Contents

1. **Investigations in Peripheral Vascular Disease: Radiology and Imaging** **1**
   Ankle Brachial Index 2; Segmental Pressure Measurements 3; Plethysmography 3; Transcutaneous pO_2 3; Laser Doppler Velocitometry 4; Hand Held Unidirectional Doppler 4; Duplex Ultrasound Scanning 4; Computed Tomographic Angiography 6; Standard Invasive Arteriography 8
2. **Acute Limb Ischemia** **10**
   Etiology 11; Pathophysiology 15; Differences between Embolism and Thrombosis 17; Clinical Features 18; Diagnosis 19; Treatment 20; Complications of Revascularization for ALI 24
3. **Chronic Lower Limb Ischemia** **25**
   Prevalence 25; Risk Factors 26; Etiology 28; Pathophysiology 29; Clinical Features 30; Clinical Examination 31; Differential Diagnosis 31; Investigations 31; Medical Management 32; Drug Therapy for Intermittent Claudication 33; Endovascular Intervention 37
4. **Thromboangiitis Obliterans/Buerger's Disease** **39**
   Incidence 39; Etiology 40; Pathology 41; Clinical Features 42; Investigations 43; Therapy 44

5. **Extremity Vascular Trauma** **47**
Epidemiology 47; Etiology 48; Biomechanics of Vascular Trauma 48; Pathophysiology 49; Clinical Features 50; Diagnostic Evaluation 51; Management 53

6. **Thoracic Outlet Syndrome** **59**
Anatomy 59; Etiology 60; Clinical Features 62; Physical Examination 63; Diagnostic Evaluation 65; Differential Diagnosis 66; Management 66; Complications of Surgery 71

7. **Raynaud's Syndrome** **72**
Prevalence of Raynaud's Syndrome 73; Pathophysiology 73; Clinical Features 76; Noninvasive Diagnostic Studies 76; Invasive Studies 78; Management 78

8. **Arterial Aneurysms** **81**
Classification of Aneurysms 82; Abdominal Aortic Aneurysm 87; Endovascular Graft Repair of AAA 92

9. **Vascular Anomalies: Tumors and Malformations** **94**
Embryology of Vascular Anomalies 95; Incidence 95; Hamburg Classification 95; Vascular Malformations 99

10. **Carotid Artery Occlusive Disease** **107**
Pathogenesis of Stroke and TIA 108; Diagnosis 109; Medical Management of CAOD 111; Contraindications 111; Surgical Technique 111; Carotid Artery Stenting 115

11. Carotid Body Tumor **116**
Incidence 116; Physiology 116; Pathology 117; Clinical Presentation 118; Diagnosis 119; Shamblin's Anatomical Groups of CBT 120; Treatment 121

12. Mesenteric Occlusive Disease **126**
Types of Mesenteric Occlusive Diseases 128

13. Conduits in Vascular Surgery **136**
Autogenous Grafts 137; Autogenous Vein 138; Allografts 140; Prosthetic Grafts 140

14. Endovascular Interventions **146**
Vascular Access 147; Technique of Vascular Access 148; Maintaining Vascular Access 149; Endovascular Devices 149; Technique 157

15. Chronic Venous Insufficiency **159**
Venous Anatomy 159; Etiology 159; Pathophysiology 159; Clinical Features 161; Differential Diagnosis 163; Investigations 163; Management of Chronic Venous Insufficiency 165

16. Varicose Veins **171**
Anatomy 171; Etiology 172; Clinical Features 173; Pathophysiology 174; Management 176

17. Deep Vein Thrombosis: A Brief Study **183**
Epidemiology 183; Sources of Pulmonary Embolism 184; Pathophysiology 184; Risk Factors for DVT 185; Clinical Features 189; Diagnosis 189; Management of DVT 192; Risk Stratification of Operated Patients 196; Management 196; Medical Patients 197; Treatment Modalities 197

18. Lymphedema **200**
Pathophysiology 200; Etiological Classification of Lymphedema 201; Clinical Stages of Lymphedema 204; Clinical Features 205; Diagnosis 206; Differential Diagnosis 208; Management 208
