Section 1—Neonatal Nursing

1. Neonatal Nursing—The Challenge 3

- *Philosophy of Specialist Neonatal Nurse (SNN)/Critical Care Neonatal Nurse (CCNN) 3*
- *Role of Specialist Neonatal Nurse (SNN)/Critical Care Neonatal Nurse (CCNN) 4*
- *Role of Neonatal Nurse Practitioner (NNP) 5*
- *Introduction, Establishment and Assessment of Education and Training Program 5*
- *Definition of the Role and Educational Program 6*
- *Evaluation of the Role 7*
- *Neonatal Nursing 7*
- *Care of Normal Newborn 8*
- *Neonatal Intensive Care Unit 9*
- *Patient Care in the NICU 10*

2. Role of Nurses in Newborn Care 14

- *Delivery Room (DR) Assignment and Nursing Responsibilities 14*
- *Some High Risk Situations and Anticipated Resuscitation Situations 16*
- *Nursing Standards for Newborn Care 17*
- *Daily Nursery Routines for Nurses 20*
- *Newborn Developmental Nursing Care Guidelines 30*

Section 2—Neonatal Nursing Protocol

3. Administrative and General Nursing Policy Protocols ..37

- *Policy for Immediate Normal Newborn Care 37*
- *Professional Conduct 38*
- *Baby's Footprint Record 39*
- *Admission/Discharge/Transfer: NICU 40*
- *Patient Care Delivery: NICU Intensive Care Areas 42*
- *Patient Care Delivery: NICU Intermediate Care 45*
- *Visiting: NICU 47*
- *Initiation of Procedure 49*
- *Physician Notification of Clinical Status Change 51*
- *Identification of the Newborn 52*
- *NICU Documentation Reminders 57*
- *Care-By-Parent Program/Rooms 60*
- *Care-By-Parent Record 63*
- *NICU: Transitional Intermediate Care (T-IMC) 64*
- *Environment/Safety: NICU 67*
- *Standard Precautions in the NICU 73*
- *Use of Contact Precautions in the NICU 75*

4. NICU Patient Care Nursing Protocols 77

- *NICU Policy Information Sheet 77*
- *The Most Important First Hour of Life Pathway for ≤ 1250 grams Infant/≤ 28 Weeks 81*
- *Skin-To-Skin Contact 83*
- *Developmental Care 86*
- *Weight Recording 89*

- Infection Control and Care *91*
  - *Infection Control Measures All Concerned Must Follow* *91*
  - *Suction Equipment Protocol* *95*
  - *Infection Screening Protocol* *97*
  - *Management of the Infant with a Suspected Infection in the NICU* *98*
  - *Practical Aspects of Asepsis Routine* *100*
- *Neonatal Skin Care* *104*
  - *Neonatal Skin Condition Score (NSCS)* *104*
  - *Neonatal Skin Care Guidelines* *105*
  - *Bathing* *107*
- *Practical Oxygen Administration* *110*
- *Temperature Management* *116*
  - *Thermoregulation* *116*
  - *Incubator* *124*
  - *Servo-Control Guidelines to Provide Neutral Thermal Environment* *129*
  - *Humidity Guidelines for Incubators* *131*
  - *Transitioning the Premature Infant to an Open Crib* *132*
- *Nutrition and Feeding* *134*
  - Breast Milk Use, Storage and Handling *134*
  - Breast Pumping: Electric Pump *137*
  - Gavage Feeding *139*
  - Enteral Feeding Tube Insertion *141*
  - Parenteral Nutrition—TPN/Lipids *147*
  - Routine Laboratory Monitoring for LBW Infants *151*

- *Fluid and Electrolytes Management 152*
  - *Specific and Practical Guidelines for Fluid and Electrolyte 152*
  - *Common Electrolytes and Metabolic Imbalances .. 155*
- *Care of LBW 158*
  - *Very Low Birth Weight (VLBW) Infant—Less than or Equal to 1250 Grams 158*
  - *Nutrition Pathway for the VLBW Infant by Day of Life (DOL) 165*
  - *Nutrition Pathway for the VLBW Infant by Gestational Age (GA) 167*
  - *Minimal Enteral Nutrition (MEN) 169*
- *Management of Jaundiced Baby 172*
  - *Neonatal Jaundice 172*
  - *Phototherapy 176*
  - *Fiberoptic Phototherapy 180*
  - *Polycythemia Screening Protocol 182*
  - *Partial Exchange Transfusion 183*
  - *Exchange Transfusion 186*
- *Blood and Blood Products 189*
  - *Blood and Blood Product Administration 189*
- *Neonatal Hypoglycemia 195*
  - *Capillary Blood Glucose Determination: Newborn 195*
  - *Care of Infant of Diabetic Mother (IDM): NICU 197*
  - *Hypoglycemia Screening 199*
  - *Hypoglycemia Protocol: High Risk Newborn 200*
- *Neonatal Medical Surgical Emergency Therapy (MSET) 201*
  - *Neonatal Emergency Intervention, Resuscitation Equipment and Medications 201*

- *Care of Neonatal Respiratory Disorders 205*
  - *Capillary Blood Gases 205*
  - *Surfactant Administration 209*
  - *Nasal CPAP (Continuous Positive Airway Pressure) 212*
  - *Emergency Preparedness and Intubation 220*
  - *Care of Infant with Respiratory Distress 221*
  - *High Frequency Ventilator: Care of Infant on 224*
- *Neonatal Cardiac Care 229*
  - *Care of Cardiac Patient 229*
  - *Cardiorespiratory Monitoring 234*
- *Care of Gastrointestinal Disorders 236*
  - *Care of Infant: Gastrointestinal Disorders 236*
- *Newborn Hearing Screening 241*
  - *Newborn Hearing Screening Program—BAERs Test 241*
  - *BAER/OAE Guidelines NICU 245*
  - *Eye Program 246*
- *Pain Management in Newborn 249*
  - *Neonatal Pain Management 249*
  - *Neonatal Pain, Agitation and Sedation Scale (N-Pass) 252*
  - *Scoring Criteria 254*
  - *Use of the N-Pass 257*
  - *Concentrated Sucrose for Neonatal Procedural Pain 262*
- *Useful Miscellaneous Formulas, Norms 265*
- *Neonatal Drug Administration 267*
  - *Drug Medication Errors in Neonatal Intensive Care Units 267*

– *Therapeutic Drug Monitoring 270*
– *Drug Administration 270*
– *Guidelines for giving Medications through a Medication/Flush Line 273*
– *Mixing IV Solutions containing Additives 276*
– *Medications: Orders Requiring 2 Signatures 277*
– *Neonatal Medication Administration 278*
– *Intravenous Medication Concentrations for Administration in the NICU 280*
– *Guidelines for Commonly used Medication 286*
– *Vasoactive Drip Preparation and Administration ... 289*
– *IV Potassium Administration 290*
– *IV Infusions of Sodium Bicarbonate 292*
– *Extravasation 293*
– *Intravenous Administration of Amphotericin B 296*

• *Surgical procedures 298*
– *Blood Drawing Via Peripheral Arterial Line (PAL): Drip Method 298*
– *Insertion Procedure for a PICC Line 299*
– *Technique for Entering Central Lines 302*
– *Intermittent Intravenous Device Maintenance 303*

• *Surgical Issues 305*
– *Central Venous Access in Neonates and Young Children 305*

Section 3—Appendices

Appendix 1: Hematological Values in the Newborn 317
Appendix 2: Normal Values—Clinical Chemistry 321
Appendix 3: Maternal Medication and Breastfeeding 323

Appendix 4: Formulas and Calculation 324
Appendix 5: Two-way Neonatal Transport Intensive Care Unit 327
Appendix 6: Return Transport of Patient to Referring Hospital 330
Appendix 7: Temporary Transfer 332
Appendix 8: Shunt Transport 334
Appendix 9: Arranging for Transport 336
Appendix 10: NICU Charge Nurse Duties: Job Description 339
Appendix 11: Isolation Policy and Guidelines for NICU 341
Appendix 12: Disinfectants and Germicides 343
Appendix 13: Housekeeping and Disinfection Routines 345
