Contents

SECTION 1 Introduction

1. Overview of Tropical Diseases of Central Nervous System 3
Kashi N Prasad, Manodeep Sen

Bacterial Infections 3 • Viral Infections 5 • Parasitic Infections 7 • Fungal Infections 10 • Noninfective Conditions in Tropics 11 • Toxins and Poisoning 11 • Nonmultiple Sclerosis Demyelination 12 • Nutritional Imaging Manifestations in CNS 12 • Hirayama Disease 12 • Parainfectious Myelitis 13 • Imaging in Epilepsy 13

2. Epidemiology of Tropical Diseases Involving Central Nervous System 16
Chandra M Pandey

Amebiasis 16 • Japanese Encephalitis 17 • Neurocysticercosis 17 • Malaria 18 • Meningitis 18 • Toxocariasis 19 • Toxoplasmosis 20 • Tropical Spastic Paraparesis 20 • Tuberculosis 21

SECTION 2 Magnetic Resonance Technique

3. Magnetic Resonance Imaging Principles 25
Loyola D'Silva, Bhaskaran David Prakash, Nikita Agarwal, Terry Yew, S Sendhil Velan

Basic Principles of (Nuclear) Magnetic Resonance 25 • Overview of Instrumentation 31 • Magnetic Resonance Imaging System—Basic Setup 32 • Imaging Techniques 35

4. Magnetization Transfer Imaging and Its Clinical Applications 41
Richa Trivedi, Rakesh K Gupta

Physical Basis of Magnetization Transfer 41 • Applications of Magnetization Transfer in Neurosciences 42

5. Basic Principles of Magnetic Resonance Spectroscopy 52
Rajakumar Nagarajan, Manoj K Sarma, M Albert Thomas

Magnetic Resonance Spectroscopy Localization 52 • Comparison of Chemical Shift Imaging and Single Voxel Spectroscopy Technique 55

6. Diffusion Imaging—Basic Principles 58
Yuxiang Zhou, Getaneh Bayu Tefera, Ponnada A Narayana

Basics of Diffusion 58 • Diffusion Measurements with Magnetic Resonance 59 • Diffusion-weighted Imaging 62 • Diffusion Tensor Imaging 64 • Beyond Diffusion Tensor Imaging 70 • Diffusion Magnetic Resonance Imaging Pulse Sequence 72 • Artifacts 74

7. Basic Principles and Clinical Applications of Functional Magnetic Resonance Imaging **80**
C Kesavadas

Biophysical Basis of Bold Functional Magnetic Resonance Imaging 80 • Data Acquisition 80 • Design of Functional Magnetic Resonance Imaging Experiments 81 • Functional Magnetic Resonance Imaging Set-up 81 • Functional Magnetic Resonance Imaging Paradigms 81 • Data Analysis 82 • Clinical Applications 83

8. Postprocessing Tools for Magnetic Resonance Quantification **89**
RKS Rathore, Rakesh K Gupta

First-pass Analysis 106

SECTION 3 Infections in Tropics

9. Tuberculosis **121**
Rakesh K Gupta, Avik Bhattacharyya

Pathophysiology 121 • Clinical Features 122 • Cranial Tuberculosis 122 • Spinal 132 • Therapeutic Response Assessment 138

10. Brain Abscess **141**
Avik Bhattacharyya, Rakesh K Gupta

Pathogenesis 141 • Clinical Features 142 • Imaging 142 • Differential Diagnosis 148 • Treatment and Follow-up 151

11. Nontubercular Bacterial Infections **155**
Rakesh K Gupta, Avik Bhattacharyya

Pyogenic Meningitis 155 • Other Central Nervous System Bacterial Infections 161 • Pyogenic Infections of the Spine 163 • Nontuberculous Bacterial Granulomatous Infections 169

12. Viral Infections **178**
Neetu Soni, Rakesh K Gupta

Herpes Encephalitis 178 • Arthropod-borne Viral Encephalitis 182 • Lyssavirus Encephalitis (Rabies) 186 • Measles Encephalitis 187 • Nipah Encephalitis 188 • Mumps Encephalitis 188 • Enteroviral Encephalitis 188 • Human Parechoviruses Encephalitis 189 • Chikungunya Encephalo-myeloradiculitis 189 • Hantavirus 190 • Adenoviruses 190 • Rotavirus Encephalitis 190 • Prions Protein Disease 191 • Swine Influenza 192

13. Human Immunodeficiency Virus and Related Conditions **198**
CC Tchoyoson Lim

Introduction to CNS Complications of HIV Infection 198 • Human Immunodeficiency Virus Infection in the Tropics 198 • Opportunistic CNS Infections in HIV Infection 198 • Other CNS Manifestations of HIV Infection 200 • Special Considerations in Clinical Neuroimaging of HIV Patients in the Tropics 202

14. Fungal Infections **206**
Avik Bhattacharyya, Rakesh K Gupta
Pathophysiology 206 • Cranial Infection 207 • Spinal Infections 217

15. Neurocysticercosis **222**
Sanjeev Chawla, Avik Bhattacharyya, Rakesh K Gupta
Parenchymal Neurocysticercosis 222 • Advanced Magnetic Resonance Imaging Techniques 225 • Intraventricular Neurocysticercosis 231 • Subarachnoid Neurocysticercosis 232 • Spinal Cysticercosis 233

16. Parasitic Diseases **237**
Avik Bhattacharyya, Rakesh K Gupta
Paragonimiasis 237 • Sparganosis 238 • Echinococcosis 240 • Amoebic Brain Abscess 241 • Cerebral Malaria 243 • Miscellaneous Parasitic Infections 244

SECTION 4 Noninfective Conditions in Tropics

17. Stroke in Tropics **251**
Jayant Narang, Rajan Jain
Epidemiology of Stroke in Tropics 251 • Infectious Causes of Stroke in Tropics 252 • Noninfectious Causes of Stroke in Tropics 257 • Imaging Evaluation of Acute Stroke 259 • Role of Advanced Neuroimaging Techniques in Infectious Stroke 265

18. Neuroimaging in Toxins and Poisoning **267**
Niranjan Khandelwal, Chirag Kamal Ahuja, Vivek Gupta
Clinical Symptomatology 267 • Recreational Drug Abuse 268 • Therapeutic Drugs 273 • Metabolic 275 • Occupational and Environmental Toxins 276 • Biological Toxins 278

19. Nonmultiple Sclerosis Demyelinating Diseases **281**
Ajay Garg
Devic's Neuromyelitis Optica 281 • Baló's Concentric Sclerosis 283 • Acute Disseminated Encephalomyelitis 284 • Schilder's Disease 287 • Marburg Disease 289

20. Hirayama Disease **292**
Sunil Pradhan, Vimal Kumar Paliwal, Rakesh K Gupta
Clinical Features 292 • Electrophysiology 293 • Spinal Cord Imaging 293 • Muscle Biopsy 294 • Etiopathogenesis and Pathology 294 • Diagnosis 295 • Symmetrical Hirayama Disease 295 • Treatment 295 • Prognosis and Disability 295

21. Acute Transverse Myelopathy **297**
Sunil Pradhan, Vimal Kumar Paliwal, Gaurav Goyal, Rakesh K Gupta
Demyelinating Myelopathy 297 • Vascular Myelopathy 302 • Infectious Myelopathy 302 • Paraneoplastic Myelopathy 303 • Mimics of Acute Transverse Myelopathy 303

22. Imaging in Epilepsy **305**
Ravindra K Garg, Manish K Sinha

Aims and Rationale of Neuroimaging 305 • Indications of Neuroimaging in Epilepsy 305 • Imaging Techniques Employed 306 • Imaging in Idiopathic Generalized Epilepsy 310 • Imaging in Symptomatic Partial Epilepsy 312 • Imaging in CNS Infections 315 • Imaging in Status Epilepticus 320 • Limitations of Neuroimaging 320 • Role of Neuroimaging in Understanding of Epileptogenesis 321 • Role on Neuroimaging in Epilepsy Surgery 321

23. Ring Enhancing Lesions—A Diagnostic Approach **325**
Sunil Kumar, Rakesh K Gupta, Avik Bhattacharyya, Deb K Boruah

Magnetic Resonance Techniques 325 • Causes of Ring Enhancing Lesions 326 • Algorithm 332
