Contents

Chapter 1 Overview of Infertility 1

Definitions 2

Factors responsible for fertility 2; Principal Causes of Impaired Fertility or Infertility 2; Common Causes of Female Infertilty 3; Common Causes of Male Infertility 3; Diagnostic Procedure (According to ESHRE) 3; Treatment Approach of Infertile Patient 4; Success of Infertility Treatment 5

Chapter 2 Intrauterine Insemination 6

History of Artificial insemination 6

How does IUI works? 7

Prerequisites for IUI 7; Factors Influences the Success of Pregnancy in IUI 7; Practical Issues Involved in Enhancing the Pregnancy Outcome in IUI 8

Chapter 3 Diagnosis of Male Infertility by Semen Quality 9

Chapter 4 Equipment Design and Set-up of IUI Laboratory 12

Steps Involved in Management of Modern IUI Laboratory 13; Further Functions of IUI Center in Community 13; Setting of a Room for IUI Laboratory 13; Equipments 13; Semen Assessment and Sperm Preparation 14; Gynecological Equipment 14; Media 14; Record Keeping and Documentation 15; Maintenance of Equipment 16; Quality Control Methods 19; Laboratory Asepsis 20; Physical Structure and Floor Plan 20; Total Man Power for an Standard IUI Program 23; Useful Web Address for Information 23

Chapter 5 Patient Selection and Management 24

Selection Criteria of Patient for IUI 25; Patients Preparation (Male and Female) 25; Examination of the Patient 25; Male Partner 25; Patient Counseling 26

Chapter 6 Hormones and Fertility Drugs 27

Anti-Müllerian Hormone (AMH) 27
Androgens 28
Thyroid Hormones 28
Clomiphene Citrate (CC) 28
Letrozole 29
Metformin 30
Lupron (GnRH antagonist); Antagon, Cetrotide (GnRH agonists) 30
Bromocriptine/Cabergolin 32
Progesterone 33
Human Chorionic Gonadotropin (hCG) 33
Luveris (LH) 33

Chapter 7 Controlled Superovulation 34

Stimulation with AntiEstrogen 35
Aromatase Inhibitors 35
Stimulation with Gonadotropins 37
Gonadotropin Preparation 39
Commonly used Regimen of Superovulation 39

Chapter 8 Role of Transvaginal Sonography in Monitoring of Ovulation and IUI 41

Preparation of Patient for TVS 41
Position and Technique of TVS 42
Monitoring of Ovulation 43
Transvaginal Monitoring 43
Ultrasound Monitoring of Ovaries 45
Polycystic Appearance on USG 47
Ultrasonographic Monitoring of Endometrial Development 47

Chapter 9 Semen Analysis 51

Variability in Semen Parameters 50
Sample Collection and Delivery 51
Physical Characteristics of Semen 51
Visual Assessment of Sperm Motility 52
Other Microscopic Observations 53
Other Cellular Components and Debris 53
Round Cells 53; Epithelial Cells 53; Erythrocytes 53; Particulate Debris 53; Measurement of Sperm Concentration 53; Various

Chambers 54; Assessment of Sperm Morphology 54; Sperm Morphology Classification 54; Teratozoospermic Index (T21) 55; Interpretation of Semen Parameters 55; Sperm Function Tests 55; Sperm Membrane Function 55
Viability 55
Sperm Viability Test 55; Hypo-osmotic Swelling (HOS) Test 56
Tests of Sperm Membrane Binding, Capacitation and Penetration 56
Hyper-activated Sperm Motility 56; Hemi-zona Assay 56; Acrosome Detection and Reaction 56; Triple Staining 57; Fluorescent Techniques 57; Acrosin Measurement 57; Gelatin Film Lysis Test 57
Antisperm Antibodies 57
WHO Guideline for Semen Parameters 59
Sperm Preparation for IUI 59
Collection Methods 59; Retrograde Semen Sample 60
Semen Analysis 61
Motility Evaluation 61; Sperm Count 61; Sperm Morphology 62; Care of the Meckler Chamber 62; Selection of Semen Processing Techniques 63; Why Sperm Wash is Needed ? 63; Sample Preparation for IUI 63; Sperm Processing Technique 64; Semen Processing Kits 66

Chapter 10 IUI Techniques 70

Indications 70; IUI Methods 70; Benefits of IUI with Superovulation 72; Drawbacks of IUI 73; Complications 73; What Should be the Ideal Method? 73; Things to Set on the Day before IUI 73; Patient Selection Criteria for IUI 74; Safety Guidelines for the Andrology Laboratory 74

Chapter 11 IUI Techniques Ovarian hyperstimulation Syndrome OHSS 79

Definition 79
Classification 80
Symptoms 81
Moderate OHSS 81; Severe OHSS 81; When to See a Doctor 81; Causes 82
Risk Factors 82
Complications 83

Tests and Diagnosis 83
Treatments and Drugs 84
Mild and Moderate OHSS 84; Severe OHSS 84
Lifestyle and Home Remedies 84
Prevention 85
