Contents

UNIT 1: Basics of Vaginal Delivery 1

1.1. Maternal Passage—Pelvis 3

1.2. Passenger—Fetal Dimensions and Dispositions 26

1.3. Movement of Passenger—Mechanism of Vaginal Delivery 37

1.4. Stages of Labor 46

1.5. Places of Vaginal Delivery—Labor Room 65

1.6. Record Keeping in Labor Management 79

UNIT 2: Management of Normal Labor 83

2.1. Objective of Intranatal Care 85

2.2. Admission Procedure, Clinical Diagnosis of Onset and Progress of Labor 86

a. Admission Procedure 87

b. Clinical Diagnosis of Fetal Presentation and Position 89

i. General Examination 90

ii. Vaginal Examination 96

iii. Detection of Ruptured Membranes 104

2.3. Fetal Monitoring in Labor 109
2.4. Fluid Management in Labor 132
2.5. Analgesia and Anesthetic in Vaginal Delivery 141
2.6. Labor Management Protocols 147

UNIT 3: Abnormal Labor Situations 157
3.1. Dystocia and Cephalopelvic Disproportion 159
3.2. Vaginal Delivery in Abnormal Presentation and Position 181
3.3. Face Presentation 197
3.4. Brow Presentation 205
3.5. Breech Presentation 209
3.6. Transverse Lie—Shoulder Presentation ... 247
3.7. Compound Presentation 251
3.8 Management of Labor in Multifetal Gestation 253

Unit 4: Vaginal Delivery in Special Situations 263
4.1. Principle of Management of Preterm Labor and Preterm Prelabor Rupture of Membranes 265
4.2. Postterm Pregnancy 280
4.3. Still Birth/Perinatal Death/ Intrauterine Death 287
4.4. Labor in Women with Cardiac Disease .. 294
4.5. Labor in Hypertensive Disorders in Pregnancy 301

4.6. Labor Practice in Diabetics 306
4.7. Labor in Special Cases 309
4.8. Labor Management in HIV Positive Mother 313
4.9. Labor Management in Rh –ve Women .. 315
4.10. Vaginal Delivery in Antepartum Hemorrhage 318
4.11. Vaginal Birth after Previous Cesarean Section 322

UNIT 5: Obstetric Operations 327

5.1. Episiotomy 329
5.2. Instrumental Delivery 341
i. Type of Forceps 344
ii. Ventouse Delivery (Vacuum Extractor) 368
5.3. Induction of Labor 378
5.4. Maternal Injuries 387

UNIT 6: Childbirth Emergencies 401

6.1. Cord Prolapse—Abnormal Descent of Umbilical Cord 403
6.2. Shoulder Dystocia 408
6.3. Postpartum Hemorrhage 417
6.4. Uterus Rupture 434
6.5. Inversion of Uterus 438
6.6. Amniotic Fluid Embolism 442
6.7. Maternal Collapse and Shock 445

UNIT 7: Newborn Resuscitation and Puerperal Care 451

7.1. The Newborn Infant 453

7.2. Newborn Resuscitation 461

7.3. Postpartum Care 469

TO CONCLUDE—BACK TO NATURE—PAST AND FUTURE OF VAGINAL DELIVERY 477

ANNEXURES 481

1. Intrapartum/Postpartum Regimens for Prevention of MTCT of HIV 483
2. Maternal Resuscitation Drugs 484
3. Advanced Life Support Algorithm for the Management of Cardiac Arrest in Adults 485
4. Resuscitation Drugs for Neonates 486
5. Pharmacopeia 487

REFERRAL BOOKS 495
