Foreword ... ... *v*
Preface ... ... *vii*
Introduction ... ... *xi*

Part One

Diabetes Care in Clinical Practice

Module 1 **Diagnosis** *3*
Clinical Symptoms *3*
Screening for Diabetes *4*
High Risk Individuals *5*
Pattern of Diabetes in India *5*

Module 2 **Diabetes Consultation** *7*
Physical Examination *7*
Laboratory Evaluation *8*
Follow-up *10*
Annual Review *10*

Module 3 **Management** *13*
Initiating Therapeutic Measures *14*
Nutritional Approach *14*
Exercise *16*
Insulin Therapy *16*
Oral Hypoglycaemic Agents *22*
Hypoglycaemia *23*
Criteria of Control *24*
Self-monitoring of Blood Glucose *25*

Module 4 **Complications of Diabetes** *27*
Acute Metabolic Complications... ... ... *27*
Chronic Complications *31*

Module 5 **Special Situations** *41*
Infections in Diabetics *41*
Surgery and Diabetes *43*
Pregnancy and Diabetes *44*

Module 6	**Patient Education**	*47*
Module 7	**Prevention of Diabetes**	*51*
	Primary Prevention	*51*
	Secondary Prevention	*52*
Module 8	**Medico-social Aspects**	*57*
Module 9	**Organisation of a Special Diabetic Clinic**	*61*
Module 10	**Self-Assessment**	*65*
	Explanations	*68*
	Recommended Learning Source Material	*72*
	Research Opportunities	*73*

Appendices

Appendix 1	**Standard Procedures for Recording Data**	*77*
Appendix 2	**Height and Weight Chart**	*79*
Appendix 3	**Exchange List of Different Food Groups**	*81*
Appendix 4	**Empowerment Education**	*83*

Part Two

Additional Reading

1.	**Resume of Clinical Research: Last Three Decades at AIIMS** ...	*87*
2.	**Issues at Crossroads**	*99*
3.	**Clinical Problem-Solving Exercises in Management**	*109*
4.	**Clinical Problem-Solving Exercises, Diabetes with Some Complications** ...	*123*
5.	**Enrichment Guide**	*129*
	Computer Usage in Diabetes Care	*129*
	Management Issues—Elaboration	*131*
	Stress and Diabetes	*136*
	Intervention Strategy (for NIDDM)	*140*
	National Programme — Perspective	*141*
	Protocol for Noninsulin Dependent Diabetes (Diabetes Foundation—India)	*143*
