# CONTENTS

**Chapter 1.**
**Introduction to Human Neuroanatomy** **1**
- Principles of Functions of Nervous System 1

**Chapter 2.**
**Nervous System in Brief** **20**
- Central Nervous System 20
- Brainstem 26
- Cerebellum 28
- Peripheral Nervous System 35

**Chapter 3.**
**Peripheral End Organs** **44**
- Receptors 44
- Receptors – Other Ways of Classification 51
- Motor End Organs (Effectors) 51
- Motor Unit 53
- Nerve Ending Related to Exocrine Gland Acini 56

**Chapter 4.**
**Spinal Cord** **57**
- Definition and Situation 57
- Role of Spinal Cord as a Part of Central Nervous System 57
- Extent 57
- Important Notes in Connection with Termination 57
- Parameters of Spinal Cord 57
- Regional Classification of Spinal Cord Segments 58
- Exit of Spinal Nerves from Vertebral Foramen 59
- Correlation of Spinal Cord Segments with Vertebral Level 60
- Enlargement 60
- Surface Features 60
- Coverings (Meninges) and Spaces Around the Spinal Cord 61
- Internal Structure of Spinal Cord 63
- Formation of Different Zones of Spinal Cord 64
- Formation of Different Functional Cell Groups 65
- Peripheral Outflow of Spinal Cord 66
- Internal Structure of Spinal Cord 66
- Internal Structure of Spinal Gray Matter 69
- Various Cell Groups of Spinal Gray Matter 69
- Cell Groups in Posterior Gray Column 69
- Cell Groups in Intermediate Area of Spinal Gray Matter 70
- Cell Groups in Anterior Gray Column 70
- Cell Groups Around Central Canal 71
- Rexed's Lamination of Spinal Gray Matter 71
- Internal Structure of Spinal White Matter 72
- Rubrospinal Tract 80
- Tectospinal Tract 81
- Vestibulospinal Tracts 82
- Reticulospinal Tract 83
- Olivospinal Tract 83
- Hypothalamospinal Tract 83
- Solitariospinal Tract 83

**Chapter 5.**
**Brainstem** **94**
- Medulla Oblongata 124
- Pons 125
- Midbrain 126
- Traumatic Lesion 126

**Chapter 6.**
**Cerebellum** **128**
- Introduction 128
- Position and Relations 128
- Principle of Functions 129
- Gross Anatomy 129
- Primary Fissure and Lobes of Cerebellum 130
- Phylogenetic Classification of Cerebellum 131
- Internal Structure of Cerebellum 132
- Structural detail of Cerebellar Cortex 134
- Mechanism of Cerebellar Cortical Circuit 134
- White Matter of Cerebellum 135
- Nuclei of Cerebellum 135
- Relationship Between Cerebellar Nuclei and Mediolateral Subdivisions of Cerebellar Cortex 136
- Cerebellar Peduncles 136
- Impaired Function of Paleocerebellum 138
- Impaired Function of Neocerebellum 138

**Chapter 7.**
**Fourth Ventricle of Brain** **139**

**Chapter 8.**
**Cerebrum—Cortical Gray Matter** **144**
- Introduction 144
- Cerebral Hemispheres 145
- Medial Surface 153
- Tentorial Surface 155
- Orbital Surface 155
- Some Important Points about Cerebral Cortex 155
- Types of Neurons in Cerebral Cortex 155
- Layer of Cerebral Cortex 156
- Functional Areas of Cerebral Cortex 157
- Functional Areas in Frontal Lobe 157
- Functional Areas in Parietal Lobe 160
- Functional Areas in Occipital Lobe 161
- Functional Areas in Temporal Lobe 162

**Chapter 9.**
**Cerebrum— White Matter** **163**
- Classification 163
- Internal Capsule 172

**Chapter 10.**
**Basal Ganglia** **176**
- Chorea 183
- Ballismus 183
- Athetosis 183
- Parkinson Disease 183

**Chapter 11.**
**Lateral Ventricle of Brain** **185**

**Chapter 12.**
**Diencephalon** **192**
- Thalamus 193
- Metathalamus 198
- Epithalamus 200
- Paraventricular Nuclei of Epithalamus 202
- Habenular Nucleus and Habenular Commissure
  (Consult Figures of Commissure in Chapter of White Matter of Brain) 202
- Subthalamus 203

**Chapter 13.**
**Third Ventricle of Brain** **211**
- Tela Choroidea and Choroid Plexus 214

**Chapter 14.**
**Meninges of Brain and Cerebrospinal Fluid** **215**
- Dura Mater 215
- Arachnoid Mater 221
- Pia Mater 223
- Cerebrospinal Fluid 224

**Chapter 15.**
**Blood Supply of Brain and Spinal Cord** **228**
- Blood Supply of Brain 228
- Variations of Circle of Willis 232
- Cortical Branches Supplying Different Surfaces of Cerebral Hemisphere 234
- Venous Drainage of Brain 236
- Blood Supply of Spinal Cord 237
- Venous Drainage of Spinal Cord 239
- Blood-brain Barrier 240

**Chapter 16.**
**Reticular Formation** **245**

**Chapter 17.**
**Limbic System** **253**

**Chapter 18.**
**Autonomic Nervous System** **260**
- A component – Parallel to Somatic Nervous System 260
- Autonomic Nervous System and Endocrine system – Jointly Maintain Internal Environment of body 260
- Composition of Autonomic Nervous System 260
- Subdivision of Autonomic Nervous System – Sympathetic and Parasympathetic 261
- Sympathetic Part of Autonomic Nervous System 264
- Parasympathetic Part of Autonomic Nervous System 274
- Injuries to Autonomic Nervous System 282
- Diseases Involving Autonomic Nervous System 283
- Combined Sympathetic and Parasympathetic Lesion Causing Urinary Bladder Dysfunction in Spinal Cord Injury 284
- Disrupted Motor Functions of Bladder 284
- Visceral Pain 285
- Stomach Pain 286
- Appendicular Pain 286
- Renal Pain 286
- Ureteric Pain 287

**Chapter 19.**
**Cranial Nerves** **288**

- Olfactory Nerve and Olfactory Pathway 288
- Optic Nerve and Visual Pathway 291
- Optic Nerve 293
- Optic Chiasma 293
- Optic Tract 293
- Lateral Geniculate Body (Third of Neurons) 294
- Macular Vision 294
- Clinical Examination of Retina 296
- Detachment of Retina 297
- Various Kinds of Loss of Visual Field 297
- Argyll Robertson Pupil 298
- Cranial Nerves — Arising From Brainstem 299
- Oculomotor Nerve 299
- Postganglionic Branches of Ciliary Ganglion 302
- Roots of Communication to Ciliary Ganglion 303
- Trochlear Nerve 304
- Trigeminal Nerve 305
- Ophthalmic Nerve 308
- Maxillary Nerve 311
- Sphenopalatine Ganglion 312
- Mandibular Nerve 313
- Lingual Nerve 315
- Inferior Alveolar Nerve 315
- Auriculotemporal Nerve 316
- Abducent Nerve 317
- Facial Nerve 319
- Vestibulocochlear Nerve 326
- Vestibular Pathways 326
- Cochlear Component of Vestibulocochlear Nerve 330
- Last Four Cranial Nerves 334
- Glossopharyngeal Nerve 334
- Vagus Nerve 337
- Accessory Nerve 343
- Hypoglossal Nerve 347
