Contents

SECTION 1: BASIC KNOWLEDGE OF CERVICAL SPINE

1. Historical Background of Surgery on Cervical Spine 3
2. Applied Anatomy of Cervical Spine 7
3. Biomechanics of Cervical Spine 11

SECTION 2: ORIENTATION IN THE OPERATION THEATER

4. Operation Theater Set-up 17
5. Basic Instrument Set for Spinal Surgery 25
6. Hemostasis in Spinal Surgery 31

SECTION 3: TECHNIQUES OF HARVESTING BONE GRAGTS FROM THE ILIAC CREST AND FAMILIARITY WITH THE USE OF SCREWS AND PLATES

7. Technique of Harvesting Bone Grafts from the Anterior and Posterior Iliac Crest 37
8. Basic Knowledge of Screws Used in Spinal Surgery 42
9. Operative Technique of Screws and Plates Fixation in Anterior Cervical Spine 45
10. Posterior Atlantoaxial Stabilization with Screw in the Lateral Masses 50
11. Posterior Atlantoaxial Stabilization with Screws and Plates in the Lateral Masses 52
12. Posterior Subaxial Stabilization of the Cervical Spine: Lateral Mass Screws and Plates or Rods. 55

SECTION 4: SURGICAL APPROACHES TO CRANIO-VERTEBRAL JUNCTION

Anterior

13. Surgical Technique for Anterior Occipitocervical Decompression and Fusion 61
14. Transoral Approach to Cranio-vertebral Junction:Basic Principles 63
15. Anterior Approaches to Upper Cervical Spine 66
16. Retropharyngeal approach to Ocipitocervical Junction 74

Posterior

17. Surgical Technique of Posterior Exposure of Occiput C1 and C2 77
18. Posterior Occipitocervical Stabilization Using Contoured Hartshill Ring or Ransford Loop 80
19. Posterior Occipitocervical Fusion Using Auto-bone Graft From the Posterior Iliac Crest: Menezes Principle 83
20. Other Modalities of C1 and C2 Fusion 86
21. Far Out Lateral Transcondylar Approach to Lesions Placed Intradurally Anterior to Cervico-medullary Junction 89

SECTION 5: SURGICAL APPROACHES TO SUBAXIAL ANTERIOR CERVICAL SPINE

22. Anterior Approach to Subaxial Cervical Spine–Some Considerations 95
23. Surgical Approach to Subaxial Anterior Cervical Spine–Basic Knowledge 97
24. Step by Step Approach to Anterior Subaxial Cervical Spine 99
25. Anterior Cervical Discectomy and Fusion 107
26. Anterior Cervical Microdiscectomy` 116
27. Anterior Cervical Median Corpectomy 118
28. Motion Preserving Anterior Cervical Stabilization–Cervical Discoplasty 126

SECTION 6: POSTERIOR APPROACH TO SUBAXIAL CERVICAL SPINE

29. Posterior Exposure of Subaxial Cervical Spine 133
30. Cervical Laminectomy 137
31. Posterior Cervical Foraminotomy 140
32. Posterior Cervical Microdiscectomy 142
33. Cervical Laminoplasty 145

SECTION 7: CONGENITAL MALFORMATION OF THE NERVOUS TISSUE

34. Step by Step Surgical Approach to Chiari Malformations 151
35. Cervical Encephalocele 158

SECTION 8: SURGICAL MANAGEMENT OF TRAUMA TO THE CERVICAL SPINE

36. Principles of Management of Trauma to the Occipitocervical Junction 163
37. Basic Concepts of Surgical Management 166
38. Surgical Techniques for Management of Trauma to the Anterior Cervical Spine 168
39. Surgical Techniques for Management of Trauma to the Posterior Cervical Spine 171
40. Bohlman's Triple Wire Concept 174
41. Posterior Cervical Stabilization: Use of Metallic Rectangle 176
42. Facet Lock Surgical Release and Stabilization 181

SECTION 9: TUMORS OF THE CERVICAL SPINE

43. Classification of Cervical Spine and Spinal Cord Tumors 187
44. Excision of Intramedullary Tumors 191
45. Intradural of Extramedullary Cervical Spine Tumors 194
