Contents

1. Anatomy **1**
- Mons Pubis *2*
- Labia Majora *2*
- Nerve Supply of External Genitalia *8*
- Labia Minora *9*
- Clitoris *11*
- Vestibule 13
- Bartholin's Glands *15*
- Female Urethra *16*

2. Vulvar Dystrophies **18**
- Types of Vulvar Dystrophy *18*
- Lichen Sclerosus *19*
- Squamous Cell Hyperplasia *27*
- Lichen Planus *30*

3. Non-neoplastic Inflammatory and Ulcerative Vulvar Disease **33**
- Vulvar Vestibulitis *33*
- Vulvar Psoriasis *34*
- Fox–Fordyce Disease *34*
- Crohn's Disease *34*
- Behcet Syndrome *36*
- Systemic Disease *38*

4. Vulvar Intraepithelial Neoplasia **40**
- Incidence and Etiology *40*
- Relation between Vulvar Dystrophy, VIN and Invasive Squamous Cell Carcinoma Vulva *41*
- Classification of Vulvar Intraepithelial Neoplasia 43
- Natural History of Vulvar Intraepithelial Neoplasia *44*
- Terminology for Squamous Vulvar Intraepithelial Neoplasia *45*
- Clinical Profile of Vulvar Squamous Intraepithelial Neoplasia *46*
- Paget's Disease *58*

5. Vulvar Cancer (Squamous Type) 64
- Composition of Vulva *64*
- Classification of Vulvar Cancer According to Histopathology *64*
- Incidence and Epidemiology *65*
- Etiology *65*
- Diagnostic Dilemmas *66*
- Types of Squamous Cell Carcinoma of Vulva *67*
- Staging System *72*
- Predicting Lymph Node Metastasis *72*
- Treatment *75*
- Advanced Stage Disease *87*
- Role of Radiation Therapy in Vulvar Cancer *94*
- Recurrent Vulvar Cancer 98
- Verrucous Carcinoma *101*

6. Nonsquamous Type of Vulvar Cancer 105
- Vulvar Malignant Melanoma *105*
- Bartholin's Gland Carcinoma *110*
- Basal Cell Carcinoma *112*
- Paget's Disease and Other Vulvar Adenocarcinomas *113*
- Unusual Varieties of Vulvar Malignancy *115*
- Metastatic Tumors of the Vulva *116*
