CONTENTS

1. Caring the Patient's Unit and Equipment 1
- *Taking Care of Patient's Unit 1 • Taking Care of Patient's Equipment 4*
- *Taking Care of Kitchen and Pantry 8*

2. Maintaining Aseptic Practices 10
- *Maintaining Clean Technique 10 • Maintaining Isolation Technique 11*
- *Managing an Isolation Unit 19 • Maintaining Sterile Technique 21*
- *Sterilizing/Disinfecting the Supplies 21 • Handling Sterile/Disinfected Supplies 29*

3. Preparing Hospital Beds 35
- *Making Beds 35 • Turning or Changing the Mattress 46*

4. Admitting and Discharging the Patient 48
- *Admitting the Patient 48 • Referring the Patient 50*
- *Discharging the Patient 50 • Caring of the Deceased's Body 52*

5. Assessing the Patient's Condition 55
- *Observing the Patient 55 • Taking Vital Signs 58 • Taking Temperature 60*
- *Taking Pulse 65 • Taking Respiration 68 • Taking Blood Pressure 70*
- *Recording 74 • Caring a Patient with Fever 74 • Taking Height 79*
- *Taking Weight 80 • Assisting in Physical Examination 81 • Collecting Specimens 86*
- *Performing Common Laboratory Tests 92 • Interpreting Laboratory Reports 95*
- *Teaching the Patient to Perform Self-examination of the Breast 96*
- *Maintaining Patient's Records and Reports 102 • Maintaining Nurse's Notes/Record 104*
- *Maintaining Neurological Assessment Record 107*
- *Maintaining Intake and Output Record 110*

6. Attending Hygienic Needs of the Patient 113
- *Attending Mouth Care 113 • Bathing a Patient in Bed 116*
- *Attending Hair Care 120 • Giving Back Rub 123 • Managing Bedsore 124*
- *Attending Morning/Evening Care 127 • Assisting to Change Clothing 127*

7. Providing Nutrition to the Patient 131
- *Serving Meal and/or Assisting the Patient to Eat Meal 131*
- *Giving Tube Feed 133 • Giving Intravenous Feed 136*

8. Maintaining Proper Body Mechanics 137
- *Positioning the Patient 137 • Moving and Lifting the Patient 146*

9. Attending Eliminatory Needs of the Patient 157
- *Giving Bedpan and Urine Pot 157 • Giving Enemas 159*
- *Inserting Rectal Suppositories 164 • Passing Flatus Tube 166*
- *Removing Fecal Impaction 167 • Inserting Nonretaining Catheter 168*
- *Inserting Self-retaining Catheter 173 • Applying Condom for Drainage 177*
- *Assisting in Dialysis 179*

10. Using Thermomedicinal and Musculoskeletal Applications 187
• Using Cold Applications 187 • Using Hot Applications 193
• Applying Soothing Applications 203 • Applying Counterirritants 204
• Performing Massage 205 • Assisting to Perform Exercises 208

11. Administering Medication to the Patient 215
• Giving Oral Medication 215 • Giving Parenteral Medication 218
• Giving Intramuscular Injection 221 • Giving Subcutaneous Injection 225
• Giving Intradermal Injection 227 • Giving Intravenous Injection 228
• Giving Steam Inhalation 229 • Using a Metered Dose Inhaler 233
• Using Nebulizer 234 • Giving Oxygen Inhalation 236
• Instilling Medicines 243 • Inuncting Medicine 249

12. Irrigating Organs 250
• Irrigating Eye 250 • Irrigating Ear 251 • Irrigating Nose 253
• Irrigating Throat 254 • Irrigating Stomach 255 • Irrigating Colon 257
• Irrigating Colostomy 259 • Irrigating Urinary Bladder 262 • Irrigating Vagina 265

13. Administering Infusions and Transfusions 268
• Administering Intravenous Infusion 268 • Administering Subcutaneous Infusion 275
• Administering Blood Transfusion 277 • Assisting in Venesection 283

14. Caring a Wound 286
• Preparing the Part for Surgery 286 • Applying Dressing 289
• Applying Adhesive Straps 291 • Applying Roller Bandage 293 • Applying Binders 301
• Taking Care of a Wound Drain 303 • Applying and Removing Sutures 304
• Managing a Wound 310 • Taking Care of the Burn Area 316

15. Attending Emergencies 320
• Performing CPR 320 • Assisting in Endotracheal Intubation 326
• Assisting in Tracheostomy and its Immediate Care 328 • Giving Tracheostomy Care 333
• Measuring Central Venous Pressure 335 • Defibrillating the Patient 338
• Managing a Patient on Continuous Mechanical Ventilation (CMV) 340

16. Assisting in Suction and Drainage 345
• Inserting and Removing Gastrointestinal Tubes 345
• Managing Gastrointestinal Decompression 349
• Assisting in Insertion and Removal of Chest Tubes 350
• Managing a Patient with Water Seal Drainage System 354
• Suctioning the Oropharynx/Nasopharynx 357
• Suctioning Through Oropharyngeal/Nasopharyngeal Airway 359
• Suctioning Through Endotracheal/Tracheostomy Tube 361
• Assisting in Postural Drainage 364
• Giving Ostomy Care 367

17. Immobilizing and Ambulating the Patient 371
• Applying Restraints 371 • Applying Splints 375 • Applying and Removing Traction 378
• Applying and Removing Skin Traction 382 • Applying and Removing Skeletal Traction 387
• Assisting in Cast Application 391 • Caring a Patient in Cast 395
• Assisting in Cast Removal 398 • Ambulating the Patient with Walking Aids 399

18. Preparing the Patient for and Assisting the Doctor in Diagnostic Studies 406
- *Preparing the Patient for Plain X-ray Examination 406*
- *Preparing the Patient for Contrast X-ray Examination 408*
- *Preparing the Patient for and Assisting the Doctor in Ultrasonography 413*
- *Preparing the Patient for CT Scan 417 • Preparing the Patient for Radioisotope Scan 418*
- *Preparing the Patient for MRI 419 • Preparing the Patient for Electrocardiography 421*
- *Preparing the Patient for Electroencephalography 425*
- *Preparing the Patient for Electromyography 426 • Assisting in Endoscopy 427*
- *Assisting in Biopsy and Aspiration 433 • Performing Gastric Analysis 437*
- *Assisting in Abdominal Paracentesis 439 • Assisting in Thoracentesis 442*
- *Assisting in Pericardiocentesis 444 • Assisting to Perform Lumbar Puncture (LP) 445*

19. Assisting in Special Procedures 449
- *Giving Electroconvulsive Therapy 449 • Assisting the Patient to Undergo Radiotherapy 452*
- *Administering Intravenous Chemotherapy 456*

20. Providing General Nursing Care 459
- *Giving Preoperative Nursing Care 459 • Giving Postoperative Nursing Care 462*
- *Preparing a Nursing Care Plan 468 • Educating the Patient 469*

21. Performing Common Antenatal, Intranatal and Postnatal Procedures 472
- *Examining the Antenatal Woman 472 • Performing Vaginal Examination 479*
- *Taking Care of Breast 484 • Examining the Intranatal Woman on Arrival 485*
- *Performing Vaginal Examination in Labor 486 • Shaving the Perineum 488*
- *Examining the Postnatal Woman 489 • Giving Perineal Care 493*
- *Demonstrating Breastfeeding Technique 495 • Examining the Newborn Baby 496*
- *Taking Baby's Length 508 • Taking Baby's Weight 509*
- *Giving Skin and Cord Care 510 • Attending Engorged Breast 512*
- *Assisting the Mother to Overcome Early Breastfeeding Problems 514*

Appendices 521

Appendix A : *An Introduction to Nursing 521*

Appendix B : *Abbreviations and Terms 524*

Appendix C : *Weights and Measures 530*

Appendix D : *Preparation of Solutions 532*

Appendix E : *Outline for Writing Case Study in Clinical Field of Medical/Surgical/Orthopedic/Gynecological/Pediatric Nursing 534*

Appendix F : *Outline for Writing Observation Study in Clinical Field of Medical/Surgical/Orthopedic/Gynecological/Pediatric Nursing 536*

Appendix G : *Outline for Writing Case Study in Clinical Field of Psychiatric Nursing 538*

Appendix H : *Outline for Recording the Interpersonal Relationship (IPR) Process 540*

Appendix I : *Special Charts 541*
