Contents

1. **Human Cardiovascular System Development and Cardiac Morphogenesis.....1**
   Emre Zafer
   - Partitioning: Atrioventricular Canal and Atria *1*
   - Ventricular Partitioning *2*
   - Sinus Venosus *3*
   - Development of Outflow Tract *3*
   - Development of Cardiac Valves *4*
   - Development of Cardiac Conduction System *4*
   - Development of Outflow Tract *3*
   - Development of Fetal Vascular System *5*
   - Cardiac Morphogenesis *6*

2. **Epidemiology of Congenital Heart Disease: Incidence, Etiology and Pathogenesis.....9**
   Olus Api
   - Etiology and Pathogenesis *10*
   - Other Risk Factors *11*

3. **What is Different in Fetal Heart Examination and Echocardiography?.....18**
   Olus Api
   - The Technique of Fetal Heart Examination *19*
   - The Technique of Fetal Echocardiography *21*

4. **Fetal Heart Examination.....26**
   Cihat Şen, Murat Yayla
   - Incidence of Congenital Heart Disease *27*
   - Risk Factors for Congenital Heart Disease *28*
   - Fetal Laterality *39*
   - Four-Chamber View *42*
   - Three-Vessel and Trachea (3VT) View *44*

5. **Fetal Cardiac Anomalies.....53**
   Cihat Şen, Orhan Uzun, Gökhan Göynümer
   Fetal Cardiac Anomalies *56*

6. Doppler Ultrasound and its Use in Obstetrics.....124
Talat Umut Kutlu Dilek
- Uteroplacental Compartment *126*
- Fetoplacental Compartment *130*
- Major Applications of Doppler US in the Obstetric Practice *147*

7. Fetal Cardiac Function in Normal and Growth-Restricted Fetuses 156
Halil Gursoy Pala
- The Physiology of Fetal Heart and Cardiovascular System *156*
- Changes in the Shape of the Heart and the Cardiac Function *157*
- Assessment of the Fetal Heart Function *158*
- The Pathophysiology of Fetal Heart and Cardiovascular System in Growth-Restricted Fetuses *159*
- Identifying FGR *160*
- Cardiovascular Adaptations in FGR *160*
- Vascular Remodeling in FGR *161*
- Cardiac Remodeling in FGR *161*

8. Circulation in the Normal Fetus and Cardiovascular Adaption 167
Talat Umut Kutlu Dilek
- Blood Flow from the Placenta to the Fetus *167*
- The Heart and Beyond *170*
- Aortic Isthmus *172*
- Pulmonary Circulation *173*
- Functional Difference from the Postnatal Life *173*
- Cardiovascular Adaptations to Birth *174*

9. Twin–Twin Transfusion Syndrome: Impact on the Cardiovascular System 178
Halil Gursoy Pala
- Pathophysiology of Twin-Twin Transfusion Syndrome (TTTS) *178*
- Cardiovascular Changes in TTTS *180*
- Diagnosis and Stages of TTTS *182*
- Cardiovascular Score in TTTS *182*
- Screening and Prediction for TTTS *184*

- Differential Diagnosis *184*
- Treatment and Implication on the Cardiovascular System in TTTS *185*
- Long-term Cardiovascular Effects of TTTS *186*

10. The New 3D/4D-based Spatio-Temporal Imaging Correlation in Fetal Echocardiography: A Promising Tool for the Future 191
Badreldeen Ahmed

- Antenatal Diagnosis of Congenital Heart Disease *191*
- Spatio-Temporal Imaging Correlation *192*
- Acquisition of 3D Volume *192*
- Fetal Cardiac Volume Analysis *193*

11. HDliveFlow for Fetal Heart 201
Toshiyuki Hata

- Normal Fetal Heart *201*
- Congenital Heart Disease *210*

12. Cardiomyopathy in the Fetus 218
Ebru Tarım

- Dilated Cardiomyopathies *219*
- Hypertrophic Cardiomyopathies *220*

13. Diagnosis and Management of Fetal Arrhythmias.....223
Orhan Uzun, Gökhan Göynümer, Cihat Şen

- Fetal Heart Rate Ranges *223*
- How Frequent and Clinical Types? *223*
- The Timing and Mode of Presentation of Fetal Arrhythmia *224*
- Atrial Ectopic Beats (Premature Atrial Contractions) *225*
- Ventricular Ectopic Beats (Premature Ventricular Contractions) *228*
- Bradycardia and Heart Block *233*
- Fetal Atrioventricular Block *233*
- Fetal Tachycardia *236*
- Ventricular Tachycardia *243*

14. Congenital Heart Disease and Associated Syndromes 247
Sertaç Esin

- Alagille Syndrome *247*
- Holt–Oram Syndrome *249*

- Charge Association *249*
- Noonan Syndrome *249*
- Vacterl Association *249*
- Williams Syndrome *249*
- 22q11 Deletion Syndrome *250*

15. Congenital Heart Disease and Genetics.....251
Sertaç Esin
- Atrioventricular Septal Defects *253*
- Ventricular Septal Defects *253*
- Conotruncal Anomalies *255*
- Coarctation of the Aorta *255*
- Hypoplastic Left Heart Syndrome *255*
- Heterotaxy *256*

16. Genetic Counseling for Congenital Heart Defects 259
Sertaç Esin
- Nonsyndromic CHD *260*
- Syndromic CHD *263*

17. Postnatal Follow-up after Fetal Echocardiography 267
Milan Stanojevic
- Epidemiology and Public Health Relevance of Congenital Heart Disease *267*
- Significance of Early Diagnosis of Critical CHD *269*
- Success Rate of the Screening for Critical CHD *270*
- Barriers and Obstacles to the Screening of Critical CHD *277*
- Diagnostic Value of the Early/Timely Diagnosis of Critical CHD *282*
- Risk Stratification, Perinatal and Delivery Room Management after Fetal Echocardiography *283*
- Short-term and Long-term Outcome after Diagnosis of Critical CHD *286*

Index..... *307*
