Contents

1. Electronic Fetal Monitoring and Cardiotocogram 1
   - The First Production of Fetal Heart Rate Monitor in Japan *2*
   - Diagnosis of Nonreassuring Fetal States in the FHR Monitoring *3*
   - Ultrasonic Doppler Autocorrelation Fetal Heart Rate Monitor *3*
   - Quantitative NRFS Diagnosis by FHR Score in the FHR Monitoring *5*
   - Controversies in the Cardiotocogram Diagnosis *7*
2. Actocardiogram 10
   - Terminology *10*
   - History of Actocardiogram *12*
   - The Principle of Actocardiogram *15*
3. Fetal Response to Acoustic and Visual Stimulation 22
   - Methods *22*
   - Results *23*
   - Discussion *24*
4. Prediction, Evaluation and Management of Hypoxia in Fetal Growth Restriction 25
   - Prediction of Hypoxia *25*
   - Diagnosis of Hypoxia in Fetal Growth Restriction *26*
   - Management of Hypoxia in FGR *27*
5. Actocardiographic Studies on Fetal Central Nervous System Lesions 28
   - Methods *29*
   - Results *31*
   - Discussion *34*
6. Short- and Long-term Fetal Outcomes of Fetal Disorders Determined by the A/B Ratio of Actocardiogram 35
   - Methods *35*
   - Results *37*
   - Discussion *39*
7. Developments of Fetal Heart Rate Acceleration and Baseline Variability Analyzed with Actocardiogram Regarding Fetal Brain Damage 42
   - Methods *43*
   - Results *45*
   - Discussion *48*

8. Automatic Computerized Analysis and Diagnosis of Fetal Heart Rate: The Expert System on Fetal Heart Rate 53
- Prototype Automated FHR Monitors *53*

9. Artificial Neural Network Computer Diagnosis of Fetal Heart Rate 55

10. Computerized Actocardiogram for the Diagnosis of Fetal Behavior 56
- Methods *56*
- Results and Discussion *56*

11. Computer Diagnosis of Sinusoidal FHR and the Loss of Variability with Frequency Spectrum Analysis 58
- Sinusoidal Heart Rate Diagnosis *58*
- Loss of Baseline Variability *59*

12. Centralized Automatic Diagnosis of Fetal Heart Rate with Rapid and Direct Alarm System 60
- Methods *60*

13. Controversies of CTG Solved by Actocardiogram 64
- Physiologic Sinusoidal FHR *64*
- Case Studies *64*
- Discussion *66*

14. Strategies to Prevent Fetal Brain Damages 69
- Early Rapid Delivery in the Abnormal CTG and ACG *69*
- Fetal PVE Preceding Neonatal PVL in Preterm Baby *70*
- Postwords *72*
