Contents

1. Negative Pressure Wound Therapy in Lower Extremity Wounds **1**
Naren Patel, David G Armstrong

Negative-pressure Wound Therapy: Mechanism of Action *2*
Negative-pressure Wound Therapy Devices *3*
Evidence for Negative-pressure Wound Therapy *6*
Indications and Contraindications *7*
Technical Pearls *8*
Complications *9*

2. Compression Therapy: Base of Evidence and Practical Aspects **13**
Monika Huebner

Compression: Mode of Action *14*
Compression Pressure and Compression Class *15*
Types of Stockings *17*
Medical Compression Stockings: Choosing the Model *19*
Evidence for Compression Therapy: Latest Consensus Document *20*
Pitfalls in Compression: How to Enhance Patient Adherence *25*

3. ABC of Sclerotherapy for Varicose Veins **32**
Edwin Stephen, Albert Abhinay Kota, Vimalin Samuel, Dheepak Selvaraj, Prabhu Premkumar, Sunil Agarwal

Indications of Treatment *33*
Sclerosing Agents *34*
Current Evidence for Efficacy of Sclerotherapy in Treating Varicose Veins *35*
Technique *36*
Complications *39*
Further Evidence in Sclerotherapy for Varicose Veins *40*

4. Acute Lower Limb Ischemia **43**
Ch'ng JK, Shaun QW Lee, Manish Taneja, Benjamin SY Chua

Definition *43*
Etiology *43*
Clinical Assessment *46*
Classification of Acute Lower Limb Ischemia *47*
Clinical Diagnosis *48*
Investigations *49*
Initial Management *51*
Treatment *52*
Technique *55*
Complications *59*

5. Cancer-associated Thrombosis **64**
Deepa Jayakody Arachchillage, Mike Laffan
Risk Factors for Cancer-associated Thrombosis *64*
Diagnosis of Venous Thromboembolism in a Patient with Cancer *68*
Treatment of Cancer-associated Thrombosis *68*
Incidental Venous Thrombosis in Cancer Patients *72*
Contraindications to Anticoagulation *74*
Management of Patients with Recurrent Thrombosis Despite on Treatment Dose Anticoagulant *75*
Thromboprophylaxis and Cancer *76*

6. Newer Modalities in Management of Varicose Veins **85**
Jin Hyun Joh
Cyanoacrylate Closure *86*
Mechanochemical Ablation *91*
Polidocanol Endovenous Microfoam *92*
V-Block *93*

7. A Practical Guide to Managing Vascular Malformations **96**
Vijay Thakore, Karan Thakore, Sumit Kapadia
Classification of Vascular Malformations *96*
Characterization of Vascular Malformations *99*
Clinical Presentations *105*
Diagnostic Evaluation *106*
Treatment *111*

8. Vascular Graft Infections **122**
Jessica Shah, Shubhabrata Banerjee, R Sekhar
Classification of Vascular Graft Infections *122*
Pathophysiology *124*
Clinical Source of Infection *125*
Role of Topical Antibiotics *126*
Clinical Presentation *128*
Investigations *128*
Treatment *132*
Revascularization in Infected Vascular Grafts *134*
Outcomes of Various Surgical Procedures *140*
Graft Infection in the Endovascular Era *142*

9. Management of Ruptured Abdominal Aortic Aneurysm **149**
Michael Hofmann, Christian Alexander Schmidt, Patrick Buntschuh, Doris Jaeger, Bernhard Krüger, Mario Lachat, Frank J Vieth, Thomas Pfammatter, Gilbert Puippe, Zoran Rancic
Incidence of Ruptured Abdominal Aortic Aneurysms and Outcome of Endovascular and Open Surgical Repair *150*

Principles of the Treatment Concept *152*
Standardized Protocol of Endovascular Repair:
Zurich Experience in Bullet Points *162*
Special Remarks *164*

10. Fenestrated Endografts for Aortic Repair: State of Play **171**
Thodur Vasudevan, Katherine Hulme, Manar Khashram
Procedural and Technical Aspects *175*
Follow-up *176*
Literature Review *177*

11. Diagnosis and Management of Vasculitic Leg Ulcers **180**
Sunilkumar Singh
Understanding Vasculitis *180*
Vasculitic Leg Ulcers *181*
Diagnostic Work-up *184*
Management of Vasculitic Leg Ulcer *186*
Wound Care *188*

12. Paget–Schroetter Syndrome: Approach and Current Evidences **193**
Siddharth Rajput, Omar Aziz, Nedal Katib, Mauro Vicaretti
Pathophysiology *193*
Clinical Presentation *195*
Imaging *195*
Management *198*
What Next? *202*

13. Solutions to Complex Arteriovenous Access **206**
Prasanjit Sutradhar, Krunal Gohil, Bhavin L Ram, Robbie George
Early Cannulation Grafts *206*
Prosthetic Chest Wall and Cervical Arteriovenous Access *209*
Hemodialysis Reliable Outflow Vascular Access Device Placement *211*
Prosthetic Lower Extremity Arteriovenous Access *212*
Unconventional Vascular Access Procedures *215*
Arterial-Arterial Access Procedures *215*
Endovascular Arteriovenous Access: A New Thought *216*

14. The Vascular Amputee: Planning, Implementation and Outcomes—A Summary of Current Guidelines for Management **220**
Shraddha Raut, Md Azharruddin, Shubhabrata Banerjee
Methodology *221*
Prosthetic Rehabilitation: What to Expect? *236*
Key Success Factors *238*

15. Anesthesia Issues in Vascular Surgery **240**
Aparna Date, Hemlata Kapoor
Challenges *240*
Preoperative Evaluation *240*
Biomarkers *244*
Risk Reduction Strategies *244*
Perioperative Drug Therapy *245*
Carotid Surgery and Carotid Stenting *247*
Choice of Anesthesia *249*
Carotid Stenting *250*
Prevention of Contrast-induced Nephropathy *252*
Procedures on the Aorta *252*
Endovascular Aortic Repair Surgery *253*
Ischemia-reperfusion Injury *256*
Hemorrhage and its Management *256*
Pain Relief *258*
Intraoperative Care *258*
Postoperative Care *259*
Anesthesia for Arteriovenous Fistula Creation *259*
Lower Limb Revascularization and Amputation *259*
Regional Anesthesia and Anticoagulation *261*

16. Ethical Choices in Vascular Surgery **265**
Praveen Krosuri, Jessica Shah, R Sekhar
Case 1 *266*
Case 2 *267*
Case 3 *268*
Case 4 *269*
Case 5 *270*
Case 6 *271*

17. Spinal Cord Ischemia in Aortic Surgery: Current Concepts and Strategies **273**
Aayush Goyal, Shiv Kumar Choudhary
Vascular Anatomy of Spinal Cord *275*
Pathophysiology of Spinal Cord Ischemia *278*
Risk Stratification of Patient *279*
Prevention of Spinal Cord Ischemia *282*
Neurological Monitoring of Patients *290*
Clinical Presentation of Spinal Cord Ischemia and Management *292*
Practical Guidelines *293*
Recommendations *294*
Note on Endovascular Cases *294*
Future Advancement *295*

Index *299*
