reflux 66*
- *Viscous Fluid Injection and Extraction 66*

9. **Irrigating Fluids for Vitrectomy** 67
Abhishek R Kothari
- *Tissue Concerns from Intraocular Fluids During Vitrectomy 67*
- *Components of Infusion Fluids 68*
- *Commercial Irrigating Fluids 69*

10. **Viewing Systems for Vitrectomy** 71
Ravi K Murthy, KV Chalam
- *Conventional Viewing Systems 71*
- *Wide Angle Viewing Systems 73*
- *Recent Advances 76*

11. **Intraoperative Adjuncts** 78
Saravanan VR

Dyes 78 78
- *Early Developments 78*
- *Indocyanine Green 78*
- *Infracyanine Green 79*
- *Trypan Blue 79*
- *Brilliant Blue G 80*
- *Triamcinolone Acetonide (TA) 80*
- *Patent Blue 81*

Perfluorocarbon Liquids 83 83
- *Physical Properties and their Implications for Surgical Use 83*
- *Use in Vitreoretinal Surgery 84*

Section 2: Vitreous Surgery: Basics

12. **20-Gauge Vitrectomy** 91
George J Manayath, Saurabh Arora, Abhishek R Kothari
- *Equipment for Pars Plana Vitrectomy 91*
- *Basic Vitrectomy Technique 92*
- *Complications 97*

13. **23-Gauge Vitrectomy** 99
Abhishek R Kothari
- *Indications 99*
- *Wound Construction Techniques and Microcannula Placement 100*
- *Instrumentation 101*
- *Differences Between 23-Gauge and 20-Gauge/25-Gauge 102*
- *Surgery 102*
- *Microcannula Removal and Wound Closure 103*
- *Complications of 23-Gauge Vitrectomy 104*

14. 25-Gauge Sutureless Transconjunctival Vitrectomy 106
Steve Charles
- *Case Selection 106*
- *Trocar Cannula System and Incisions 106*
- *Fluidics 107*
- *Tool Issues 108*
- *Wound Leak Issues 108*
- *Postoperative Endophthalmitis and Retinal Detachments 109*
- *Cannula Withdrawal and Wound Closure 109*

15. Interfacial Tension Agents, Exchanges and Subretinal Fluid Drainage 110
Steve Charles
- *Surface Tension Management and Exchanges 110*
- *Physical Consideration 110*
- *Interfacial Tension Agents 111*
- *Nomenclature 111*
- *Drainage of Subretinal Fluid 111*
- *Intraocular Lens (IOLs) Fogging During Fluid-Air Exchange 113*
- *Air-Gas Exchange 113*
- *Liquid Perfluorocarbon 113*
- *Air-Silicone Exchange 114*
- *Silicone Oil Removal 115*
- *Silicone Reoperations 115*

16. Hemostasis during Vitreoretinal Surgery 116
Jatinder Singh
- *Basics 116*
- *Preoperative Considerations 117*
- *Intraoperative Factors 120*
- *Intraoperative Hemostasis 120*
- *Postoperative Vitreous Hemorrhage (Vitreous Cavity Hemorrhage) 125*
- *Suprachoroidal Hemorrhage 127*

17. Endolaser 131
Jaishree Arunaprakash, Upendra Babu M, Abhishek R Kothari
- *Laser Tissue Interactions 131*
- *Laser in Surgery 131*
- *Endolaser Probes 131*
- *Laser Filters 132*
- *Intraoperative Use 132*
- *Indications 134*
- *Complications 134*

18. Intraocular Gases 136
Sarath Ravi
- *Historical Background 136*
- *Physicochemical Properties of Gases 136*
- *Kinetics of Intraocular Gases 137*
- *Clinical Use 138*
- *Postoperative Positioning and Care 141*
- *Complications 142*

19. Long-term Intraocular Tamponade with Silicone Oil 145
Wico W Lai, Widad Yusof, Amy Lo, Ian Y Wong, David Wong
- *Properties of Silicone Oil 145*
- *Clinical Indications 148*
- *Surgical Techniques in the Use of Silicone Oil 150*
- *Complications of Silicone Oil 154*
- *Future Developments 157*

20. Vitreous Surgery—Complications and their Management 163
William E Smiddy
- *Intraoperative Complications 163*
- *Postoperative Complications 164*

Section 3: Special Considerations

21. Anterior Segment Concerns in Vitreoretinal Surgery 169
Jay Kumar Chhablani, Abhishek R Kothari
- *Corneal Issues 169*
- *Pupil Management 170*
- *Managing the Lens 171*

22. Temporary Keratoprosthesis: Retinal Surgery in the Presence of an Opaque Cornea 172
Maurice B Landers, Jessica S Watson, Thanh-Thu T Tran
- *The Temporary Keratoprosthesis 172*
- *Surgical Technique 173*
- *Outcomes 174*
- *Specialized Temporary Keratoprostheses 174*
- *New Developments 175*

23. Vitreoretinal Surgery in Eyes with Permanent Keratoprosthesis 177
Pukhraj Rishi, Harshali Yadav
- *Commonly Used Permanent Keratoprosthesis 177*
- *Vitreoretinal Complications Associated with KPro 179*
- *Challenges in Vitreoretinal Surgery in Eyes with Keratoprosthesis 180*

24. Vitreoretinal Surgical Diseases and Refractive Surgery 184
J Fernando Arévalo
- *Retinal Detachment 184*
- *Macular Hemorrhage, Lacquer Cracks and Choroidal Neovascular Membranes 186*
- *Macular Hole 187*
- *Displacement of Corneal Cap during Vitrectomy 187*
- *Final Considerations 188*

Section 4: Retinal Detachment: Basics
(Section Editor: Ingrid Kreissig)

25. Peripheral Retinal Lesions, Breaks and their Treatment 193
Kasinathan Nachiappan
- *History 193*
- *Basics 193*
- *Pathophysiology of Retinal Detachment 194*
- *Predisposing Lesions 195*
- *Benign Peripheral Lesions 197*
- *Symptoms and Signs: Associated with Peripheral Retinal Pathology 198*
- *Examination Techniques 198*
- *Management 199*

26. The 8 Rules: How to Find the Retinal Break 202
Ingrid Kreissig
- *Preoperative Search for the Break in a Retinal Detachment 202*
- *Preoperative Search for a Missed Break in Reoperation 208*
- *Differential Diagnosis Between Rhegmatogenous Detachment and Retinoschisis 210*
- *Rhegmatogenous Retinal Detachment "without" a Break 210*
- *The Search for a Retinal Break in an Acute Vitreous Hemorrhage 211*

27. Primary Retinal Detachment: Review of Techniques for Repair Applied Over the Past 80 Years—A Personal Odyssey 216
Ingrid Kreissig, Harvey Lincoff
- *Review 216*
- *Evolution of Surgical Technique 222*
- *Discussion 227*

28. Pneumatic Retinopexy: The Evolution of Case Selection and Procedure 230
Paul E Tornambe
- *The Philosophy of Pneumatic Retinopexy 230*
- *The Procedure 231*
- *Clinical Results 232*

29. Scleral Buckling 242
PN Nagpal

Principles, Technique and Outcomes 242
- *Buckling Principles 242*
- *Reattachment Forces Influenced by Scleral Buckles 242*
- *Preoperative Management 243*
- *Preparation of the Site 245*
- *Pupillary Dilatation and Corneal Clarity 245*
- *Exposure of the Operative Field 245*
- *Localization and Intraoperative Examination 246*
- *Treating the Breaks 247*
- *Methods of Buckling 248*
- *Subretinal Fluid Drainage 253*
- *Adjustment of the Scleral Buckle 256*
- *Assuring Perfusion of Central Retinal Artery 256*
- *Nondrainage Procedure 256*
- *Closure of Incisions 257*
- *Postoperative Management 257*
- *Outcomes 257*
- *Scleral Buckling versus Primary Vitrectomy 259*

Complications of Scleral Buckling 262
- *Intraoperative Complications 262*
- *Postoperative Complications 265*

30. Minimal Extraocular Surgery with Sponge(s) and Balloon for Repair of Rhegmatogenous Retinal Detachment 281
Ingrid Kreissig
- *Historical Background of Minimal Extraocular Surgery [Segmental Sponge Buckle(s) without Drainage] 281*
- *Difficulties in Acceptance of the Cryosurgical Detachment Operation 282*
- *Minimal Extraocular Surgery with Segmental Sponge Buckle(s) without Drainage 283*
- *Minimal Extraocular Surgery with a Temporary Balloon Buckle without Drainage 289*
- *Clinical Results of Minimal Extraocular Surgery with Sponge Buckle(s) or Balloon 291*

31. Primary Vitrectomy for Rhegmatogenous Retinal Detachment 312
J Garcia-Arumi, A Boixadera, V Martinez Castillo, MA Zapata
- *Indications 312*
- *Techniques 312*
- *Complications Unique to this Surgical Technique 316*

32. Repair of Primary Retinal Detachment: Comparison of Present Surgical Techniques 320
Ingrid Kreissig
- *Comparison of Present Surgical Techniques for Repair of a Primary Rhegmatogenous Retinal Detachment 320*

Section 5: Retinal Detachment: Advanced
(Section Editor: Saravanan VR))

33. **Proliferative Vitreoretinopathy** 329
Joseph Tseng, Gaetano Barille, William M Schiff
- *Epidemiology and Risk Factors* 329
- *Pathophysiology* 330
- *Classification* 330
- *Diagnosis* 331
- *Management* 331
- *Prevention* 336

34. **Retinal Detachment Secondary to Giant Retinal Tear** 341
Jay Kumar Chhablani
- *Cause* 341
- *Vitreoretinal Relationship* 341
- *Management* 341
- *Results* 344
- *Complications* 344
- *Management of the Fellow Eye* 345

35. **Management of Rhegmatogenous Retinal Detachment with Inferior Breaks** 346
Vicente Martínez-Castillo, A Boixadera, A Céspedes, J García-Arumí
- *Historical Perspective* 346
- *Relevant Pathophysiology* 346
- *Brief Clinical Features* 346
- *Brief Summary of Surgical Options with Vitrectomy Techniques* 347
- *Patient Preparation* 348
- *Surgical Technique* 349
- *Postoperative Follow-up* 350
- *Complications* 350

36. **Retinal Detachment due to Macular Hole** 356
Jay Kumar Chhablani, Abhishek R Kothari
- *Etiopathogenesis* 356
- *Preoperative Evaluation* 356
- *Vitreous Surgery Technique* 356
- *Prognosis* 357
- *Macular Buckling* 358
- *Primary Rhegmatogenous Retinal Detachment with Associated Macular Hole* 358

37. **Surgery for Recurrent Retinal Detachment** 360
Saravanan VR
- *Assessment: The First Step* 360
- *Resurgery Considerations* 360
- *Timing of Resurgery* 360
- *Techniques* 361
- *Choice of Tamponade* 363
- *Postoperative Use of Steroids* 363

Section 6: Diabetic Retinopathy Complications
(Section Editor: Steve Charles)

38. **Vitreous Surgery in Diabetic Retinopathy** 367
Lalit Verma
- *Indications* 367
- *Representative Clinical Situations* 368

- *Surgical Steps 371*
- *Complications 376*

39. Recurrent Diabetic Vitreous Hemorrhage: Risk Factors and Management 379
- *Po-Ting Yeh, Chang-Hao Yang, Chung-May Yang*
- *Recurrent Vitreous Hemorrhage in a Nonvitrectomized Eye 379*
- *Recurrent Vitreous Hemorrhage in a Vitrectomized Eye 381*

40. Epiretinal Membrane Management in Proliferative Diabetic Retinopathy 395
Steve Charles
- *Pathoanatomy and Principles 395*
- *Surgical Technique 395*

41. Bimanual Surgery for Diabetic Retinopathy and Vascular Disorders 399
Cyrus Shroff, Charu Gupta, Daraius Shroff
- *Pathogenesis 399*
- *Pathoanatomy 399*
- *Bimanual Surgery Considerations 401*
- *Surgery 404*
- *Complications 409*

42. Vitrectomy for Diabetic Macular Edema 413
Arnd Gandorfer
- *Pathophysiology 413*
- *Surgical Indications based on Ultrastructural Findings 414*
- *Surgical Techniques 415*
- *Complications 416*
- *Results of Vitrectomy in Diabetic Macular Edema 416*
- *New Developments 418*
- *Pearls 418*

Section 7: Macular Disorders

43. Epiretinal Membranes 423
Harshali Yadav
- *Epidemiology 423*
- *Pathophysiology 423*
- *Classification 423*
- *Risk Factors and Etiology 423*
- *Diagnosis 424*
- *Surgery 426*
- *Complications 427*

44. Macular Holes 429
William E Smiddy
- *Historical Perspective 429*
- *Pathophysiology 429*
- *Clinical Features 430*
- *Management 430*
- *Results 432*
- *New Developments 432*

45. Premacular Hemorrhage 438
Arindam Chakravarti, Priyank Garg, Nazimul Hussain, S Natarajan
- *Anatomy and Pathophysiology 438*
- *Clinical Features 439*
- *Management 439*

46. Submacular Hemorrhage 443
Ekta Rishi, Pukhraj Rishi, Sabyasachi Sengupta
- *Etiology 444*
- *Clinical Features 444*
- *Natural History 444*
- *Prognostic Factors 446*
- *Management of Submacular Hemorrhage 447*
- *Summary and Recommendations 450*

Section 8: Lens and IOL-related Disorders

47. Lensectomy 455
Upendra Babu M, Abhishek R Kothari
- *Indications 455*
- *Preoperative Evaluation 455*
- *Surgical Technique 455*

48. Management of Retained Lens Material 458
William E Smiddy
- *Pathophysiology and Risk Factors 458*
- *Clinical Features 458*
- *Indication and Timing of Surgical Intervention 459*
- *Vitreoretinal Surgical Technique 459*
- *Postoperative Management and Complications 460*
- *Results of Vitrectomy Management 461*

49. Management of Dislocated Intraocular Implants 463
Dhanashree Ratra
- *Factors Associated with IOL Dislocation 463*
- *Management 463*
- *Techniques 464*
- *Complications of Scleral Fixation 468*
- *Sutureless Fixation of the Dislocated Implant 468*

50. Surgical Management of Aphakia 471
Pramod Bhende, Swapnesh Sawant
- *Optics of Aphakia 471*
- *Options for Aphakic Correction 471*
- *Case Selection for Secondary IOL Implant 473*
- *Preoperative Evaluation 473*
- *Surgical Techniques 473*
- *Postoperative Management 479*

51. Management of Postoperative Endophthalmitis 481
Stephen G Schwartz, Harry W Flynn, Roy D Brod
- *Pathophysiology and Classification 481*
- *Clinical Features 482*
- *Incidence Rates and Risk Factors 483*
- *Surgical Principles 484*

Section 9: Trauma and Complications

52. Anterior Segment Management in Eyes with Trauma 493
Abhishek R Kothari
- *Conjunctival Laceration 493*
- *Corneal and Scleral Lacerations 493*
- *Iris Reconstruction 496*
- *Pupil Repair 498*

53. Traumatic Vitreous Hemorrhage 500
Manisha Agarwal
- *Brief Historical Perspective 500*
- *Anatomy 500*
- *Etiopathogenesis 500*
- *Clinical Features 502*
- *Imaging Studies 502*
- *Medical Therapy 503*
- *Surgical Management 503*
- *Prognosis 504*

54. Intraocular Foreign Body 506
Raj Vardhan Azad
- *Epidemiology 506*
- *Evaluation 506*
- *Mechanisms of Injury 507*
- *Management 509*
- *Prognosis and Outcome 511*

55. Post-traumatic Endophthalmitis 513
Naveen Kumar Naik, Abhishek R Kothari
- *Epidemiology 513*
- *Risk Factors for Post-traumatic Endophthalmitis 513*
- *Clinical Diagnosis 514*
- *Factors Affecting Visual Prognosis 514*
- *Management 515*
- *Complications 517*
- *Outcomes 517*

Section 10: Pediatric Retinal Surgery
(Section Editor: Parag K Shah)

56. Principles of Pediatric Retinal Detachment Surgery 521
Subhadra Jalali, Padmaja Kumari Rani, Jay Kumar Chhablani
- *Challenges Unique to Pediatric Retinal Detachment 521*
- *Developmental Considerations 521*
- *Clinical Presentation 522*
- *Surgical Approach 522*
- *Specific Clinical Situations 523*
- *Specific Concerns in Pediatric Vitreoretinal Surgery 525*
- *Decision-making for Prophylactic Treatment in Pediatric Retinal Disorders 526*
- *Postoperative Management 526*

57. Surgical Management of Stages 4 and 5 Retinopathy of Prematurity 527
Parag K Shah, Naveen Kumar Naik, Narendran V
- *Options for Treatment 527*

58. Surgery for Choroidal Coloboma and Retinal Detachment 531
Lingam Gopal
- *Anatomical Considerations 531*
- *Clinical Presentation of Retinal Detachment 531*
- *Management 532*

Section 11: Posterior Segment Tumors

59. Intraocular Biopsy Techniques 537
Mahesh P Shanmugam
- *Prerequisites 537*
- *Biopsy Techniques 538*

60. Resection of Intraocular Tumors 546
Mahesh P Shanmugam
- *Indications for Resection 546*
- *Surgical Technique 547*

61. Ophthalmic Brachytherapy 555
Parag K Shah, V Narendran, U Selvaraj, P Guhan, Sanjay K Saxena, Ashutosh Dash, Melvin Astrahan
- *Brachytherapy Steps 555*
- *Ophthalmic Brachytherapy 555*
- *Our Surgical Results 557*
- *Complications 558*

62. Enucleation Technique, Orbital Implants and Complications 559
Hakan Demirci, David H Abramson
- *Procedure Rates and Indications 559*
- *Surgical Techniques 560*
- *Complications 561*
- *Orbital Implant Selection 565*

Section 12: Vitreoretinal Intervention in Uveitic Disorders

63. Management of Viral Retinitis 571
Igor Kozak
- *Cytomegalovirus Retinitis 571*
- *Acute Retinal Necrosis Syndrome 576*
- *Herpes Simplex Virus Retinitis 578*
- *Surgical Approach to Retinitis 579*

64. Vitrectomy in Non-infective Uveitis 585
Pradeep Venkatesh
- *Indications 585*
- *Role of Vitreous Surgery in Uveitis 586*
- *Considerations in Uveitic Vitrectomy 587*
- *Outcomes 590*

Section 13: Intravitreal Injections and Lasers

65. Intravitreal Injections: Procedure and Protocol 593
Daraius Shroff, Neelam Atri, Abhishek R Kothari
- *Guidelines 593*
- *Complications of Intravitreal Injection Procedure 594*
- *Special Considerations 595*

66. Intraocular Anti-vascular Endothelial Growth Factor Therapy 597
Naresh Mandava, Carolyn Pan
- *Background and Introduction 597*
- *VEGF Inhibitors 597*
- *Landmark Clinical Trials 598*
- *Non-age-related Macular Degeneration (AMD) and Future Applications of Anti-VEGF Agents 599*
- *Procedure 600*

67. Intravitreal Corticosteroids 603
Jatinder Singh
- *Mechanism of Action 603*
- *Triamcinolone Acetonide 604*
- *Dexamethasone 610*
- *Sustained Release Drug Delivery 611*

68. Lasers in Choroidal Neovascular Membranes 621
Vivek Dave, Jay Kumar Chhablani, Chinmaya Sahu, R Narayanan
- *Thermal Laser 621*
- *Transpupillary Thermotherapy 623*
- *Photodynamic Thermotherapy 624*

Section 14: Vitreoretinal Surgery and Glaucoma

69. Management of Postvitrectomy Glaucoma 631
Jatinder Singh
- *Mechanism of Glaucoma 631*
- *Surgical Procedures for Postvitrectomy Glaucoma 636*

70. Choroidal Detachment 645
Madhusudan Davda, Rajul Parikh
- *Causes of Choroidal Detachment 645*
- *Diagnosis and Assessment of a Typical Case of Serous Choroidal Drainage 645*
- *Management of Serous Choroidal Detachments 646*
- *Complications 648*

71. Suprachoroidal Hemorrhage 650
Raj Vardhan Azad
- *Pathophysiology 650*
- *Incidence 650*
- *Predisposing Factors 650*
- *Prophylaxis 650*
- *Recognition (Intraoperative Diagnosis) 650*
- *Emergency Management (Intraoperative Management) 652*
- *Postoperative Management 652*
- *Surgical Management 652*
- *Postoperative Management 653*
- *Prognosis 653*

72. Malignant Glaucoma 656
Naveen Kumar Naik
- *Eyes at Risk 656*
- *Pathophysiology 656*
- *Management Principles 656*

73. Neovascular Glaucoma: Vitreoretinal Perspective 659
Saket Arya, Abhishek R Kothari
- *Etiology 659*
- *Pathogenesis 659*
- *Presentation 660*
- *Treatment 660*

Section 15: Emerging Techniques

74. Surgery for Age-related Macular Degeneration 667
Errol W Chan, Kah-Guan Au Eong
- *Historical Background 667*
- *Pneumatic Displacement of Submacular Hemorrhage 668*
- *Surgical Evacuation of Subretinal Hemorrhage 668*
- *Submacular Surgery 669*
- *Macular Translocation 671*
- *RPE Transplantation and Macular Reconstruction 676*
- *Epiretinal Brachytherapy 680*
- *Retinal Prosthesis 681*

75. **Surgery for Retinal Vein Occlusions** 686
Manish Nagpal
- *Anatomical Considerations 686*
- *Causes of Visual Loss in Patients with Vein Occlusion 686*
- *Use of Intravitreal Steroids and Anti-VEGFs 686*
- *Surgery in Retinal Vein Occlusions 687*

76. **Endoscopic Vitreoretinal Surgery** 692
Priyank Garg, Arindam Chakravrati, Nazimul Hussain, S Natarajan
- *Applications 692*
- *Instrumentation 692*
- *Surgical Technique 693*

77. **Enzymatic Vitreolysis** 696
Melissa Neuwelt, Michael T Trese
- *Background 696*
- *Vitreous Anatomy and Molecular Structure 696*
- *Plasmin-induced Vitreolysis 697*
- *Future Directions 697*

Section 16: Learning and Teaching

78. **Vitreoretinal Surgical Training—Role of the Eyesi Simulator** 701
Abhishek R Kothari, Narendran V, Saurabh Arora
- *Learning Theory 701*
- *Virtual Reality Simulators 702*
- *Results 705*

79. **Recording Surgical Videos, Film Making and Dissemination of Skills** 708
Vatsal Parikh, Samar Basak, Suresh K Pandey, Abhishek R Kothari

"I Can See Clearly But cannot Record as Well"—Understanding the Basics of Recording Surgical Videos 708
- *The Equipment 708*
- *Basics of Recording 709*

Telling Your Story—Film Making 711
- *Personal Preparedness 711*
- *Production Process 711*

Index 715
