Contents

1. **Introduction: The Holcomb C3-R® at the Starting Gate** 1
2. **Going for the Gold: Steven Holcomb's Olympic Story and Putting C3-R® on the Map** 5
   - *Searching for a Miracle* 6
   - *Olympic Press Conference* 7
   - *At the Olympics* 8
   - *Post Olympics* 10
3. **History of Crosslinking in Industry, Medicine, and Aging** 15
   - *Vulcanized Rubber* 16
   - *Child's Play* 17
   - *Medicine and Aging* 17
4. **Basic Science of Corneal Crosslinking** 21
   - *Holcomb C3-R® Connections* 22
   - *Increased Corneal Rigidity* 22
   - *Anterior Versus Posterior Cornea* 22
   - *Individual Collagen Fibers* 23
5. **First Patient Results: The Dresden Experience** 25
   - *Crosslinking Technique* 26
   - *Initial Results* 27
6. **Development and Naming of Holcomb C3-R®** 31
7. **First Presentation of Results of Holcomb C3-R® and Holcomb C3-R® Combined with Intacs®** 35
   - *More C3-R® Results* 38
   - *Combining C3-R® with Intacs® on Same Day* 39
8. **Why it's Not Glamorous to be a Pioneer in the Beginning** 43
   - *Initial Ambush* 44
   - *Pattern of Attack* 45
9. **Techniques of Holcomb C3-R® Crosslinking System (Epithelium-On) and CXL (Epithelium-Off)** 49
   - *The Holcomb C3-R® Procedure* 50
   - *Ten Step Holcomb C3-R® Crosslinking System* 50
   - *CXL – Epi-Off Crosslinking Procedure* 52
10. **Complications of CXL (Epithelium-Off)** 53
    - *The Pain Factor* 54
    - *Visual Ramifications* 54

11. Results and Complications of Holcomb C3-R® (Epithelium-On) 57
- *Considering Riboflavin Penetration 59*
- *Weighing the Pain Factor 61*

12. Combining the Holcomb C3-R® Crosslinking System with Intacs® 63
- *Investigating the Effect 64*
- *Case Report 65*
- *Potential Mechanisms 67*

13. Use of Holcomb C3-R® for Improving Stability in Radial Keratotomy Patients 71
- *Holcomb C3-R® after RK 72*
- *Considering Safety 73*

14. Holcomb C3-R® with Photorefractive Keratectomy 75
- *Two-step Procedure 76*
- *Alternative to Cornea Transplant 77*

15. Use of Crosslinking for Corneal Infections and Autoimmune Corneal Melts 79
- *Eradicating Infectious Ulcers 80*
- *Halting Corneal Melts 82*

16. Use of the Holcomb C3-R® for Trampolining Corneas after LASIK 85
- *No Ectasia, but Unstable Vision after LASIK 86*
- *Our Experience 87*
- *Keratoconus after LASIK 87*

17. Combining Use of the Holcomb C3-R® with Conductive Keratoplasty and Phakic ICLs 89
- *Conductive Keratoplasty for Additional Vision Improved and Reduction of Astigmatism 90*
- *Adding a Phakic Element—Visian ICL and Verisyse Lenses 93*
- *Comparing Visian ICL and Verisyse Lenses 94*

18. Looking into the Crystal Ball: What Lies Ahead for Corneal Collagen Crosslinking 99
