CONTENTS

UPPER EXTREMITY 1

Breast 2
Pectoral region and axilla 4
Back and scapular region 15
Arm 25
Forearm and hand 37
Main nerves 62

LOWER EXTREMITY 69

Superficial structures 70
Thigh, front and medial side 73
Gluteal region, back of thigh and popliteal fossa 89
Front and lateral side of leg and dorsum of foot 109
Back of leg and sole 119

THORAX 139

Introduction 140
Thoracic wall 142
Trachea and bronchi 151
Mediastinum 152, 173
Lungs and pleura 154
Heart and pericardium 159
Arteries and veins 171
Oesophagus 179

ABDOMEN 181

Overview of abdomen 182
Anterior abdominal wall 195
Perineum 202
Stomach and intestines 208
Liver and biliary apparatus 211
Pancreas and spleen 219
Blood vessels of gut 222
Kidneys 228
Arteries and veins of abdomen 228
Pelvic wall 236
Pelvic viscera 240
Lymph nodes and lymphatic drainage 252

HEAD AND NECK 257

Scalp and face 258
Overview of head seen from lateral side 260
Overview of neck 266
Cranial fossae and orbit 278
Eyelids, conjunctiva and lacrimal apparatus 286
Parotid, temporal and infratemporal regions 287
Submandibular and sublingual regions 291
Muscles of neck 298
Arteries and veins of head and neck 303
Nerves of head and neck 321
Oral cavity, nasal cavity, pharynx and larynx 346
Endocrine glands 357
Lymph nodes and lymphatic drainage 361

CENTRAL NERVOUS SYSTEM 365

Brain, gross anatomy 366
Brainstem sections 370
Major pathways 375
Cerebellum 377
Functional areas 378
Internal capsule 379
Thalamus and hypothalamus 382
Ventricles of brain 386

RADIOLOGY 387

INDEX 415

On CD:

Anatomy of the skull presented in more than fifty explanatory diagrams!

An invaluable aid to the understanding of one of the most difficult facets of human anatomy.
