Contents

1. What's New in Spine **1**

D Greg Anderson, Alex Johnson

- Tubular Decompression for Lumbar Stenosis and Herniated Lumbar Disc Disease 1
- Minimally Invasive Transforaminal Lumbar Interbody Fusion 3
- Lateral Interbody Fusion 5
- Percutaneous Pedicle Screw Instrumentation 7

2. What's New in Hip Joint Preservation Surgery **11**

Frank R Avilucea, Christopher E Pelt, Jill Erickson, Christopher L Peters

- Pediatric Disease Sequelae 11
- Femoroacetabular Impingement 17
- Dysplasia 26

3. What's New in Total Hip Arthroplasty **34**

Harlan Levine

4. What's New in Knee Arthroplasty **48**

Carl Deirmengian, Jess H Lonner

- Improving the Patient's Surgical Experience 49
- Implant Performance 54
- Facilitating the Surgeon's Abilities 57

5. What's New in Sports Medicine **64**

Frank G Alberta, Michael A Kelly

- Knee 65
- Shoulder 72
- Elbow 78

6. Recent Advances in Shoulder and Elbow Surgery **85**

Charles L Getz

- Shoulder Arthroplasty 85
- Reverse Shoulder Arthroplasty 86
- Infection 87
- Rotator Cuff 88
- Instability 89
- Arthroscopy 90
- Fractures 90

- Acromioclavicular Joint 91
- Elbow 92

7. What's New in Foot and Ankle 96

David I Pedowitz, Boleslaw Czachor

- Tendinopathy/Instability 96
- Arthroscopy/OCD 102
- Ankle Arthritis 105
- Forefoot, Trauma, Miscellaneous 107

8. What's New in Hand and Wrist 116

Kevin Lutsky, Asif Ilyas, Jonas L Matzon, Pedro K Beredjiklian

- Trauma 116
- Nerve 120
- Kienbock Disease 122
- Antibiotics 123
- Scapholunate Reconstruction 123
- Tendon 123
- Ulnar Sided Wrist Pain 126
- Trapeziometacarpal Arthritis 127
- Dupuytren's Disease 128

9. What's New in Orthopedic Oncology 132

Benjamin E Bluth, Susan V Bukata

- Giant Cell Tumor of Bone 132
- Osteosarcoma 134
- Unicameral Bone Cyst 138

10. What's New in Trauma 145

Kenneth R Gundle, James C Krieg

- Upper Extremity 146
- Pelvis 148
- Lower extremity 151

11. What's New in Pediatric Orthopedics 165

David A Podeszwa, Brandon A Ramo, Rebecca Clinton, Henry B Ellis Jr, Lawson A Copley, David W Roberts

- Pediatric and Adolescent Hip Disorders 165
- Pediatric Trauma 170
- Pediatric Musculoskeletal Infection 176

12. What's New in Orthopedics: European Perspective 186

Henry Budd, Chris Lawrence, Vikas Khanduja

- Upper Limb Surgery 186
- Lower Limb Adult Reconstruction 192

- Sports Knee Surgery 195
- Foot and Ankle Surgery 196
- Lower Limb Trauma Surgery 197
- Spinal Surgery 198

13. What's New in Orthopedics: Asian Perspective—Hip 202

Tetsuya Jinno, Kazuyoshi Yagishita

- Hip Diseases in Japan and Other Asian Countries 202
- Joint-Preserving Surgeries for Dysplastic Hips 203
- Total Hip Arthroplasty 207
- Patient-Based Assessment of Hip Joint Function 211

14. What's New in Orthopedics: Asian Perspective—Knee 215

Kazuyoshi Yagishita, Tetsuya Jinno

- Osteometry of Knee Joint in Asian Population 215
- Total Knee Arthroplasty for Asian Patients 216

15. What's New in Total Knee Arthroplasty: South American Perspective 221

David Figueroa, Rafael Martínez, Maria Jesus Tuca

- Epidemiology 221
- Modularity 222
- Compartmentalization 222
- High-Flexion Designs 225
- Surgical Approaches and MIS 226
- Fixation 227
- Image Guidance 228
- Posterior Cruciate Ligament 228
- All-Poly Components 229
- Gender Designed 230
- Crosslinked Polyethylene 230

16. What's New in Hip Arthroplasty: South American Perspective 234

Claudio Mella, Claudio Diaz-Ledezma

- Preoperative Optimization and Risk Stratification: Avoiding Catastrophic Problems 234
- Implant Selection: What's In and What's Out 236
- Bearing Couples: Is Metal-On-Metal Over? 237
- Trunionosis: A Real Problem 237
- Tranexamic Acid (TXA): An Indispensable Ally 237
- Thromboprophylaxis: Green Light for Aspirin 238
- Local Infiltration Analgesia during the Postoperative Period: The Facts 238
- Dual-Mobility Cups (MDM): A Real Deal? 239
- Uncemented Femoral Revisions: When and Why? 239

- Acetabular Revision: What if We Don't Have Metal Augments? 239
- Infections: A Common Target Plus New Guidelines to Decrease Variability in Management 240
- Intracapsular Displaced Fractures in the Healthy Elderly: THA Versus Hemiarthroplasty 240

17. Recent Advances in the Basic Orthopedic Sciences: Osteoarthritis, Infection, Degenerative Disc Disease, Tendon Repair, and Inherited Skeletal Diseases 245

George Feldman, Andrzej Fertala, Theresa Freeman, Noreen J Hickok, Rowena McBeath, Makarand V Risbud, Irving M Shapiro

- The Importance of Subchondral Bone in the Pathogenesis of Osteoarthritis 245
- Impact of Genetics on the Diagnosis of OA 249
- Degenerative Disc Disease: New Insights into Disease Pathogenesis and Radicular Pain 253
- Control of Infection in Orthopedic Surgery 256
- Cellular Responses to Mutations in Collagens that Form Skeletal Tissues 258
- Mechanical Forces and Growth Factor Signaling in Tenogenesis 261
