Contents

Section 1: Vaginal Hysterectomy with Uterine Debulking

Introduction *3*
Case 1: Vaginal Hysterectomy (VH) with Uterine Debulking 8
Case 2: Vaginal Hysterectomy (VH) with Uterine Debulking Plus Bilateral Salpingo-oophorectomy (BSO) (CA125: 516) 9
Case 3: Vaginal Hysterectomy with Uterine Debulking Plus Ovarian Cystectomy 10
Case 4: Vaginal Hysterectomy with Massive Uterine Debulking Plus Bilateral Salpingo-oophorectomy (Right Hydrosalpinx) 11
Case 5: Vaginal Hysterectomy with Debulking Plus Bilateral Salpingo-oophorectomy with H/O Two Caesarean Sections 13
Case 6: Vaginal Hysterectomy with Uterine Debulking Plus Bilateral Salpingo-oophorectomy and Laparoscopic Cholecystectomy 14
Case 7: Nullipara: Large Debulking and Adnexectomy 17
Case 8: Nullipara and Obese: Debulking with Bilateral Salpingectomy 19
Case 9: Massive Debulking of Kilogram Uterus with Bilateral Salpingectomy-1 20
Case 10: Massive Debulking of Kilogram Uterus with Bilateral Salpingectomy-2 21
Case 11: Debulking of Large Adenomyoma, Bilateral Salpingectomy-1 22
Case 12: Debulking of Large Adenomyoma, Bilateral Salpingectomy-2 23
Case 13: Large Debulking with Bilateral Salpingectomy for Recurrent Postmenopause Bleeding 24
Case 14: Early Debulking with the Aid of Vasopressin 25

Section 2A: Vaginal Hysterectomy with History of Caesarean Section(s)

Introduction *29*
Case 15: VH with Left Ovarian Cystectomy 30
Case 16: VH Plus Stress Urinary Incontinence (SUI) Repair 32
Case 17: VH with Uterine Debulking 33
Case 18: VH with Right Ovarian Cystectomy Plus ?Endometrial Hyperplasia 34
Case 19: VH with Left Salpingo-oophorectomy for Ovarian Endometrial Cyst in a Morbidly Obese Patient 35
Case 20: VH with BSO for Right Ovarian Endometriotic Cyst 37
Case 21: VH with BSO for Abnormal Uterine Bleeding (AUB) with History of Caesarean Sections and Rupture Uterus 39
Case 22: VH Plus Vaginal Cuff with BSO for Postmenopausal Bleeder in a Morbidly Obese and Diabetic Patient 41
Case 23: VH with Altered Approach to Vesicouterine Peritoneum (VUP) 42
Case 24: VH in Heavy Cigarette Smoker with H/O Two Classical Caesarean Sections via Midline Vertical Laparotomy 46
Case 25: VH with Uterine Debulking Plus Bilateral Salpingectomy of Tubal Remnants after Four Caesarean Sections and No Vaginal Births 47
Case 26: VH Plus Bilateral Salpingectomy after One Caesarean and No Vaginal Births 48
Case 27: VH with Uterine Debulking after Six Midline Vertical Laparotomies (Five Caesarean Sections and One Ectopic Pregnancy) in a Morbidly Obese Cigarette Smoker 49

Section 2B: Vaginal Hysterectomy with History of Uterine Surgery in Past

Case 28: VH in Nullipara with H/O Abdominal Myomectomy 53
Case 29: VH Plus Salpingectomy in Primipara with H/O Abdominal Myomectomy and Recurrent Large Fibroids 54

Section 3: Vaginal Hysterectomy with Adnexal Pathology

Introduction *57*
Case 30: VH with BSO for Large Bilateral Hydrosalpinx 60
Case 31: VH with Left Salpingo-oophorectomy for Ovarian Endometrial Cyst in Morbidly Obese with Past History of Two Caesarean Sections 62
Case 32: VH with BSO for Left Ovarian Endometrial Cyst and Right Ovarian Teratoma with H/O Two Caesarean Sections 64
Case 33: VH with BSO for Bilateral Ovarian Endometrial Cysts with Positive "Dimple Sign" 66
Case 34: VH with BSO for a Solid Ovarian Tumor 68
Case 35: VH with BSO for ?Endometrial Polyp with an Ovarian Solid Tumor 69
Case 36: VH with BSO followed by Laparotomy for Ovarian Cyst (Failed "Trial Vaginal Route" because of Ovarian "CA") 70
Case 37: VH with BSO and Right Broad Ligament Myomectomy for Right Broad Ligament Fibroid (BLF) 71
Case 38: VH with BSO for Twisted Left Ovarian Cyst 73

Section 4: Nullipara and Vaginal Hysterectomy

Case 39: VH in Nullipara with Intact Hymen 77
Case 40: VH with Uterine Debulking 79
Case 41: VH with Uterine Debulking Plus Right Ovarian Endometrial Cystectomy (H/O Myomectomy) 80
Case 42: VH with BSO for Bilateral Large Hydrosalpinx 81
Case 43: VH Plus Vaginal Cuff with BSO in Obese, Diabetic with Endometrial Cancer 82
Case 44: VH with BSO for Twisted Left Ovarian Cyst 83

Section 5: Vaginal Hysterectomy for Endometrial Cancer

Introduction *87*
Case 45: VH Plus Vaginal Cuff with BSO: Postmenopausal Bleeder with Endometrial Complex Hyperplasia with Atypia 91
Case 46: VH Plus Vaginal Cuff with BSO: Postmenopausal Bleeder with Corpus Cancer Syndrome for Endometrial Cancer (CA) 93
Case 47: VH Plus Vaginal Cuff with BSO for Endometrial CA 95
Case 48: VH Plus Vaginal Cuff with BSO: Postmenopausal Bleeder with Corpus Cancer Syndrome. Failed "Trial Vaginal Route". Abdominal Surgery for LNR for Endometrial CA 96
Case 49: VH Plus Vaginal Cuff with BSO for Endometrial Complex Hyperplasia with Atypia. Corpus CA Syndrome Plus a History of Cardiac Bypass 98
Case 50: VH Plus Vaginal Cuff with BSO for Well-differentiated Endometrial Adenocarcinoma 99
Case 51: VH Plus Vaginal Cuff with BSO: Postmenopausal Bleeder with Endometrial CA with History of Two Caesarean Sections Followed by Incisional Hernia Repair 100
Case 52: VH Plus Vaginal Cuff with BSO Plus Laparoscopic Cholecystectomy for Postmenopausal Bleeder with Multiple Gallstones 101
Case 53: Laparoscopic Cholecystectomy and VH Plus Vaginal Cuff with BSO: "Failed Trial Vaginal Route Case" Abdominal LNR for Endometrial CA 102

Section 6: Failed Trial Vaginal Hysterectomy/Trial Vaginal Route

Case 54: Undiagnosed Uteroabdominal Band 107
Case 55: Uterocervical Adhesions with Abdominal Wall 108
Case 56: Diminished "Uterus-free" Space (Altered Uterocervical Angle) 110
Case 57: Ovarian Endometriosis with Positive "Dimple Sign" 111
Case 58: Large-sized Uterus 112
Case 59: Ovarian Malignancy 113

Case 60: Uterine Bulk Impedes Descent 115
Case 61: Extensive Adhesions from PID (Pelvic Inflammatory Disease) Limits Descent for VH 116
Case 62: Unanticipated Uterine Adhesions to Abdominal Wall-1 117
Case 63: Unanticipated Uterine Adhesions to Abdominal Wall-2 118
Case 64: Unanticipated Uterine Adhesions to Abdominal Wall-3 119
Case 65: Parasitic Myoma and Inaccessible Adnexa Leads to Laparoscopic Completion of VH 120

Section 7: Special Cases: Vaginal Hysterectomy

Case 66: VH Plus H/O Rupture Uterus and Two Caesarean Sections 123
Case 67: VH Plus Broad Ligament Myomectomy without Laparoscopy Plus Contralateral Endometriotic Cyst 125
Case 68: VH for CIN III 126
Case 69: VH for Metastatic Breast Cancer Plus Uterine Adenomyosis 127
Case 70: VH: Prophylactic for Hydatidiform Mole 128
Case 71: VH with BSO for Twisted Ovarian Cyst 129
Case 72: VH for Uterine Fibroids with H/O Failed Abdominal Hysterectomy 130
Case 73: VH under Local Anesthesia for Pulmonary Fibrosis 132
Case 74: VH with Altered Approach to VUP (VH with BSO) 134
Case 75: VH with Bicornuate Uterus 135
Case 76: Bladder Stone Removal at VH Plus Anterior and Posterior Repair 136
Case 77: Vaginal Hysterectomy as Emergency Procedure for Cornual Ectopic Pregnancy 138
Case 78: Vaginal Supracervical Hysterectomy 10 Years after Mesh Hysteropexy 139
Case 79: Vaginal Hysterectomy (VH): Incarcerated Prolapse due to Cervical Leiomyoma and an Intramural Myoma 140
Case 80: VH in Nullipara with Ongoing Chemotherapy for Non-gynecologic Malignancies 141
Case 81: VH for Endometrial Carcinoma in Morbidly Obese with History of Caesarean Section 142
