Contents

1. Introduction to Clinical Medicine..... 1

2. General Examination..... 3

Examination of the Skin..... 3
Hirsutism..... 5
Madarosis..... 5
Flag Sign..... 5
Hypertelorism..... 6
Low-set Ears..... 6
High-arched Palate..... 7
Eyes..... 7
Characteristic Facies..... 9
Stature..... 10
Hands..... 10
Legs..... 14
Painless Ulcer of Foot..... 14
Nourishment..... 14
Chest..... 15
Self-assessment Questions for Clinical Medicine..... 16

3. Cardiovascular System Examination..... 20

Case Recording Format..... 20
I Preliminary Data..... 20
II Chief Presenting Complaints..... 20
III History Presentation in Detail..... 20
IV Physical Examination..... 28
V Diagnosis..... 32
VI Management..... 33
Cardiovascular System..... 33
Quick Review of Signs and Symptoms..... 42

Anatomical Landmarks in Cardiovascular System 42
Physiological Events that May Alter Cardiovascular System Findings 44
Cardiac Cycle 45
Symptomatology 46
Prophylaxis 51
Arterial Pulsations 52
Blood Pressure 54
Jugular Venous Pulse 56
Jugular Venous Pressure 58
Apical Impulse 59
Left Parasternal Impulse 61
Added Sounds 65
Murmurs 65
Important Things to be Known 70
Common Clinical Conditions 70
Mitral Stenosis 70
Aortic Regurgitation 77
Self-assessment Questions for Clinical Medicine 79

4. Respiratory System Examination 86
Case Recording Format 86
I Preliminary Data 86
II Chief Presenting Complaint 86
III History in Detail 86
IV Physical Examination 89
V Diagnosis 97
VI Management 97
Quick Review of Signs and Symptoms 104
Surface Landmarks in Respiratory System 104
Symptomatology of Respiratory System 108
Percussion 122
Auscultation 124

Respiratory Failure 128
Common Clinical Conditions 130
Self-assessment Questions for Clinical Medicine 147

5. Abdomen Examination 151
Case Recording Format 151
I Preliminary Data 151
II Chief Presenting Complaint 151
III History Presentation in Detail 151
IV Physical Examination 154
V Diagnosis 159
VI Management 160
Quick Review of Signs and Symptoms 160
Edema 160
Fever 162
Other Symptoms 164
Surface Marking for Organs 175
Self-assessment Questions for Clinical Medicine 177

6. Central Nervous System Examination 182
Case Recording Format 182
I Preliminary Data 182
II Chief Presenting Complaints 182
III History Presentation in Detail 182
IV Physical Examination 185
V Diagnosis 190
VI Management 210
Actions of the Extraocular Muscles 210
Quick Review of Signs and Symptoms 211
Upper Motor Neuron 211
Lower Motor Neuron 212
Extrapyramidal System 212
Cerebellum 213

Spinal Cord 215
Segmental Orientation of Sensory System 216
Representation of Motor Segments 217
Neurological Profile 218
Lucid Interval 218
Important Signs/Symptoms 218
General Examination in Central Nervous System Diseases 221
Specific Examination 225
Examination of Spinal Motor System 240
Self-assessment Questions for Clinical Medicine 251

7. Spotters 255
Scabies 255
Fungal Infections of Skin 256
Psoriasis 260
Leprosy 264
Herpes Zoster (Shingles) 269
Molluscum Contagiosum 271
Anemia with Koilonychia 272
Clubbing 273
Oral Candidiasis 275
Jaundice 275
Gynecomastia 276
Ascites 277
Precipitating Factors for Hepatic Encephalopathy 280
Major Complications of Portal Hypertension 280
Rheumatoid Arthritis 281
Bell's Palsy 283
Horner's Syndrome 285
Small Muscle Wasting of Hands 286
Parkinson Disease 287

Hypothyroidism 289
Hyperthyroidism 292
Goiter 293
Chickenpox 294
Common Electrocardiograms 295

8. Chest X-rays 304

9. Instruments 317
Ambu Bag 317
Endotracheal Tube 317
Tracheostomy Tube 317
Ryle's Tube 317
Stomach Wash Tube 321
Sengstaken-Blakemore Tube 322
Bone Marrow Biopsy Needle 323
Menghini Aspiration Biopsy Needle, Vim-Silverman Needle and Tru-Cut Needle 323
Pleural Aspiration Needle 326
Lumbar Puncture Needle 329
Urinary Catheters 331
Ascitic Fluid Aspiration (Paracentesis) 335

10. Problem-oriented Charts with Probable Clinical Diagnosis 337

Appendices 345
Appendix I: WHO Criteria for Diagnosis of Diabetes Mellitus 345
Appendix II: Risk Factors for Atherosclerosis 347
Appendix III: Relative Contraindications for Thrombolytic Therapy 348
Appendix IV: Sites of Aspiration of Fluid 349
Appendix V: Various Cuff Sizes for Blood Pressure Measurements 350
Appendix VI: Normal Pressure in Heart 351

Appendix VII: Obesity *352*
Appendix VIII: Glasgow Coma Scale *353*
Appendix IX: JNC VII Classification for Diagnosis of Hypertension (18 Year and Above) *354*
Appendix X: Cardiac Arrest *355*
Appendix XI: Revised National Tuberculosis Control Program *358*
Appendix XII: Reference Values of Common Laboratory Tests *365*

Index *373*
