Contents

Skin and STDs

ANNEXURES

Annexure 1. Clinical Signs in Dermatology 3
Annexure 2. Tests Used in Dermatology 4
Annexure 3. Types of Epithelium in Body 5
Annexure 4. Common Dermatological Drug Reactions 5
Annexure 5. Diseases and Disorders of Nails 6
GOLDEN POINTS 7

CHAPTERS

1. Epithelium, Tumors, General Dermatology 9
2. Lichen Planus 49
3. Nutritional and Environmental Factors in Dermatology 58
4. Infective Disorders 63
5. Melanocytes, Pigment Metabolism and Disorders of Pigmentation 103
6. Allergic and Reactive Disorders, Dermatitis, Hypersensitivity 117
7. Dermatological Therapy, Side Effects 138
8. Vesiculobullous Diseases 151
9. Hair, Alopecia, Hirsutism 172
10. Sweat, Sebaceous and Other Glands and Diseases 181
11. Leprosy/Hansen's Disease 191
12. Psoriasis and Papulosquamous Disorders 207
13. STDs 225
14. Other Skin Disorders 243

EACH CHAPTER DIVIDED INTO FOLLOWING SECTIONS

Theoretical Concepts (Including Images)
Image-Based Questions
Answers with Explanations of IBQs
NEET/NBE Pattern MCQs
High Yield MCQs
NEET/NBE Pattern MCQs Answers with Explanations
High Yield MCQs Answers with Explanations
AIIMS PG 2018 MCQs with Explanatory Answers

Anesthesiology

ANNEXURES

Annexure 1. Famous Anesthesiologists and Scientists 273
Annexure 2. Cylinders used in Anesthesia 273
Annexure 3. Blood Gas Partition Coefficients 274
Annexure 4. Anesthetics of Choice 274
Annexure 5. Specific Side-effects of Anesthetics 275
Annexure 6. Specific Contraindications of Anesthetics 276
GOLDEN POINTS 277

CHAPTERS

1. Anatomy in Anesthesia and Historical Aspects 280
2. Physiology, Oxygen Delivery, Cylinders, Instruments and Circuits 287
3. Preoperative Evaluation and Premedication 304
4. Anesthetic Agents 310
5. Principles and Mechanism of Anesthesia 342
6. Intubations and Ventilation 358
7. Muscle Relaxants 369
8. Spinal, Epidural and Other Specific Anesthesia 382
9. Local Anesthesia 396
10. Cardiopulmonary Resuscitation 407
11. Monitoring 418
12. Anesthesia in ICU 429
13. Shock 436
14. Fluid Electoral Balance 440
15. Management of Airway 446
16. Poisoning and Opioids in Anesthesia 452
17. Acute and Chronic Relief 455

Radiodiagnosis and Radiotherapy

ANNEXURES

Annexure 1. Signs/Appearances in Radiodiagnosis 463
Annexure 2. Radiological Investigations of Choice 465
Annexure 3. Famous Scientists & Radiologists 466
Annexure 4. Recommended Views in Radiology 467
Annexure 5. Half-lives of Radioactive Isotopes 467
Annexure 6. Radiosensitivity and Chemosensitivity 468
GOLDEN POINTS 469

CHAPTERS

1. Basic Concepts of Radiodiagnosis 471
2. Cardiovascular System 498
3. Gastrointestinal System and Abdomen 519
4. Respiratory System 552
5. Skeletal System, Bones and Traumatology 583
6. Central Nervous System and Head & Neck 611
7. Genitourinary System 632
8. Obstetrics and Gynecology 645
9. Principles of Radiotherapy 657
10. Principles of Chemotherapy 669
11. Prevention and Early Diagnosis of Cancer 672
12. Principles of Nuclear Medicine and Interventional Radiology 678
13. Radiation Reactions and Management 685
14. Radiotherapy and Chemotherapy in Cancers 689
15. Radioisotopes in Diagnosis and Therapy 697

Psychiatry

ANNEXURES

Annexure 1. Famous Scientists and Psychiatrists 707
Annexure 2. List of Specific Phobias 708
Annexure 3. List of Specific Paraphilia 709
Annexure 4. Common Defence Mechanisms 710
Annexure 5. Symptoms and Prognosis of Schizophrenia 711
Annexure 6. Side Effects of Drugs Used in Psychiatry 712
GOLDEN POINTS 713

CHAPTERS

1. History Aspects, Physiology and Mental Illness 716
2. Mental Status Examination 740
3. Behavioral Sciences 751
4. Psychoses 787
5. Schizophrenia 802
6. Mood Disorders: Mania and Depression 821
7. Anxiety, Hysteria and Somatoform Disorders 845
8. Delirium and Dementia 862
9. Alcoholism 875
10. Substance/Drug Abuse 891
11. Psychiatric Emergencies 905
12. Disorders of Childhood and Adolescence 912
13. Personality Disorders 924
14. Other Psychiatric Disorders 936

Orthopedics

ANNEXURES

Annexure 1. Important Fractures in Orthopedic Clinics 959
Annexure 2. Key Tests in Orthopedics 960
Annexure 3. Key Signs in Orthopedics 961
Annexure 4. Classifications Used in Orthopedics 962
Annexure 5. Nails, Wires, Pins, Plates, Splints and Prostheses 963
Annexure 6. Important Orthopedic Surgical Procedures 964
Annexure 7. Special Radiological Views, Angles and Features 965
Annexure 8. Typical Gaits and Dislocations 966
GOLDEN POINTS 967

CHAPTERS

1. Anatomy, Physiology and General Orthopedics 970
2. General Traumatology 1009
3. Upper Limb Traumatology 1032
4. Lower Limb and Pelvis Traumatology 1065
5. Head, Neck, Trunk and Polytraumatology 1100
6. Cold Orthopedics and Arthritic Disorders 1113
7. Regional Conditions 1143
8. Neuromuscular Disorders 1181
9. Bone and Joint Tuberculosis 1206
10. Tumors 1217
11. Common Orthopedic Problems 1240
