Contents

1.	**Introduction**	**1–15**
	Routes of Drug Administration and Drug Forms	1
	Writing Prescriptions	7
	General Considerations	9
	Specific Considerations	10
2.	**Pain Control Medications in Dentistry**	**16–42**
	Neurophysiology of Pain	17
	Clinical Presentation of Pain	18
	Intraoperative Pain	20
	Postoperative Pain Management	25
	Drugs for Pain Relief	28
	General Considerations	38
	Specific Considerations	38
3.	**Antimicrobial Agents Used in Dentistry: Bacterial Infections**	**43–90**
	Bacterial Infections	44
	Antibiotics	45
	Systemic Agents	48
	Clinical Use of Systemic Antibiotics	61
	Local and Topical Agents	81
	General Considerations	85
	Specific Considerations	85
4.	**Antimicrobial Agents Used in Dentistry: Antifungals**	**91–107**
	Fungal Infections	91
	Antifungal Agents	93

Clinical Use of Antifungal Agents 99
General Considerations 104
Specific Considerations 105

5. Antimicrobial Agents Used in Dentistry: Antiviral Agents 108–123

Viral Infections 108
Individual Drugs 110
Clinical Use of Antiviral Drugs 116
General Considerations 120
Specific Considerations 121

6. Emergency Drugs Used in Dentistry 124–144

Prevention 124
Preparedness 125
Emergency Drugs 126
Primary Drugs 131
Management of Emergencies 136

Index 145
