CONTENTS

Section 1: OVERVIEW OF ANTERIOR SEGMENT IMAGING

1. Anterior Segment Imaging Techniques 1

Section 2: ULTRASOUND BIOMICROSCOPY

2. Basic Principles 4
3. Examination Technique 7
4. Quantitative Measurements 14
5. Clinical Applications in Diagnosis of Glaucoma 20
6. Evaluation of Glaucoma Therapy 35
7. External Ocular Adnexa 43
8. Cornea and Refractive Surgery 48
9. Lens and Lens Based Refractive Surgery 56
10. Uveitis 61
11. Trauma 64
12. Ocular Oncology 71
13. Retina and Vitreous 77
14. Limitations and Conclusions 81

Section 3: ANTERIOR SEGMENT OPTICAL COHERENCE TOMOGRAPHY

15. Basic Principles 83
16. Qualitative and Quantitative Imaging 89
17. Clinical Application in Glaucoma Diagnosis 98
18. Clinical Application in Management of Glaucoma 105

19. Other Applications Including Cornea, Cataract and Refractive Surgery 110

20. Comparison of ASOCT with UBM 125

Section 4: PENTACAM

21. Principles and Imaging Techniques 130

22. Clinical Applications 140
