OBSTETRICS

1. Antenatal Care *3*

Antenatal Care *3*
Booking Ultrasound *4*
Doppler in Obstetrics *5*
Standard Antenatal Care Investigation *6*

2. Ultrasound Reports *8*

Ascites and IUD *8*
Choroid Plexus Cysts *8*
Congenital Diaphragmatic Hernia *9*
Death of One Twin *In Utero* *10*
Down's in One Twin *12*
Echogenic Bowel *13*
Exomphalos *14*
Gastroschisis *15*
Idiopathic Polyhydramnios *16*
Increased Nuchal Translucency *17*
Nonimmune Hydrops *18*
Foetal Macrosomia *19*
Prediction of Macrosomia *21*
Raised Maternal Serum AFP *23*
Screen Positive for Down's *24*
Screening Tests for Down's *25*
Serum Screening vs Ultrasound *26*
Evaluation of SGA Foetus *27*
SGA Foetus *28*
Spina Bifida *30*
Breech *31*
Vaginal Breech Delivery *32*

3. Infections in Pregnancy *33*
GBS in Pregnancy *33*
HIV in Pregnancy *34*
Malaria and Pregnancy *35*
Outbreak of Parvovirus *37*
Screening for HIV in Pregnancy *38*
Varicella Infection in Pregnancy *39*
Tuberculosis and Pregnancy *40*

4. Obstetric Emergencies *42*
Eclampsia *42*
Inverted Uterus *43*
Manoeuvres of Shoulder Dystocia *44*
Road Traffic Accidents and Pregnancy *45*

5. Diabetes and Pregnancy *47*
Consequences of Type 1 DM *47*
Diabetes and Labour *48*
Improve Maternal Outcome in Diabetes *49*
Perinatal Outcome in Diabetes *52*
Pre-pregnancy Counselling of a Diabetic *53*
Previous History of Macrosomia *54*
Screening for Diabetes *55*

6. Medical Complications and Pregnancy *58*
Acute Renal Failure *58*
Anticoagulation and Pregnancy *59*
Aortic Stenosis *60*
Asthma and Pregnancy *61*
APL Positive *63*
Beta Thalassaemia and Pregnancy *64*
Congenital Heart Disease *65*
Cystic Fibrosis *67*
Dialysis and Pregnancy *68*
Drug Abuse and Pregnancy *69*
Epilepsy and Pregnancy *70*
Family History of Cystic Fibrosis *71*
Haemophilia *73*
Ischaemic Heart Disease and Pregnancy *74*
Lupus Nephritis and Pregnancy *76*
Systemic Lupus Erythematosus *77*

Myasthenia Gravis and Pregnancy *79*
Obstetric Cholestasis *81*
Postpartum Psychosis *82*
Post-renal Transplant and Pregnancy *84*
Pre-eclampsia *85*
Prosthetic Valve, Warfarin and Pregnancy *86*
Pyelonephritis in Pregnancy *88*
Sickle Cell Crisis *89*
Sickle Cell Disease *90*
Smoking and Pregnancy *90*
Thromboembolism Postpartum *91*
Thyrotoxicosis and Pregnancy *92*

7. Preterm Labour and PROM *95*
Antenatal Corticosteroids *95*
Outcome of a VLBW Infant *96*
PROM at Previable Gestational Age *97*
Previable Gestation and Preterm Labour *99*
Perinatal Mortality due to Preterm Labour *100*

8. Labour *103*
Foetal Heart Rate Monitoring *103*
Cerebral Palsy *104*
Cerebral Palsy and Foetal Monitoring *105*
Elective Caesarean Section at Maternal Request *106*
Epidural Anaesthesia *107*
Prevention of Brain Damage *108*
Meconium Stained Amniotic Fluid *109*
Occipito-posterior Position *110*
Placenta Praevia and Previous Caesarean Section *111*
Post-dated Pregnancy *112*
Postoperative Care *113*
Previous Caesarean Section *114*
Reduction of Morbidity due to CS *115*
Reduction of C/S Rate *117*
Slow Progress in First Stage of Labour *118*
Slow Progress in Second Stage of Labour *119*
Term PROM *120*
Use of Anaesthesia in Pregnancy *122*
Vaginal Birth after Caesarean Section *123*

GYNAECOLOGY

9. Urology *127*
Conservative Options in GSI *127*
Detrusor Instability *128*
Faecal Incontinence *130*
Investigations in Urogynaecology *131*
Postoperative Voiding Dysfunction *132*
Prolapse and Fitness for Surgery *133*
Repair of Third Degree Perineal Tear *134*
Sling Surgeries *135*
Surgical Options for GSI *136*
Surgical Options in Vault Prolapse *138*
Vault Prolapse *138*
Uterovaginal Prolapse *139*
Vaginal Birth and Pelvic Floor *141*
Urinary Tract Fistula *143*

10. Oncology *145*
$BRCA_1$ Mutation *145*
Counselling with $BRCA_1$ Mutation *146*
Complex Ovarian Mass *147*
Screening for Ovarian Cancer *148*
Non-epithelial Ovarian Cancers *150*
Ovarian Cyst *151*
Changes in Cervical Screening *152*
HPV Testing *153*
Mild Dyskaryosis *154*
Moderate Dyskaryosis *155*
Staging of Cancer Cervix *156*
Palliative Care *157*
Endometrial Carcinoma *159*
Postmenopausal Bleeding *160*
Reducing the Risk of Gynaecological Malignancies *162*
Vulval Intraepithelial Neoplasia *163*
Lichen Sclerosus *165*

11. Endocrinology ***167***
Anovulation *167*
Anovulation and Sub-fertility *168*
Complications of ART *169*
Complications of Ovulation Induction *170*
Embryo Transfer *171*
Management of OHSS *173*
Hirsutism *174*
Hyperprolactinaemia *175*
Laparoscopic Ovarian Diathermy *176*
Long-term Consequences of PCOS *177*
PCOS *178*
Primary Amenorrhoea *179*
Tubal Patency *181*
Unexplained Infertility *182*

12. Menstrual Problems ***184***
Dysfunctional Uterine Bleeding *184*
Second Generation Ablation Procedures *185*

13. Contraception ***187***
Contraception in a Teenager *187*
Contraception in the Age of 40s *188*

14. Surgery ***190***
Safe Laparoscopy *190*
Subtotal Hysterectomy *191*
Needle Injury at Surgery *192*
Oopherectomy *193*
Thromboembolism and Gynaecological Surgery *194*

15. Infections ***196***
Acute PID *196*
Acute Abdomen in a Teenager *197*
Chlamydia Screening *199*
Rape Victim *200*

16. Menopause ***202***
Benefits and Risks of HRT *202*
Contraception in a Woman on HRT *203*
Short-term HRT *204*

References for Preparation of Part 2 Exams *207*
Index *209*
