Contents

Preface *v*

Chapter 1 First principles
1.1 Overview of the renal system 1
1.2 Anatomy and embryology 2
1.3 Physiology 11

Chapter 2 Clinical essentials
2.1 Common symptoms and how to take a history 23
2.2 Common signs and how to examine the patient 27
2.3 Investigations 33
2.4 Diagnostic approach 44
2.5 Effects of drugs on the kidney 46
2.6 Prescribing and renal impairment 49

Chapter 3 Acute kidney injury
3.1 Clinical scenarios 54
3.2 Acute kidney injury 58

Chapter 4 Chronic kidney disease
4.1 Clinical scenario 69
4.2 Chronic kidney disease 71
4.3 End-stage renal disease 77

Chapter 5 Primary glomerular disease
5.1 Clinical scenarios 86
5.2 Minimal change nephropathy 88
5.3 Membranous nephropathy 91
5.4 Focal segmental glomerulosclerosis 92
5.5 IgA nephropathy 94
5.6 Postinfectious glomerulonephritis 95
5.7 Mesangiocapillary glomerulonephritis 97

Chapter 6 Secondary glomerular disease
6.1 Clinical scenario 99
6.2 Vasculitis 101

6.3 Systemic lupus erythematosus and other connective tissue diseases 104
6.4 Antiglomerular basement membrane disease 105
6.5 Diabetic nephropathy 106
6.6 Myeloma 108
6.7 Cryoglobulinaemia 109
6.8 Thrombotic microangiopathies 110

Chapter 7 Electrolyte disorders
7.1 Clinical scenarios 113
7.2 Hyponatraemia 118
7.3 Hypernatraemia 121
7.4 Hypokalaemia 123
7.5 Hyperkalaemia 127
7.6 Hypocalcaemia and hypercalcaemia 130

Chapter 8 Acid–base disorders
8.1 Clinical scenarios 136
8.2 Metabolic acidosis 138
8.3 Metabolic alkalosis 140
8.4 Respiratory acidosis 141
8.5 Respiratory alkalosis 142
8.6 Mixed pictures 143

Chapter 9 Hypertension
9.1 Clinical scenarios 145
9.2 Primary hypertension 147
9.3 Secondary hypertension 155
9.3 Accelerated hypertension 159

Chapter 10 Tubulointerstitial disease
10.1 Clinical scenario 162
10.2 Tubulointerstitial nephritis 164
10.3 Reflux nephropathy 166
10.4 Papillary necrosis 168
10.5 Infection 169
10.6 Renal tuberculosis 171
10.7 Renal sarcoidosis 173

Chapter 11 Hereditary disease
11.1 Clinical scenario 175
11.2 Polycystic kidney disease 176
11.3 Inherited glomerular disease 180
11.4 Inherited tubular disease 184
11.5 Tumour syndromes 187

Chapter 12 Urological nephrology
12.1 Clinical scenario 191
12.2 Stone disease (calculi) 192
12.3 Tumours: urothelial neoplasia 196
12.4 Retroperitoneal fibrosis 200

Index *205*
