Contents

Preface iv

Contributors ix

Chapter 1
Microbiology of surgical pathogens 1
Donald E. Fry

Chapter 2
Antimicrobial agents 11
Lena M. Napolitano

Chapter 3
Surgical immunology 27
William G. Cheadle, Ziad Kanaan, Adrian T. Billeter, Rebecca E. Barnett

Chapter 4
Surgical site infections 49
Donald E. Fry

Chapter 5
Skin, skin structure, and soft tissue infections 63
Donald E. Fry

Chapter 6
Intra-abdominal infections 75
John E. Mazuski

Chapter 7
Perirectal abscesses and pilonidal disease 89
Susan Galandiuk

Chapter 8
Hospital-acquired and ventilator-associated pneumonia 97
Philip S. Barie

Chapter 9
Postoperative urinary tract infections 109
Jeffrey A. Claridge, Joseph F. Golob

Chapter 10
Catheter-related bloodstream infections 115
William P. Schecter

Chapter 11
Clostridium difficile infection 123
Donald E. Fry

Chapter 12
Burn wound infections 133
David N. Herndon, Noe A. Rodriguez, Katrina Blackburn Mitchell, James J. Gallagher

Chapter 13
Fungal infections of surgical significance 143
Joseph S. Solomkin, Jianen Ren, Donald E. Fry

Chapter 14
Viral infections of surgical significance 155
Donald E. Fry

Chapter 15
Cardiothoracic surgical infections 169
Jorge A. Wernly, Charles A. Dietl, Jess D. Schwartz

Chapter 16
Head-neck infections 189
Francisco O. M Vieira, Mitchell Challis, Shawn M. Allen

Chapter 17
Vascular surgical site infection 203
Kelley D. Hodgkiss-Harlow, Dennis F. Bandyk

Chapter 18
Urological infections 209
Matthew C. Raynor, Ian Udell, Raj Kurpad, Culley C. Carson

Chapter 19
Bone and joint infections 215
Charalampos G. Zalavras, Michael J. Patzakis

Chapter 20
Obstetric and gynecological infections 225
