- Who should Undergo Invasive Prenatal Testing *1*
- Who can Perform the 'Invasive Prenatal Diagnostic Techniques?' *3*
- Diagnostic Techniques Available in Pregnancy *3*
- What is the Optimal Prenatal Testing Protocol for Down Syndrome? *4*

2. Paradigm Shift in Prenatal Diagnosis **6**

3. Historical Perspective of Invasive Prenatal Diagnosis: Amniocentesis, Chorionic Villous Sampling, Cordocentesis and Embryoscopy **10**

- Amniocentesis *10*
- Chorionic Villous Sampling (Biopsy) *12*
- Cordocentesis and Fetal Blood Sampling *14*
- Embryoscopy *15*

4. Patient Counseling Prior to Interventional Prenatal Diagnostic Procedures **16**

- Counseling Prior to Invasive Prenatal Diagnostic Procedure *16*

5. Ethical and Legal Issues in Prenatal Diagnosis **18**

- Ethical Issues *18*
- Legal Issues *19*

6. Principles of Ultrasound Guided Invasive Prenatal Diagnostic Techniques **20**

- Technical Aspects *20*
- The Ultrasound Principles in Invasive Prenatal Diagnostic Procedure *23*
- Visualizing the Needle *25*
- Challenges Encountered *25*
- Ultrasound Beam *25*
- In Plane Technique *28*
- Out of Plane Technique *28*
- In Plane Approach: Needle Beam Alignment *29*
- Align Your Mind *29*

- Estimating Depth of the Target *30*
- The Tricks and Tips for a Successful Procedure *31*

7. Procedural Prerequisites **33**
- Pregnancy Evaluation *33*
- Clinical Evaluation *33*

8. Amniocentesis **35**
- Principle of Ultrasound: In Plane Approach—Needle Beam Alignment *36*
- Multiple Gestations *39*
- Bloody Tap *41*
- Possible Problems in Amniocentesis *41*
- Amniotic Fluid Sample Collection and Transport to the Genetic Lab *42*
- Cytogenetic Analysis *44*
- Safety *44*

9. Chorionic Villous Sampling **47**
- Procedure Related Anatomy *47*
- Sampling Devices *50*
- Transcervical Chorionic Villous Sampling *52*
- Principles of Ultrasound: The Ultrasound Beam *53*
- Difficulties Encountered and How to Overcome *56*
- Transabdominal CVS *60*
- Complications *62*
- Contraindications *63*
- Timing *63*
- Assessment of Villi Quality *63*

10. Cordocentesis **66**
- Technique *66*
- Complications *67*
- Which Procedure at Which Gestation? *68*

11. Embryoscopy **70**

12. Multiple Pregnancy and Prenatal Diagnosis **72**
- Amniocentesis *72*
- Chorionic Villous Sampling *73*
