Contents

Section 1: Human Eye

1.1. Introduction to Human Eye 3
Human Eye 3
1.2. Anatomy of Eye 4
Eyeball 4
Appendages of Eye 7
Orbit 7
Visual Pathway 7
1.3. Embryology and Congenital Anomalies of Eyeball 9
Embryology of Eye 9
Congenital Anomalies of Eyeball 11
1.4. Physiology of Eye and Vision 15
Physiology of Eye 15
Physiology of Vision 16

Section 2: Eyelids

2.1. Anatomy of Eyelids 23
Functions of Eyelids 23
Surface Anatomy 23
Gross Anatomy 24
Glands of Eyelids 25
Muscles of Eyelids 25
Retractors of Eyelids 26
2.2. Congenital Anomalies of the Eyelid 27
Embryology 27
Cryptophthalmos 27
Congenital Lid Coloboma 27
Epicanthus 28
Telecanthus 28
Blepharophimosis 28
Euryblepharon 28
Epiblepharon 29
Distichiasis 29
2.3. Diseases of Eyelid Margin and Eyelashes 30
Trichiasis 30
Entropion 31
Ectropion 33
Symblepharon 35
Ankyloblepharon 35

Madarosis 36
Hypertrichosis and Trichomegaly 37
Poliosis 37
2.4. Inflammations and Infections of Eyelids 39
Stye (Hordeolum Externum) 39
Chalazion 40
Internal Hordeolum 42
Blepharitis 43
Edema of the Eyelids 46
Viral Infections of Eyelids 47
2.5. Diseases of Eyelid Position and Movement 49
Blepharoptosis/Ptosis 49
Congenital Ptosis 50
Acquired Ptosis 52
Pseudoptosis 54
Lid Retraction 54
Blepharochalasis 55
Dermatochalasis 55
Floppy Eyelid Syndrome 56
Eyelid Imbrication Syndrome 56
Blepharospasm 56
Lagophthalmos 57
Facial Nerve Paralysis 58
2.6. Tumors of Eyelids 60
Benign Tumors of Eyelid 60
Malignant Tumors of Eyelid 65
Predisposing Conditions for Malignant Tumors of Eyelid 68

Section 3: Conjunctiva

3.1. Anatomy of Conjunctiva 75
Functions of Conjunctiva 75
Gross Anatomy 75
Histology 75
Glands of Conjunctiva 76
3.2. Symptomatology of Conjunctiva 77
Hyperemia 77
Ecchymosis (Subconjunctival Hemorrhage) 77
Chemosis 78
3.3. Congenital Anomalies of Conjunctiva 81
Embryology 81
Congenital Anomalies 81
3.4. Inflammatory Diseases of Conjunctiva 83
Conjunctivitis 83
Bacterial Conjunctivitis **83**
Etiopathogenesis 83
Classification 84

Viral Conjunctivitis ***95***
Etiology 95
Classification 95
Chlamydial Conjunctivitis ***97***
Chlamydia 97
Classification 98
Follicular Conjunctivitis 103
Allergic Conjunctivitis ***104***
Etiopathogenesis 104
Classification 105
3.5. Degenerative Diseases of Conjunctiva 114
Pterygium 114
Pinguecula 118
Concretions 119
3.6. Tumors of Conjunctiva 121
Cysts of Conjunctiva 121
Benign Tumors of Conjunctiva 121
Malignant Tumors of Conjunctiva 122

Section 4: Optics and Refraction

4.1. Optics of Human Eye 129
Optics 129
Lens 130
Optics of Human Eye 131
4.2. Techniques of Refraction 133
Types of Refraction ***133***
Techniques of Objective Refraction 133
Techniques of Subjective Refraction 136
4.3. Refractive Errors 137
Emmetropia 137
Ametropia ***137***
Myopia 138
Hypermetropia 144
Astigmatism 147
Anisometropia 150
Aniseikonia 151
4.4. Accommodation and Anomalies of Accommodation 153
Accommodation 153
Presbyopia 155
4.5. Aphakia and Pseudophakia 157
Aphakia 157
Pseudophakia 159
4.6. Spectacles 161
Uses 161
Parts of Spectacles 161
Disadvantages of Spectacles 162

4.7. Contact Lenses 163
Optics of Contact Lens 163
Classification 163
Uses 164
Contraindications 164
Complications 164
Clinical Practice of Contact Lens (Prescription and Fitting) 164
4.8. Refractive Surgeries 166
Classification 166
Keratorefractive Surgeries 166
Intraocular Refractive Surgeries 169

Section 5: Cornea

5.1. Anatomy and Physiology of Cornea 177
Anatomy of Cornea 177
Physiology of Cornea 179
5.2. Congenital Anomalies of Cornea 180
Embryology of Cornea 180
Congenital Anomalies of Cornea 180
5.3. Inflammatory Diseases of Cornea 184
Keratitis 184
Ulcerative Keratitis 184
Infective Keratitis or Corneal Ulcer 185
Hypopyon Corneal Ulcer and Corneal Ulcer Associated with Hypopyon 192
Allergic Keratitis 202
Trophic Keratitis 202
Idiopathic Keratitis 204
Keratitis Associated with Systemic Diseases 206
Keratitis Associated with Diseases of Skin 206
Rheumatoid Arthritis-Associated Keratitis 208
Non-ulcerative Keratitis 208
5.4. Corneal Dystrophies, Corneal Degenerations and Ectatic Conditions of Cornea 214
Corneal Dystrophies 214
Ectatic Conditions of Cornea 217
Corneal Degenerations 220
5.5. Diseases Affecting Corneal Transparency 224
Corneal Edema 224
Corneal Vascularization or Neovascularization 225
Corneal Opacity 227
5.6. Eye Banking and Keratoplasty 230
Eye Banking 230
Eye Bank 230
Eye Donors 231

Eye Bank Association of India 232
Keratoplasty 232

Section 6: Sclera

6.1. Anatomy of Sclera 239
Gross Anatomy 239
Functions 239
Embryology 240
6.2. Inflammatory Diseases of Episclera and Sclera 241
Episcleritis 241
Scleritis 242
6.3. Staphyloma 246
Staphyloma 246
Blue Sclera 248

Section 7: Uvea

7.1. Anatomy of Uvea 253
Parts of Uvea 253
Blood Supply of Uvea 254
Functions of Uvea 254
7.2. Congenital Anomalies of Uvea 256
Embryology of Uvea 256
Congenital Anomalies of Uvea 256
7.3. Uveitis: Definition and Classification 260
Classification 260
Etiopathogenesis 261
Pathology of Uveitis 261
7.4. Anterior Uveitis 263
Symptoms 263
Signs 263
Anterior Chamber 264
Complications of Anterior Iridocyclitis 266
Differential Diagnosis 268
Treatment 270
Specific Clinical Types of Anterior Uveitis 271
7.5. Intermediate Uveitis and Posterior Uveitis 274
Intermediate Uveitis 274
Posterior Uveitis 275
***Specific Clinical Types of Posterior Uveitis* 276**
Infective Posterior Uveitis 276
Non-infective Posterior Uveitis 280
7.6. Panuveitis 282
Clinical Features 282
Investigations 282
Treatment 282
Specific Types of Panuveitis 282

7.7. Endophthalmitis and Panophthalmitis 287
Endophthalmitis 287
Panophthalmitis 289
7.8. Dystrophies and Degenerations of Uveal Tract 291
Iridocorneal Endothelial Syndrome 291
Gyrate Atrophy 292
Choroideremia 292
Angioid Streaks 292

Section 8: Lens

8.1. Anatomy and Physiology of Lens 297
Anatomy of Lens 297
8.2. Congenital Anomalies of Lens 299
Embryology 299
Congenital Anomalies of Lens 299
8.3. Cataract 302
Classification of Cataract 302
Congenital and Developmental Cataract 303
Senile Cataract 307
Presenile Cataract 312
Complicated Cataract 312
Diabetic Cataract 314
Drug-induced Cataract 315
Metabolic Cataract 315
Heat Cataract 316
Other Common Types of Cataracts 316
8.4. Cataract Surgeries 318
Indications for Cataract Surgery 318
Investigations Before Cataract Surgery 318
Calculation of Intraocular Lens Power 320
Anesthesia for Cataract Surgery 320
Different Techniques of Cataract Surgery 320
Recent Advances in Cataract Surgery 329
Postoperative Management after Cataract Surgery 329
Complications of Cataract Surgery 330
Intraocular Lenses 336
After Cataract 337
8.5. Lens-Induced Glaucoma 339
Etiopathogenesis 339
Clinical Types 340
Glaucoma Associated with Ectopia Lentis 341
Differences Between Various Types of Lens-induced Glaucoma 341
8.6. Ectopia Lentis 343
Etiology 343
Ectopia Lentis Associated with Systemic Conditions 343
Clinical Features 346
Treatment 346

Section 9: Glaucoma

9.1. Anatomy and Physiology of Glaucoma 351
Aqueous Humor 351
Anatomy of Angle of Anterior Chamber 352
Intraocular Pressure 354
Optic Disk 356
Visual Field 357
Retinal Nerve Fiber Layer Analysis 358
9.2. Introduction and Classification of Glaucoma 359
Classification of Glaucoma 359
9.3. Childhood Glaucoma 361
Primary Congenital Glaucoma 361
Examination of Children with Suspicion of Congenital Glaucoma 363
Developmental Glaucoma 364
Secondary Glaucoma 365
9.4. Primary Open-angle Glaucoma 367
Etiology 367
Pathogenesis 368
Clinical Features 368
Investigations 371
Differential Diagnosis 373
Treatment 373
Recent Advances in Treatment of Glaucoma 374
Normal-tension Glaucoma 375
Ocular Hypertension 376
9.5. Primary Angle-closure Glaucoma 377
Etiology 377
Pathogenesis 377
Classification (International Society of Geographical and Epidemiological Ophthalmology Classification) 378
Clinical Stages of Angle-closure Glaucoma 379
Differential Diagnosis 381
Investigations 381
Treatment 383
9.6. Secondary Glaucoma 386
Pigmentary Glaucoma 386
Pseudoexfoliation Glaucoma 387
Steroid-induced Glaucoma 388
Inflammatory Glaucoma 389
Lens-induced Glaucoma 390
Traumatic Glaucoma 390
Neovascular Glaucoma 391
Glaucoma Following Ocular Surgeries 392
Glaucoma Associated with Intraocular Tumors 394
Glaucoma Associated with Intraocular Hemorrhage 394
Glaucoma Associated with Elevated Episcleral Venous Pressure 395

Glaucoma Associated with Iridocorneal Endothelial Syndrome 395
Glaucoma Associated with Rhegmatogenous Retinal Detachment 395
9.7. Treatment Modalities of Glaucoma 397
Laser Treatment Modalities for Glaucoma 397
Surgical Treatment Modalities for Glaucoma 398

Section 10: Vitreous

10.1. Anatomy and Congenital Anomalies of Vitreous 407
Anatomy of Vitreous 407
Functions of Vitreous 407
Embryology of Vitreous 407
Persistent Hyperplastic Primary Vitreous 408
10.2. Diseases of Vitreous 409
Posterior Vitreous Detachment 409
Vitreous Hemorrhage 410
Vitreous Opacities 411

Section 11: Retina

11.1. Anatomy of Retina 419
Gross Anatomy 419
Microscopic Anatomy 420
Blood Supply of Retina 422
11.2. Congenital Anomalies of Retina 423
Embryology of Retina 423
Congenital Anomalies 423
11.3. Retinal Detachment 425
Types ***425***
Rhegmatogenous Retinal Detachment 425
Tractional Retinal Detachment 428
Exudative Retinal Detachment 429
11.4. Inflammatory Diseases of Retina 431
Retinitis 431
Retinal Vasculitis 431
Eales' Disease 432
11.5. Vascular Diseases of Retina 434
Retinal Circulation 434
Occlusive Diseases Affecting the Arterial Circulation ***434***
Central Retinal Artery Occlusion 434
Branch Retinal Artery Occlusion 437
Ophthalmic Artery Occlusion 438
Cilioretinal Artery Occlusion 438
Ocular Ischemic Syndrome 439

Occlusive Diseases Affecting the Venous Circulation ***440***
Central Retinal Vein Occlusion *440*
Hemiretinal Vein Occlusion *443*
Branch Retinal Vein Occlusion *443*
Tributary Retinal Vein Occlusion *445*
Combined Retinal Artery and Retinal Vein Occlusion ***445***
Diabetic Retinopathy *445*
Hypertensive Retinopathy *451*
Pregnancy-induced Hypertension Retinopathy *453*
Retinopathy in Hematological Diseases *454*
Coats' Disease *455*
Retinopathy of Prematurity *456*
Hard Exudates *458*
Soft Exudates or Cotton-wool Spots *459*
11.6. Retinal Dystrophies and Degenerations 461
Retinitis Pigmentosa *461*
Congenital Stationary Night Blindness *463*
Hereditary Dystrophies of Fundus and Macula *463*
Peripheral Retinal Degenerations *463*
11.7. Acquired Diseases of Macula 467
Age-related Macular Degeneration *467*
Macular Hole *470*
Central Serous Retinopathy *471*
Cystoid Macular Edema *473*
Photoretinitis *474*

Section 12: Optic Nerve

12.1. Anatomy of Optic Nerve 479
Anatomy of Optic Nerve *479*
12.2. Congenital Anomalies of Optic Nerve 481
Embryology of Optic Nerve *481*
Congenital Anomalies of Optic Nerve *481*
12.3. Optic Neuritis and Optic Neuropathies 485
Optic Neuritis *485*
Ischemic Optic Neuropathy *489*
Leber's Hereditary Optic Neuropathy *490*
Toxic and Nutritional Optic Neuropathies *491*
Traumatic Optic Neuropathy *493*
12.4. Papilledema 495
Etiology *495*
Pathogenesis *495*
Symptoms *496*
Signs *496*

Stages of Papilledema 497
Differential Diagnosis 498
Investigations 499
Treatment 499
12.5. Optic Atrophy **500**
Classification 500
Clinical Feature 502
Differential Diagnosis 502
Investigation 503
Treatment 503
12.6. Optic Nerve Tumors **504**
Primary Optic Nerve Tumor 504
Secondary Optic Nerve Tumor 505

Section 13: Lacrimal System

13.1. Anatomy of Lacrimal System **511**
Secretory Part 511
Drainage Part 512
Tear Film 513
13.2. Congenital Diseases of Lacrimal System **515**
Embryology of Lacrimal System 515
Congenital Anomalies of Lacrimal System 515
13.3. Inflammatory Diseases of Lacrimal System **519**
Dacryocystitis 519
Canaliculitis 524
Dacryoadenitis 525
13.4. Watery Eye **527**
Hyperlacrimation 527
Epiphora 527
Evaluation and Investigations 528
Treatment of Watering Eye 531
13.5. Dry Eye **532**
Risk Factors 532
Classification of Dry Eye 533
Pathogenesis of Dry Eye 533
Clinical Features 533
Investigations 534
Treatment 535
13.6. Tumors of Lacrimal System **537**
Tumors of Lacrimal Gland 537
Tumors of Lacrimal Drainage System 537

Section 14: Orbit

14.1. Anatomy of Orbit **543**
Function of Orbit 543
Gross Anatomy 543

14.2. Congenital Anomalies of Orbit 546
Embryology 546
Congenital Anomalies of Orbit 546
14.3. Inflammatory Diseases of Orbit 550
Orbital Inflammations 550
14.4. Proptosis 558
Eye Proptosis 558
Pseudoproptosis 561
14.5. Thyroid Eye Diseases 562
Etiopathogenesis 562
Clinical Features 562
Complications 563
Investigations 564
Treatment 564
14.6. Orbital Trauma 565
Orbital Contusion 565
Orbital Hemorrhage 565
Orbital Fractures 566
Intraorbital Foreign Body 568
14.7. Cysts and Tumors of Orbit 570
Cysts of Orbit 570
Tumors of Orbit 570

Section 15: Strabismus

15.1. Anatomy and Physiology of Ocular Movements 577
Anatomy of Extraocular Muscles ***577***
Rectus Muscles 577
Oblique Muscles 578
Actions of Extraocular Muscles ***578***
Ocular Movements 579
Positions of Gaze 579
Laws of Ocular Movements 580
15.2. Binocular Single Vision 583
Development of Binocular Single Vision 583
Grades of Binocular Single Vision 583
Anomalies of Binocular Single Vision 583
15.3. Strabismus 586
Classification ***586***
Latent Strabismus/Heterophoria 586
Manifest Strabismus/Heterotropia 588
15.4. Nystagmus 595
Etiopathogenesis 595
Classification 595
Evaluation of a Patient with Nystagmus 597
Treatment 597
Nystagmoid Movements 597

Section 16: Neurophthalmology

16.1. Diseases of Visual Pathway 601
Visual Pathway 601
Visual Field 601
Pupil and Pupillary Abnormalities 602
Diseases of Optic Nerve 604
Chiasmal and Retrochiasmal Diseases 604
Amaurosis Fugax 605
16.2. Diseases of Ocular Motility 606
Cranial Nerve III 606
Cranial Nerve IV 608
Cranial Nerve VI 609

Section 17: Intraocular Tumors

17.1. Uveal Tumors 615
Malignant Melanoma 615
17.2. Retinal Tumors 618
Retinoblastoma 618
Retinal Astrocytoma 623
Retinal Hemangiomas 623

Section 18: Ocular Trauma

18.1. Mechanical Injuries 629
Causes for Mechanical Injuries 629
Classification of Ocular Trauma 629
Blunt Ocular Injury 630
Laceration/Penetrating/Perforating Ocular Injury 636
Extraocular and Intraocular Foreign Bodies 636
Radiational Injuries 638
Electrical Injuries 639
Thermal Injuries 639
18.2. Chemical Injuries 640
Etiopathogenesis 640
Clinical Features 641
Clinical Course of Chemical Burns 641
Treatment of Chemical Burns 642
18.3. Specific Inflammations Following Ocular Trauma 643
Sympathetic Ophthalmitis 643
Siderosis Bulbi 643
Chalcosis Bulbi 644

Section 19: Community Ophthalmology

19.1. Community Ophthalmology and Blindness 649
Blindness 649
19.2. Nutritional Blindness and Childhood Blindness 654
Nutritional Blindness 654
Childhood Blindness 655

Section 20: Systemic Ophthalmology

20.1. Systemic Ophthalmology 661
Metabolic Diseases 661
Infective Diseases 662
Diseases of the Skin and Mucous Membranes 663
Diseases of the Central Nervous System 663
Hematological Diseases 664
Vascular Diseases 664
Nutritional Diseases 664
Inborn Errors of Metabolism 664
Diseases of Musculoskeletal System 664
Collagen Vascular Diseases/Autoimmune Diseases 664
Traumatic Disorders 665

Section 21: Ocular Pharmacology and Ocular Therapeutics

21.1. Ocular Pharmacology 669
Routes of Administration of Drugs 669
21.2. Ocular Therapeutics 671
Lasers in Ophthalmology 671
Cryotherapy in Ophthalmology 672
Antivascular Endothelial Growth Factors in Ophthalmology 672
Antimetabolites in Ophthalmology 673
Drugs Used in Ophthalmology 674

Section 22: Ocular Microbiology

22.1. Ocular Microbiology 679
Normal Flora of the Eye 679
Ocular Infections 680
Microbiological Investigations in Ophthalmology 683

Index 685

How to use the book?

Dear Readers...

I have made my sincere efforts to make reading of this book enjoyable by including few special characters. The few highlights of the book are as below.

This indicates Important Notes. This needs to be remembered as this will be asked most frequently in the theory, clinical and postgraduate entrance examination.

This indicates Interesting Facts. This is important from the point of view of clinical and postgraduate entrance examination.

This indicates you need to refer this topic in another chapter.

*One star indicates Frequently Asked Question for short answer.

**Two star indicates Frequently Asked Question for short essay.

***Three star indicates Frequently Asked Question for long essay.

I hope you will find these useful while reading.

Wishing you a happy reading.....

Dadapeer K
