Contents

Section 1: EAR

1. Development of the Ear **3**

• Development of the External and Middle Ear 3 • Development of the Inner Ear 4
• Development of the Bony Labyrinth 4

2. Anatomy of the Ear **6**

• External Ear 6 • Middle Ear Cleft 8 • Inner Ear 11 • Average Physical Data of the Ear 14
• Inner Ear 14

3. Physiology of the Ear **16**

• Physiology of Hearing 16 • Physiology of the Vestibular System 18 • Distortion in the Ear 19

4. History Taking with Symptomatology of Ear Diseases **20**

• Deafness 20

5. Examination of the Ear **22**

• Methods of Examination of the Ear 22 • Evaluation of Ear Disease 23 • Functional Examination of Ear 24 • Radiological Examination of the Ear 27 • Contrast Radiography 28
• Nuclear Magnetic Resonance 28 • Examination of the Vestibular Apparatus 28
• Craniocorpography 32

6. Congenital Diseases of the External and Middle Ear **33**

• Anomalies of the Pinna 33 • Anomalies of the External Auditory Canal 34
• Anomalies of the Middle Ear 34

7. Diseases of the External Ear **35**

• Perichondritis 35 • Hematoma of the Auricle 35 • Frostbite of the Pinna 35
• Pseudocyst Pinna 36 • Otitis Externa 36 • Otomycosis 37 • Malignant Otitis External 37
• Keratosis Obturans (Canal Wall Cholesteatoma) 37 • Foreign Bodies in the External Auditory Canal 37 • Impacted Wax in the External Canal 38 • Bullous Myringitis 38
• Traumatic Perforations of the Tympanic Membrane 38

8. Diseases of the Eustachian Tube **39**

• Acute Salpingitis (Acute Tubal Catarrh) 39 • Chronic Salpingitis 39

9. Acute Suppurative Otitis Media and Acute Mastoiditis **40**

• Acute Suppurative Otitis Media 40 Myringotomy 43

10. Chronic Suppurative Otitis Media **45**

Rafiq Ahmad Pampori

• Tubotympanic Type (Safe Type) 45 • Atticoantral Disease (Unsafe Type) 48
• Tuberculous Otitis Media 49

11. Complications of Chronic Suppurative Otitis Media **50**
• Labyrinthitis 50 • Otogenic Intracranial Infection 51 • Extradural Abscess 51
• Sinus Thrombophlebitis 51 • Otitic Hydrocephalus 52 • Otogenic Brain Abscesses 52

12. Nonsuppurative Otitis Media and Otitic Barotrauma **54**
• Nonsuppurative Otitis Media 54 • Acute Otitic Barotrauma 55

13. Adhesive Otitis Media **56**
• Etiology 56 • Pathology 56 • Clinical Features 56 • Treatment 56
• Tympanosclerosis 56

14. Mastoid and Middle Ear Surgery **58**
• Incisions for Exposure of Middle Ear Cleft 58 • Surgical Procedures for the Discharging Ear 58 • Tympanoplasty 60

15. Otosclerosis **62**
• Etiology 62 • Pathology of Otosclerosis 62 • Types of Otosclerosis 62
• Clinical Features 63 • Physical Findings 63 • Differential Diagnosis of Otosclerosis 63
• Treatment 64 • Stapedectomy 64 • Cochlear Otosclerosis 65
• Malignant Otosclerosis 65

16. Tumors of the Ear **66**
• Tumors of the External Ear 66 • Tumors of the Middle Ear 67 • Tumors of the Inner Ear 69

17. Otological Aspects of Facial Paralysis **71**
• Facial Paralysis 71 • Otological Aspects of Facial Paralysis 71 • Bell's Palsy 73
• Hemifacial Spasm 74 • Important Points 74

18. Ménière's Disease and Other Common Disorders of the Inner Ear **75**
• Ménière's Disease 75 • Vertigo 77 • Vestibular Neuronitis 77
• Benign Paroxysmal Positional Vertigo 77

19. Ototoxicity **78**
• Clinical Features of Ototoxicity 78 • Prevention and Treatment of Ototoxicity 79

20. Tinnitus **80**
• Tinnitus Aurium 80

21. Deafness **82**
Rafiq Ahmad Pampori
• Classification 82 • Deaf-Mute 84 • Acoustic Trauma 85
• Presbycusis (Senile Deafness) 85 • Sudden Deafness 85 • Psychogenic Deafness 86

22. Hearing Aids and Cochlear Implant **88**
• Hearing Aids 88 • Cochlear Implant 89

23. Principles of Audiometry **94**
• Acoustics 94 • Audiometry 95

MCQs on Ear **101**

Section 2: NOSE

24. Development and Anatomy of the Nose and Paranasal Sinuses **107**

• Development 107 • Anatomy 108 • Paranasal Sinuses 110 • Blood Supply of the Nasal Cavity 110 • Nerve Supply of the Nose 111 • Lymphatic Drainage of Nose and Paranasal Sinuses 111

25. Physiology of the Nose and Paranasal Sinuses **112**

• Olfactometry (Odor Measurement) 112 • Disturbances of Olfaction 113
• Functions of the Paranasal Sinuses 113 • Multifarious Functions of Nose 113

26. Common Symptoms of Nasal and Paranasal Sinus Diseases **114**

• Nasal Discharge 114 • Nasal Obstruction 114 • Facial Pain and Headache 114
• Epistaxis 114 • Disorders of Olfaction 114 • Postnasal Drip 115 • Speech Defect 115
• Symptoms due to Extension of the Disease to the Adjacent Regions 115 • Sneezing 115
• Snoring 115 • Sleep Apnea 115

27. Examination of the Nose, Paranasal Sinuses and Nasopharynx **117**

• Inspection and Palpation 117 • Anterior Rhinoscopy 117 • Posterior Rhinoscopy 118
• Rhinomanometry 119 • Digital Palpation of the Nasopharynx 119 • Nasopharyngoscopy 119
• Transillumination of the Sinuses 119 • Sinoscopy 119 • Radiological Examination of the Nose and Paranasal Sinuses 119 • CT Scan of the Nose, Paranasal Sinuses and Nasopharynx 120
• Angiography 120

28. Congenital Diseases of the Nose **121**

• Choanal Atresia 121 • Dermoid Cysts of the Nose 122 • Nasal Glioma 123
• Encephalocele 123

29. Diseases of the External Nose **124**

• Furunculosis of the Nose 124 • Cavernous Sinus Thrombosis 124 • Vestibulitis 125
• Erysipelas 125 • Acne Rosacea 125 • Lupus Erythematosus 125 • Herpes Simplex 125
• Herpes Zoster 125 • Rhinophyma 125 • Neoplasms of the External Nose 126

30. Bony Injuries of the Face **127**

• Fracture of the Nasal Bones 127 • Fractures of the Maxilla 128 • Fractures of the Malar-Zygomatic Complex 128 • Blow-out Fracture of the Orbit 128 • Cerebrospinal Rhinorrhea 129

31. Foreign Bodies in the Nose **130**

• Inanimate Foreign Bodies 130 • Animate Foreign Bodies 130 • Rhinolith 131

32. Epistaxis **132**

Abdullah Terkawi, Saleh F AlDhahri

• Applied Anatomy 132 • Examination 133 • Treatment 134

33. Diseases of the Nasal Septum **135**

• Deviated Nasal Septum 135 • Submucous Resection of Septum 136 • Septoplasty 137
• Septorhinoplasty 138 • Septal Hematoma 139 • Septal Abscess 139
• Perforation of the Nasal Septum 139

34. Acute Rhinitis **141**
• Etiology 141 • Pathology 141 • Nasal Diphtheria 141 • Other Causes of Rhinorrhea 142

35. Chronic Rhinitis **143**
• Chronic Hypertrophic Rhinitis 143 • Rhinitis Caseosa (Nasal Cholesteatoma) 143
• Atrophic Rhinitis (Ozena) 143 • Anthrax 144 • Xeroderma Pigmentosa 145
• Granulomatous Lesions of Nose 145 • Lupus Vulgaris of Nose 145 • Tuberculosis of the Nose 146
• Syphilis of the Nose 146 • Leprosy 146 • Rhinosporidiosis 146 • Rhinoscleroma 147
• Midline Nasal Granulomas 147

36. Nasal Allergy, Vasomotor Rhinitis and Nasal Polyposis **149**
• Nasal Allergy 149 • Vasomotor Rhinitis 150 • Nasal Polyposis 150

37. Rhinosinusitis **154**
Imtiaz Majid Qazi
• Acute Rhinosinusitis 154 • Chronic Rhinosinusitis 156 • Cysts in the Maxillary Region 165

38. Tumors of the Nose and Paranasal Sinuses **168**
• Tumors of the Nasal Cavity 168 • Tumors of the Paranasal Sinuses 170

39. Headache **175**
• Classification of Headache 175

40. Facial Neuralgia (Pain in the Face) **177**

MCQs on Nose **179**

Section 3: THROAT

41. Oral Cavity and Pharynx **187**
• Anatomy and Physiology of the Pharynx 187 • Soft Palate 188 • Physiology of the Pharynx 189 • Deglutition 189

42. Common Symptoms of Oropharyngeal Diseases and the Method of Examination **191**
• Common Symptoms of Oropharyngeal Diseases 191 • Method of Examination of the Oral Cavity and Pharynx 192

43. Common Diseases of the Buccal Cavity **193**
• Stomatitis 193 • Cysts of Mouth 195 • Carcinoma of the Tongue 196 • Ludwig's Angina 196 • Tumors of the Oral Cavity 196 • Ameloblastoma (Adamantinoma) 198

44. Evaluation and Management of the Patient with a Neck Mass **199**
Khalid H Al-Qahtani
• Anatomical Considerations 199 • Branchial Apparatus and its Abnormalities 199
• Neck Masses 203 • Management of Metastatic Cervical Nodes 203 • Diagnostic Work-up 203
• Tumors of the Parapharyngeal Space 204 • Salivary Gland Tumors 204 • Neurogenic Tumors 205 • Other Neurogenic Tumors 206 • Hemangioma 206 • Teratoma 208

45. Salivary Glands **209**
• General Epidemiology 209 • Parotid Gland 209 • Submandibular Glands 213
• Sialography 213

46. Pharyngitis **214**
• Acute Pharyngitis 214 • Membranous Pharyngitis 214 • Chronic Pharyngitis 215
• Keratosis Pharynges 215 • Specific Infections of the Pharynx 216
• Stenosis of the Pharynx 216

47. Tonsillitis **217**
• Acute Tonsillitis 217 • Chronic Tonsillitis 218 • Acute Lingual Tonsillitis 218
• Chronic Lingual Tonsillitis 218 • Tonsillectomy 218 • Peritonsillar Abscess (Quinsy, Paratonsillar Abscess) 220

48. Adenoids **222**
• Clinical Features 222 • Complications of Adenoids 222 • Treatment 222

49. Pharyngeal Abscess **224**
• Retropharyngeal Space 224 • Parapharyngeal Space 224 • Acute Retropharyngeal Abscess 224
• Chronic Retropharyngeal Abscess 225 • Parapharyngeal Abscess 225

50. Tumors of the Pharynx **226**
• Tumors of the Nasopharynx 226 • Nasopharyngeal Angiofibroma 226 • Tumors of the Oropharynx 228 • Tumors of the Hypopharynx 229 • Plummer-Vinson or Paterson-Brown-Kelly Syndrome 231

51. Miscellaneous Conditions of the Throat **232**
• Globus Hystericus (Globus Pharynges) 232 • Palatal and Pharyngeal Palsy 232 • Pharyngeal Spasm 232 • Pharyngeal Pouch 233 • Trismus (Lock Jaw) 233 • Cleft Palate 233
• Elongated Styloid Process (Stylalgia) 234

52. Development of Larynx and Tracheobronchial Tree **235**
• Development of Larynx and Tracheobronchial Tree 235 • Larynx 235
• Tracheobronchial Tree 238

53. Physiology of the Larynx **240**
• Phonation 240

54. Common Symptoms of Laryngeal Diseases **241**
• Changes of Voice 241 • Stridor and Dyspnea 241 • Weak Cry 241 • Cough 241
• Dysphagia and Odynophagia 241

55. Examination of the Larynx **242**
• External Palpation 242 • Indirect Laryngoscopy 242 • Direct Laryngoscopy 243
• Stroboscopy 245 • Radiography of the Larynx 245 • Fiberoptic Laryngoscopy 245
• Examination of the Larynx Under Microscope (Microlaryngoscopy) 246

56. Stridor **247**
• Laryngomalacia 247 • Acute Laryngotracheobronchitis 248 • Acute Epiglottitis (Acute Obstructive Supraglottic Laryngitis) 249 • Diphtheria 249

57. Acute Laryngitis **251**
• Predisposing Factors 251 • Pathology 251 • Clinical Features 251 • Treatment 251
• Acute Laryngitis in Children 251

58. Chronic Laryngitis **253**
• Pathology 253 • Clinical Features 253 • Reinke's Edema 253 • Vocal Nodules 253
• Vocal Cord Polyp 254 • Contact Ulcer 254 • Hyperkeratosis and Leukoplakia 255
• Atrophic Laryngitis 255 • Tuberculosis of the Larynx 255 • Laryngeal Lupus 255

59. Laryngeal Trauma **256**
• Pathology 256 • Clinical Features 256 • Treatment 256 • Laryngeal Stenosis 256

60. Laryngocele **257**
• Types 257 • Symptoms 257

61. Edema of the Larynx **258**
• Etiology 258 • Angioneurotic Edema (Quincke's Edema) 258 • Airway Obstruction in Children and Adults 259 • Laryngeal Spasms 260

62. Foreign Body in the Larynx and Tracheobronchial Tree **261**
• Foreign Bodies in the Larynx 261 • Foreign Bodies in the Trachea 261 • Foreign Bodies in the Bronchus 261

63. Laryngeal Paralysis **263**
• Etiology of Laryngeal Paralysis 263 • Laryngeal Paralysis in Association with other Cranial Nerve Dysfunction 264 • Cricoarytenoid Joint Arthritis 265 • Fixed and Paralyzed Cord 265

64. Tracheostomy **266**
• Anatomical Relations of Trachea 266

65. Disorders of Voice **270**
• Functional Aphonia 270 • Dysphonia Plicae Ventricularis (Ventricular Band Voice) 270
• Myasthenia of the Larynx (Phonasthenia) 270 • Mogiphonia 270 • Puberphonia (Mutational False to Voice) 270

66. Tumors of the Larynx **272**
• Benign Tumors of the Larynx 272 • Malignant Tumors of the Larynx 273 • Partial CO_2 Laser Cordectomy 276 • Total Cordectomy 276 • Hemilaryngectomy 276 • Extended Partial Laryngectomies 276 • Organ Preservation Therapy 277 • Alaryngeal Communication 277 • Phonosurgery 277

67. Block Dissection of the Neck **282**
• Radical Neck Dissection 282 • Modified Radical Dissection 282 • Selective Neck Dissection 282 • Extended Radical Neck Dissection 282

68. Thyroid **285**
Saleh F AlDhahri
• Enlargement of Thyroid Gland 285 • Nodular Goiter 285 • Retrosternal Goiter 285
• Hashimoto's Thyroiditis 286 • Thyroid Neoplasms 286 • Treatment Policy 288

69 Bronchoscopy **289**
• Indications 289 • Contraindications for Bronchoscopy 289

70. Esophagus **291**
• Surgical Anatomy 291 • Investigations for an Esophageal Disease 291

71. Common Esophageal Diseases in ENT Practice **293**
• Congenital Abnormalities of the Esophagus 293 • Injuries to the Esophagus 293
• Benign Strictures of the Esophagus 294 • Esophagiectasia (Cardiospasm) 294
• Foreign Bodies in the Upper Food Passages 295 • Neoplasms of the Esophagus 296

72. Esophagoscopy **299**

73. Laser Surgery in ENT **300**
Khalid H Al-Qahtani
• Principles of Laser Surgery 300 • Advantages of Laser Use in Laryngeal Cancer Surgery 301

74. Principles of Radiotherapy **303**
Abdullah S AlAmro
• Radiobiology 303

75. Chemotherapy for Head and Neck Cancer **308**
• Roles in Management of Head and Neck Cancer 308 • Chemo Agents Commonly Used 308

76. Syndromes in Otorhinolaryngology **309**
• Syndrome in ENT 309

77. Otolaryngologic Concerns in the Syndromal Child **323**
• Airway 323 • Hearing Loss 323 • Speech Disorders 324 • Down Syndrome 324
• Velocardiofacial Syndrome 324 • Branchio-otorenal Syndrome 325 • Treacher Collins Syndrome 326 • Apert and Crouzon Syndromes 326 • Pierre-Robin Sequence 327
• Charge Association 327

78. Head and Neck Cancer Staging **329**
• Rules of the AJCC-UICC System 329 • Future of Staging Strengths of the Current System 331
• Biologic Markers 331 • The Future 331

79 Histopathology of Common Head and Neck Lesions **332**
Bilal A Raja
• Thyroid Lesions 332 • Ear Lesions 333 • Salivary Gland Lesions 335
• Laryngeal Lesions 337 • Oral Lesions 338

80. Common ENT Instruments **339**

MCQs on Throat and Larynx **347**

Index **353**
