Competency Based LOGBOOK for 1st Professional MBBS

Biochemistry

As per the Revised Competency Based Medical Education Curriculum (NMC)

Aditya Pratap Singh
Saumya Singh
Tabassum Yasmin

JAYPEE

Index

Section	Description	Page no.	Status	Signature of Teacher
			Complete/Incomplete	
1.	Competency Assessment	1		
2.	Alignment and Integration Topics (AITo)	51		
3.	Early Clinical Exposure	55		
4.	Self-Directed Learning	71		
5.	AETCOM	89		
6.	Sports/Physical Education	97		
7.	Extracurricular Activities	101		
8.	Attendance Records	105		
9.	Records of Internal Assessment	109		

AETCOM—Competencies for IMG-2024 as per Guidelines of the National Medical Commission.

Section

1

Competency Assessment

JAYPEE BROTHERS

JAYPEE BROTHERS

Chemistry and Metabolism of Proteins and Immunology

S. No.	Competency addressed	Name of the activity	Date completed dd-mm-yyyy	Attempt at activity First only (F) Repeat (R) Remedial (Re)	Rating Below (B) expectations Meets (M) expectations Exceeds (E) expectations or Numerical scores	Decision of faculty Completed (C) Repeat (R) Remedial (Re)	Initial of faculty and date	Feedback received Initial of learner
1.	Describe the specialized products formed from the amino acids glycine, phenylalanine, tyrosine, tryptophan, and methionine, branched chain amino acids and arginine and the inborn errors associated with them. Discuss new-born screening. BC 5.7							

JAYPEE BROTHERS

Vitamins and Nutrition

S. No.	Competency addressed	Name of the activity	Date completed dd-mm-yyyy	**Attempt at activity** First only (F) Repeat (R) Remedial (Re)	**Rating** Below (B) expectations Meets (M) expectations Exceeds (E) expectations or Numerical scores	**Decision of faculty** Completed (C) Repeat (R) Remedial (Re)	**Initial of faculty and date**	**Feedback received** Initial of learner
1.	Provide dietary advice for optimal health in childhood and adult in disease conditions like diabetes mellitus, coronary artery disease and in pregnancy. BC 8.4							

JAYPEE BROTHERS

Organ Function Tests and Hormones

S. No.	Competency addressed	Name of the activity	Date completed dd-mm-yyyy	Attempt at activity First only (F) Repeat (R) Remedial (Re)	Rating Below (B) expectations Meets (M) expectations Exceeds (E) expectations or Numerical scores	Decision of faculty Completed (C) Repeat (R) Remedial (Re)	Initial of faculty and date	Feedback received Initial of learner
1.	Describe the function tests of kidney, liver, thyroid and adrenal glands and their clinical significance. Interpret the function tests report. BC 11.1							

JAYPEE BROTHERS

Biochemistry Laboratory Test/Practical

S. No.	Competency addressed	Name of the activity	Date completed dd-mm-yyyy	**Attempt at activity** First only (F) Repeat (R) Remedial (Re)	**Rating** Below (B) expectations Meets (M) expectations Exceeds (E) expectations or Numerical scores	**Decision of faculty** Completed (C) Repeat (R) Remedial (Re)	**Initial of faculty and date**	**Feedback received** Initial of learner
1.	Describe and identify pre-analytical (especially order of draw, tourniquet technique), analytical, post-analytical errors. BC 14.20							
2.	Observe, interpret and discuss the baseline, diagnostic, prognostic, and discharge investigations of clinical biochemistry. BC 14.24							

JAYPEE BROTHERS

Add on Competencies as Decided by the Department of Biochemistry

S. No.	Competency addressed	Name of the activity	Date completed dd-mm-yyyy	**Attempt at activity** First only (F) Repeat (R) Remedial (Re)	**Rating** Below (B) expectations Meets (M) expectations Exceeds (E) expectations or Numerical scores	**Decision of faculty** Completed (C) Repeat (R) Remedial (Re)	Initial of faculty and date	**Feedback received** Initial of learner

JAYPEE BROTHERS

Competencies of the Procedures for Certification

S. No.	Competency addressed	Name of the activity	Number required to certify P (Perform)	Date completed dd-mm-yyyy	Attempt at activity First only (F) Repeat (R) Remedial (Re)	Rating Below (B) expectations Meets (M) expectations Exceeds (E) expectations or Numerical scores	Decision of faculty Completed (C) Repeat (R) Remedial (Re)	Initial of faculty and date	Feedback received Initial of learner
1.	Describe the physical properties, chemical constituents of normal urine and abnormal constituents of urine and perform urine analysis to determine normal and abnormal constituents (including dipsticks method demonstration). BC 14.3		2						
2.	Identify abnormal constituents in urine, interpret the findings and correlate these with pathological states and prepare a urine report. BC 14.4		1						
3.	Perform estimation of glucose by manual/semi-automated analyzer method and demonstrate glucometer usage and interpretation of results with clinical scenarios. BC 14.7		1						

JAYPEE BROTHERS

4.	Perform estimation of urea and calculate BUN and interpretation of results in clinical scenarios. BC 14.8		1						
5.	Perform the estimation of serum creatinine and calculate creatinine clearance. BC 14.9		1						
6.	Perform estimation of uric acid in serum and interpretation of results with clinical scenarios. BC 14.10		1						
7.	Perform estimation of serum proteins, albumin and A:G ratio. BC 14.11		1						
8.	Perform the estimation of serum total cholesterol. BC 14.12		1						
9.	Perform the estimation of serum bilirubin by manual/semi-automated analyzer method. BC 14.13		1						
10.	Describe quality control and identify basic L J charts in clinical biochemistry lab. BC 14.21		1						

JAYPEE BROTHERS

Certifiable Competencies in Biochemistry

Competency BC 14.3: Describe the physical properties, chemical constituents of normal urine and abnormal constituents of urine and perform urine analysis to determine normal and abnormal constituents (including dipsticks method demonstration)

Specific Learning Objectives (SLOs):

1.

2.

3.

4.

Description of the Module:

JAYPEE BROTHERS

JAYPEE BROTHERS

Reflection on Certifiable Competency

Date:

Topic 1: Describe the physical properties, chemical constituents of normal urine and abnormal constituents of urine and perform urine analysis to determine normal and abnormal constituents (including dipsticks method demonstration).

What happened:

Competency Based LOGBOOK for 1st Professional MBBS

Biochemistry

This logbook is designed as per the latest guidelines of logbook module 2024 shared by NMC for implementation of Competency-based Medical Curriculum and recommended to be followed for the MBBS students from the academic year 2024–2025 onward. This logbook of Biochemistry is a verified record of the progression of the learner documenting the acquisition of the requisite, knowledge, skills, attitude, and competencies. It is a tool that guides medical students by highlighting important clinical objectives promoting self-reflection, providing an opportunity to obtain feedback from preceptors, and the records can be used for formative and continuous assessment. Also, this logbook is an academic document that becomes both a snapshot of the progress of the learner as well as a prerequisite for progression to the next phase of learning or graduation from the course.

Salient Features

- Predefined skill competencies of Biochemistry given in the UG curriculum module, volume I, 2024 for recording the activities conducted in a simple tabulated format based on NMC Logbook module
- Separate sections provided for skill competencies needed for certification in the subject
- Separate empty tables provided for add-on competencies needed by the department of Biochemistry
- Separate sections provided for Alignment and Integration Topics (AITo), ECE, SDL, Humanities, and Extracurricular activities with ample space for reflective writing of the subject
- Separate section of AETCOM dedicated to Biochemistry with modules and reflective writing space
- Recording of the details of assignment and assessment
- Separate sections provided for the attendance record of the students and attending extra classes for poor attendance

Aditya Pratap Singh MBBS MS (Anatomy) is Professor and Head, Department of Anatomy, United Institute of Medical Sciences, Prayagraj, Uttar Pradesh, India. He has undergone training in BCME and Advance Course in Medical Education (ACME). He is an MEU coordinator and a member of various committees at his institute. He has published several research papers in national and international journals. He is passionate about teaching and research activities, which helped him to compile this logbook.

Saumya Singh MBBS (Hons) MD (Microbiology) is Professor and Head, Infection Control Officer, and In-charge of Molecular Laboratory, Department of Microbiology, United Institute of Medical Sciences, Prayagraj, Uttar Pradesh, India. She has published a number of scientific research papers in national and international journals. She has undergone training in BCME, Advance Course in Medical Education (ACME), NABL internal auditors training course (Kolkata), and is an active member in MEU at her institute along with Curriculum In-charge for 2nd year MBBS. She is fascinated about innovative teaching and promotes research work helping her compile this logbook.

Tabassum Yasmin MBBS MD is Professor and Head, Department of Biochemistry, Uma Nath Singh Autonomous State Medical College, Jaunpur, Uttar Pradesh, India. She has undergone training in Medical Education (RBCW), NABL internal auditors training course (Kolkata). She is currently the dean academic in her institute. She has published several research papers in national and international Journals. She is a member of Medical Education Unit and a member of various committees in the college.
