Contents

Part I
Basic Sciences

1. Anatomy of the Burn Wound *3*
2. Physiology of the Burn Wound *18*
3. Pathology of the Burn Wound *30*

Part II
Clinical Management

4. Initial Care of the Burn Wound *45*
5. Topical Antimicrobial Therapy *57*
6. Biological Dressings and Skin Substitutes *64*
7. Pharmacological Modulation of the Burn Wound *89*
8. Early Surgical Management of the Burn Wound *103*
9. Management of Burn Wounds in Special Areas *113*

Part III
Management of Special Burns

10. Chemical Burns *145*
11. Electrical Burns *153*
