What Exactly is Dandruff?

Rama Murthy DVSB

Foreword
IS Reddy

JAYPEE

Contents

Preface ix
Acknowledgments xi
List of Abbreviations xv

What Exactly is Dandruff?

1. Impetus 3
2. What Dandruff Means to a Patient? 4
3. What Dandruff Meant to me till 14th January 2003? 6
4. What Happened on 14th January 2003 and Thereafter? 8
5. Now, the Question is 12
6. Spongiosis: Found only in Seborrheic Dermatitis but not in Psoriasis!? 15
7. Mycobiome 17
8. Role of Yeasts in Dandruff and Seborrheic Dermatitis 18
9. When does a Commensal Turn Pathogenic? 19
10. How a Genius Succeeds in Putting an End to the Long Drawn Controversy Shrouding Dandruff versus Yeasts? 20
11. The Author's Viewpoint Rather Counterargument 23
12. Author's Final Word 27
13. Color Atlas of Dandruff 29
    - (I) Dandruff in Adults 29
    - (II) Dandruff in Children 44
    - (III) Subclinical Psoriasis Capitis 53
    - (IV) Sebopsoriasis Masquerading as Seborrheic Dermatitis 74
    - (V) Patients Complaining of Dandruff with Scaly Plaques on Scalp 114

South Indian's Foot: A Storehouse of Diagnostic Clues for Psoriasis

1. The "Program" Underlying Epidermis 125

2. Anatomy of Normal Nail and Toenail in Psoriasis 137

3. (I) Color Atlas: Abnormalities Involving the Epidermis 149

(II) Color Atlas: Nail Abnormalities 164

Index 187

Index

Page numbers followed by *b* refer to box, *f* refer to figure, *fc* refer to flowchart, and *t* refer to table.

A

Acne vulgaris 16
Adherens junctions 131
  functions 131
Alpha-catenin 131
American Academy of
    Dermatology 15
Antecubital fossa 52
Antidandruff agents 21
Antifungal's cytostatic effect 24
Arch-like curvature 166
Asbestos sheet's shape 91, 147
  nail 164, 171

B

Basement membrane zone 140
Beard region 109
Beau's lines 143
Beta-catenin 131
Blaschko'slines pattern 149
Blood and nerve supply 140

C

Cadherin-catenin complex 131
Candida
  albicans 134, 145
  species 134, 143
Cave-like curvature 164, 181
Cell
  adhesion proteins, calcium-
      dependent 130
  kinetic studies 127
Cell-cell adhesions 127
Cetirizine 10
Chest, itchy lesions on 108
Child's hair 6
Child's scalp 6
Coalescent papules 78*f*
  scaly 90
Connexions 131
  components of 131
Corneocyte 125
Corona seborrheica 103*f*, 104*f*
Cutaneous sensory nerves 141
Cyclic adenosine
    monophosphate 133
Cystatin 129
Cytoplasmic plaque proteins
    131
Cytostatic drugs 141

D

Dandruff 4-6, 8-12, 19-21, 25,
    27, 59
  ameliorating 20, 24
  experience with 7
  history of 29, 39, 63, 73, 93,
      108, 112, 116
    itching 86
  meant 6
  moderate cases of 10
  moderate-to-severe cases
      of 10
  pathogenesis of 21

nail 30, 34, 41, 53, 109
left 165
Groin psoriasis 11

H

Hailey–Hailey disease 130
Hair 4
keratin genes 127
parting 29, 58
shafts 11, 31
Heel 49, 54
fissures 149
border 149
Hemidesmosomes 132
Hepatitis B infection 17
Hindfeet 102
Hyperkeratosis 10, 49, 134, 149
subclinical 25
Hyperproliferative disorder 3, 27, 128
Hyponychium 137, 140

I

Idiopathic onycholysis 143
Impetus 3
Index finger 180
Inflammatory bowel disease 17
Inflammatory cells 13
Interfollicular papules 100*f*
Intertriginous hyperkeratosis 10
Involucrin 129
Irritable lesions 110*f*
Isthmus 139
Itching 25, 90, 114
history of 53, 67, 69, 76, 92, 98, 114, 115
of occasional 59
Itchy
disease 13
eruption, history of 84
lesions 83, 108
history of 109
patches 7, 9, 88
rash 106
chest 106
history of 97
face 1-6

K

Keratin 129, 141
filaments 125
intermediate 127
pseudogenes 127
Keratinocytes 13, 126
Keratohyalin granules 129
Knees 11
Knockout mouse 126
Koebner phenomenon 23, 25
Koilonychia 146, 147, 164, 167

L

Lamellar granules 128, 133
Langerhans cells 138
Lateral nail
dystrophy 164, 175
fold hyperkeratosis 175
plate dystrophy 147
Levocetirizine 10
Lichenified plaques 115*f*
Lipophilic yeasts 17
Loricrin 129
Lower lip, half of 78
Low-sulfur filamentous proteins 141

M

Malassezia 18, 19
furfur 18
globosa 17-19
restricta 17, 18
species 17
sympodialis 17, 18
Malleoli 162
Matrix protein 125
Melanocytes 138
Melanonychia 164, 168
complete 147
partial 147
Merkel cells 139
Multiple scaly patches 65*f*
Murmurs 9
Mycobiome 17

What Exactly is Dandruff?

Salient Features

- Scaling scalp, a fairly common condition; almost always mistaken to dandruff by patients and laypeople
- While many a dermatologists, across the globe, seem to find it hard/difficult to arrive at the etiological diagnosis of the scaling scalp
- Antifungal shampoos alone are not much beneficial in the treatment of the same
- Against this background, this monograph is first of its kind in the World Medical Literature (WML)
- With the help of his robust clinical experience and WML, the author makes an adorable attempt to establish the exact etiology of dandruff
- The major highlight: It is the beautifully and belligerently categorized Color Atlas (comprising around 500 excellent color images)
- Another highlight: Depiction of color photographs displaying various toe-nail abnormalities (hitherto, most of which, unreported in WML), studied in an amazingly huge number of all types of skin patients, over a period of 15 years, but noticed almost always in psoriatic population
- Brief clinical information about each patient is provided at the bottom of each page of color atlas of dandruff
- Last but not the least, this monograph provides a lot of areas that carry a very high research potential.

Rama Murthy DVSB is the Professor and Head, Department of Dermatology, Venereology and Leprosy, Katuri Medical College, near Guntur City (since 2010). He graduated from Gandhi Medical College, Hyderabad. He obtained his Master's degree in 1987 from Kakatiya University, Warangal. He Served as an Assistant Professor of Dermatology at Guntur Medical College (1987–1997). His passion is clinical teaching. His areas of interest in dermatology: photosensitivity disorders, psoriasis, prurigo, pruritus and toe-nail abnormalities: his choicest research activity is: kept himself busy exploring Indian Clinical Dermatology against the backdrop of Western Medical Literature (32 years). He has a few publications and authored a monograph "Light Versus Skin".
