Contents

SECTION 1: BASIC PRINCIPLES

1. Philosophy of Family Medicine **3**

2. Scope of Family Medicine **8**
- *Three Facets of Family Practice 8*
- *Matrix of Family Practice 9*
- *Proactive Role of Family Physician 10*

3. Family Medicine: The Rising Discipline **12**
- *History 12*
- *Age of Specialization 14*
- *Revival of Family Medicine 15*
- *Future 17*
- *Family Medicine—Need of the Hour 20*

4. Definitions **22**
- *General Practice 22*
- *Leeuwenhorst Definition 22*
- *Changing Domain of General Practice 22*
- *Wonca Definition—1991 (World Organization of Family Doctors) 24*
- *Olesen Definition—2000 24*
- *The European Definitions—2005 (WONCA Europe Definitions—2005) 25*
- *Definition of General Practitioner 29*
- *Definition of Family Physician 30*
- *Family Practice 31*
- *Difference—Family Practice and General Practice 31*
- *Advantages of Family Practice 31*
- *Primary Care 32*

5. The 'Family' in Family Medicine **37**
- *Focus on Family Health Care 37*
- *Family—Definition 37*
- *Characteristics of a Healthy Family 38*
- *Characteristics of a Disturbed Family 39*
- *The Family Life Cycle and Role of Family Physician 39*
- *Family Dynamics and Illness 41*
- *Family in Crisis 43*
- *Family-based Medical Counseling —The "Bathe" Technique 46*
- *Working with Families—Avoiding Pitfalls 47*

SECTION 2: HEALTH FOR ALL

6. The Alma-Ata Declaration **51**
- *Background 51*
- *The Genesis of Alma-Ata 52*
- *Primary Health Care Takes Center Stage 52*
- *Declaration of Alma-Ata 152*

7. Primary Health Care Approach to Health for All **55**
- *What is "Health for All"? 55*
- *HFA—The Fundamental Principle 55*
- *The Genesis of Primary Health Care 56*
- *The Concept of PHC 56*
- *PHC Definition 57*
- *The PHC Approach 57*
- *Ingredients of PHC 57*
- *PHC Revival—Beyound Declaration 59*

SECTION 3: CLINICAL APPROACH

8. The Spectrum of Clinical Diagnosis **63**
- *Clinical Process—History and Symptomatology 64*
- *Clinical Process—Physical Diagnosis 67*
- *Sequence in Clinical Diagnosis 68*
- *Diagnosis in Family Practice 70*
- *The Differential Diagnosis 72*
- *Changing Conceptions of Health, Disease and Diagnosis 72*

9. Investigations: General Principles **76**
- *Refining Clinical Diagnosis 76*
- *The Reason for the Test 77*
- *Analytical Errors 77*
- *Interpretation of Tests 78*
- *Importance of Chronological Data 81*
- *Right Choice of Test 81*
- *Gold Standard Tests 82*
- *Who the Investigation for: Patient or Doctor? 82*

SECTION 4: THE PRACTICE OF FAMILY MEDICINE

10. Communication Skills **87**
- *Communication as a Core Competency 87*
- *Definition 88*
- *Importance of Effective Communication 88*
- *Key Tasks in Communication with Patients 89*
- *Key Communication Skills Needed to Perform Key Tasks 89*
- *Communication Types 91*
- *Communication with Children 92*
- *Communication with Older Patients 93*
- *Barriers in Communication 93*
- *Common Communication Pitfalls 95*
- *Acquiring New Skills 95*
- *Neurolinguistic Programming 95*

11. Rapid Access to Improving Communication Skills **97**
- *Changing Practice Environment 98*
- *Refining Communication Skills 98*

12. The Consultation **104**
- *Objectives for the Consultation 104*
- *Tasks in the Consultation 105*

- *The Consultation Process 106*
- *Interviewing Skills 109*
- *Common Pitfalls when Interviewing Patients 113*
- *Consultations as Routines, Dramas and Ceremonies 113*
- *Patient Satisfaction with the Consultation 114*
- *Troublesome Consultations 114*

13. The Physician-Patient Relationship **116**
- *Concepts and Changes 116*
- *Types 117*
- *Scope of Physician-Patient Relationship 118*
- *Ending the Physician-Patient Relationship 121*

14. Balint Group **123**
- *Historical Origins 124*
- *Balint Groups 124*
- *Balint Training 125*
- *Balint Discoveries 126*

15. Designing a Patient-friendly Practice **130**
- *Objectives to Redesign 130*
- *Designing the Clinic 131*
- *The Waiting Room and Reception 131*
- *The Consultation Room 132*
- *Staff 133*
- *Greeting Patients—Checking-in and Checking-out 133*
- *Incorporating New Technology 134*

16. Counseling Skills **136**
- *Counseling Interventions in Primary Care 136*
- *Counseling 136*
- *Specific Areas of Counseling 138*
- *Counseling Procedure 139*
- *Counseling Strategies 140*

17. Patient-centered Care **143**
- *Why Such Broad Use? 144*
- *Defining Patient-centered Care 145*
- *Evidence Base for Patient-centered Care (PCC) 147*
- *Patient's Choice 147*
- *Patient-centeredness—What Determines the Physician's Clinical Behavior? 148*
- *Patient-center Care Model 148*
- *Hypothetical Case Scenario: An Adult Diabetic 149*

18. The Team Approach **153**
- *Need for Team Concept 153*
- *Personal versus Team Care 154*
- *Team Training: Current Status and Assessment 154*
- *Working with Colleagues 155*
- *Communication Strategies 156*
- *Team Cover on Off-Duty or Leave 157*

19. Leadership **159**
- *Physicians as Leaders 159*
- *Changing Leadership Competency 160*
- *Physicians as Better Leaders 160*
- *Developing Physician Leaders 161*

- *Characteristics of Leadership 162*
- *Tools for Leadership 163*
- *What Physicians should do when Asked to Lead? 164*

20. Addressing Medical Errors **168**
- *New Approach—Acknowledge Mistakes 169*
- *Medical Errors—Focus on Primary Care 169*
- *Definition 169*
- *Types of Errors 171*
- *Classification 171*
- *Understanding Errors in Family Practice 172*
- *Why should Doctors Disclose Medical Errors 173*
- *Why Doctors do not Disclose Errors 174*
- *System Redesign in Family Practice 175*
- *Apology as a System of Medical Error Disclosure 176*
- *Eliminating Errors in Family Practice—Current Trends 177*
- *How to Cope with Clinical Errors 180*
- *What Patients can Do 180*

21. Medical Records **184**
- *Purpose of Record Keeping 184*
- *Standards in Medical Record-keeping 185*
- *Content and Style 185*
- *Practical Ways of Improving Record-keeping 186*
- *Weed System: Problem-oriented Medical Record (POMR) and SOAP 186*
- *From SOAP to "SNOCAMP" 190*
- *Medical Council of India (MCI)—Importance of Medical Records 191*
- *Medicolegal Records 192*

22. The Difficult Patient **195**
- *Terminology and Incidence 196*
- *Characterizing the Difficult Patient 197*
- *Who is at Fault 198*
- *Problems in the Physician 199*
- *Problems in the Physician-Patient Relationship 200*
- *Disorders to Consider 200*
- *Strategy to Handle Difficult Patients 201*
- *Coping Skills for Physicians 202*
- *Coping Skills for Family Physicians 204*
- *The CALMER Approach 204*

23. Medical Professionalism **208**
- *Professionalism—Pitfalls 209*
- *The Evolution of Professionalism 209*
- *Defining Professionalism 210*
- *Fundamental Ethical (Moral) Principles 211*
- *A Set of Professional Responsibilities 212*
- *Model Behaviors of Professionalism 214*
- *Unprofessional Behaviors 215*
- *Reasons for Teaching Professionalism 215*
- *The Educational Challenge 215*

SECTION 5: ADOLESCENT HEALTH

24. Adolescent Care **221**
- *Introduction 221*
- *Definition 222*
- *Adolescent Consultation 223*
- *Exploring Hidden Agenda 224*
- *Confidentiality 224*
- *History 224*
- *Adolescent Communication 226*
- *Communication Techniques 226*
- *Physical Examination 227*
- *Counseling 228*
- *Goals of Counseling 230*
- *Improving Existing Services—Adolescent Care Clinics (ACC) 230*

25. A Problem Adolescent **233**
- *Parenting Stress 233*
- *Parenting Style and Problem Adolescent 233*
- *Behavior Problems 235*
- *Adolescent Depression 235*
- *Suicidal Risk 236*
- *Physician's Role 237*
- *Indications for Psychiatric Referral 238*
- *A Scheme for Fortifying the Parent-Adolescent Relationship 238*
- *Guidance and Counseling to Parents 239*
- *Preventive Advice to Parents and Family Members 239*

SECTION 6: GERIATRIC HEALTH

26. Aging and Geriatric Concepts **243**
- *Definition 243*
- *Demographic Revolution 244*
- *The Role of Family Physician 244*
- *Characteristics of Disease in Elderly 245*

27. Comprehensive Geriatric Assessment **249**
- *Barriers to CGA 250*
- *Medical Assessment 251*
- *History Taking and its Pitfalls 251*
- *Important Specific Areas 252*
- *Physical Examination and its Pitfalls 254*
- *Investigations 259*
- *Mental Status Examination 259*
- *Functional Evaluation 259*
- *Advance Directive 262*

28. Management of Common Geriatric Problems **264**
- *The "Age Wave" 264*
- *Paucity of Geriatric Care 265*
- *Geriatric Care and Family Physician 265*
- *Atypical Symptoms 266*
- *Physician's Role 266*

- *Major Manifestations of Common Geriatric Problems 268*
- *Psychological Problems and Elder Abuse 270*
- *Cardiovascular Problems 271*
- *Respiratory Problems 273*
- *Gastrointestinal Problems 274*
- *Incontenance and Urogenital Problems 274*
- *Endocrine Problems 275*
- *Musculoskeletal Problems 276*
- *Falls and Balance Problems 277*
- *Visual Impairment 278*
- *Hearing Problems 279*
- *Nutrition 279*
- *Attitudes for a Successful Geriatric Practice 280*

29. Practical Prescribing to the Elderly **283**
- *Concerns over Aging Population 283*
- *Prescribing Cascade 284*
- *Polypharmacy 285*
- *When should an ADR be Suspected? 286*
- *Principles of Good Prescribing 287*
- *Non-drug Therapy 287*
- *Begin Therapy with Clear Endpoints in Mind 288*
- *Treat the Disease Process Rather than Symptoms 289*
- *Start Low Go Slow 289*
- *Medication Debridement—Reducing Medications and Doses 289*
- *Review the Drug Profile at Every Visit 289*
- *Effective Communication 290*
- *Medication Noncompliance in the Elderly 290*
- *Measures to Enhance Compliance 290*
- *Ethical Principles 291*

SECTION 7: PALLIATION AND BEREAVEMENT

30. Communicating Bad News **295**
- *What is Bad News? 295*
- *Why is Breaking Bad News So Difficult? 295*
- *Importance of Disclosure 297*
- *What Patients Value 297*
- *How Should Bad News be Delivered? 298*
- *Communication in Specific Situations 300*
- *The Future 300*

31. Palliative Care: Principles **303**
- *Recognizing Dying 303*
- *The Need for Palliative Care 303*
- *Special Role of the Family Physician 304*
- *What is Palliative Care? 304*
- *Principles of Palliative Care 306*
- *Tasks in Palliative Care and Care of the Dying 307*
- *When Death is Approaching: Diagnosing Dying 308*
- *Patient—Family Involvement: Shared Decision Making 308*
- *Identification and Management of Symptoms 310*
- *Support of Family and Carers 312*

- *Support after the Death 312*
- *The Limits of Care at the End of Life 313*
- *Summary of Tasks for the Patients in the Dying Phase 313*
- *Conspiracy of Silence 313*

32. Palliative Home Care **316**
- *Caring at Home—Some Considerations 316*
- *Definition 317*
- *Home Care: Issues in Developing Countries—is There a Need? 317*
- *Demoralizing Syndrome 319*
- *Home—The Preferred Choice 319*
- *Involvement of Family Physician 320*
- *How to Get Started and Keep Going 321*
- *Clinical Issues 322*
- *Patient Issues 323*

33. Family and the Grief Process **327**
- *What is Grief? 327*
- *Symptoms of Grief 328*
- *Features of Grief 328*
- *Course of Grief 329*
- *Types of Grief Reaction 329*
- *Risk Factors for Complicated Grief 330*
- *Family Physician as Counselor 330*
- *Guidelines to Manage a Grieving Person and Family Members 331*
- *Referral 331*

SECTION 8: PREVENTION AND HEALTH CARE

34. Prevention in Family Practice **335**
- *The Power of Prevention 335*
- *Prevention—Family Physician's Role 336*
- *Prevention—Limiting Factors 336*
- *Promoting Prevention 337*
- *Levels of Preventions and Screening 337*
- *Opportunity for Prevention 338*
- *Scope for Prevention 339*

35. Preventive Care Delivery: Barriers and Remedies **346**
- *Overview 346*
- *Barriers to Prevention 346*
- *Solutions to Barriers 351*

SECTION 9: EDUCATION AND RESEARCH

36. Clinical Audit **359**
- *Why is Clinical Audit Important? 360*
- *Different Between Medical and Clinical Audit 360*
- *Multiprofessional Clinical Audit in Family Practice 361*
- *Difference Between Clinical Audit and Research 361*
- *The Audit Cycle 361*
- *Steps in Clinical Audit in any Particular General Practice 362*
- *Keep a Record 364*

- *Confidentiality 365*
- *Audit—Pitfalls 365*

37. Evidence-based Medicine: Principles **366**
- *A Case Scenario 366*
- *Case Study Continued 366*
- *Learning of Evidence-based Medicine (EBM) 367*
- *What is Evidence-based Medicine? 367*
- *Distinguishing Features of EBM 367*
- *Where did EBM Come From? 368*
- *The Rationale for EBM—The Paradigm Shift 368*
- *Definition of EBM and EBP 369*
- *Steps to Practicing EBM 370*
- *Advantage of EBM 373*
- *Limitations of EBM 373*
- *Misconceptions about EBM 374*

38. Evidence-based Medicine: Practice **376**
- *Evidence-based Practice 376*
- *Adherence of EBP in General Practice/Family Medicine 376*
- *Concerns about EBM in Primary Care Practice 377*
- *Essentials of EBM in Primary Care Practice 380*
- *The Future of EBM in Primary Care 380*

39. Research in Family Medicine **384**
- *Background of Research in Family Medicine 384*
- *What Constitutes Family/General Practice Research? 385*
- *Types of Research Methodology 386*
- *Good Research in Family Practice 389*
- *Research Strategies for Family Medicine 390*
- *Aims and Objectives of Research in Family Medicine 390*
- *Methodology or Logistics of Research 390*
- *What can Family Physicians do 391*
- *Suggested Research Training and its Incentives Rewards 393*

Appendices *395*
