SECTION 1
REHABILITATION FOR TRAUMA

1. General Principles of Physiotherapy 3
2. Know Your Skeletal System 21
3. General Principles of Fractures, Soft Tissue Injuries and their Treatment 26
4. Fracture Treatment Methods: Then, Now and Future 60
5. First Aid and Emergency Care of the Injured 77
6. Fracture Clavicle and Injuries around the Shoulder 80
7. Injuries of the Elbow 90
8. Injuries of the Forearm, Wrist and Hand 104
9. Injuries around the Hip 119
10. Fracture Femur, Tibia and Fibula 129
11. Injuries of the Knee Joints 139
12. Injuries of Ankle and Foot 157
13. Fracture of the Pelvis 170
14. Injuries of the Spine 175
15. Peripheral Nerve Injury 190

SECTION 2
REHABILITATION FOR REGIONAL CONDITIONS

16. Regional Conditions 209
17. Hand Disorders 275

SECTION 3
REHABILITATION FOR LOW BACKACHE AND SPORTS INJURIES

18. Low Backache and Yoga 293
19. Sports Medicine and Sports Injuries 318

SECTION 4
GAIT

20. Human Gait 325

SECTION 5
REHABILITATION FOR NON-TRAUMATIC SKELETAL DISORDERS

21. Congenital Disorders 335
22. Developmental Disorders 347
23. Metabolic Bone Disorders 353
24. Osteomyelitis 361
25. Skeletal Tuberculosis 367
26. Disorders of Joints 377
27. Rheumatic Diseases 393
28. Neuromuscular Disorders 406
29. Bone Neoplasias 418
30. Amputations, Prosthetics and Orthotics 433
